Annotated Guide to the Insolvency Legislation Volume 2. Wolters

Kluwer

This thoroughly revised second edition provides a clear overview of the functions and liabilities of insolvency practitioners (IPs). It considers the circumstances in which IPs are appointed and their duties and powers, before offering a detailed investigation into their potential professional liabilities, as well as in-depth guidance to practitioners and advisers as to how claims might be framed and defended. Key Features: Examination of both reported case law and unreported cases from the authors' own experiences to provide unparalleled insight Discussion of tendentious matters such as aspects of remuneration and the latitude given to IPs in exercising their commercial judgement Analysis of recent legislative developments including the Administration (Restrictions on Disposal etc. to Connected Persons) Regulations 2021 regarding 'pre-packs' Coverage of important Supreme Court cases such as *Brake v The Chedington Court Estate Ltd* (2023) on the question of standing to challenge trustees in bankruptcy and *R (on the application of Palmer) v Northern Derbyshire Magistrates' Court* (2023) on whether administrators and liquidators are 'officers' of a company for all purposes Consideration of significant first instance decisions such as *Re One Blackfriars Ltd* (2021) on IP liabilities, *Centenary 6 Ltd v TLT LLP* (2023) on claims against administrators and liquidators, and *Carraway Guildford (Nominee A) Ltd v Regis UK Ltd* (2021) on the professional liability of a nominee in a CVA This book is a crucial resource for insolvency practitioners and lawyers in insolvency practice, enabling them to effectively assist and advise IPs from appointment to discharge. It is also essential reading for postgraduate students and academics in corporate and

insolvency law.

Insolvency Practitioners Palgrave Macmillan

Vanessa Finch provides an interesting look at corporate insolvency laws and processes. She adopts an interdisciplinary approach to place two questions at the centre of her discussion. Are current UK laws and procedures efficient, expert, accountable and fair? Are fundamentally different conceptions of insolvency law needed for it to develop in a way that serves corporate and broader social ends? Topics considered in this wide-ranging book include different ways of financing companies, causes of corporate failure and prospects for designing rescue-friendly processes. Also examined are alternative asset distribution of failed companies, allocations of insolvency risks and effects of insolvency on a company's directors and employees. Finch argues that changes of approach are needed if insolvency law is to develop with coherence and purpose. This book will appeal to academics and students at advanced undergraduate and graduate level, and to legal practitioners throughout the common law world.
