The Bibliographer's Manual of English Literature TAURUS

Translated into English for the first time, Andrés Avelino de Orihuela's *El Sol de Jesús del Monte* is a landmark Cuban antislavery novel. Published originally in 1852, the same year as Harriet Beecher Stowe's *Uncle Tom's Cabin* (which Orihuela had translated into Spanish), it provides an uncompromising critique of discourses of white superiority and an endorsement of equality for free people of color. Despite its historical and literary value, *The Sun of Jesús del Monte* is a long-neglected text, languishing for 150 years until its republication in 2008 in the original

Spanish. The Sun of Jesús del Monte is the only Cuban novel of its time to focus on La Escalera, or the Ladder Rebellion, a major anticolonial and slave insurrection of nineteenth-century Cuba that shook the world's wealthiest colony in 1843–44. It is also the only Cuban novel of its time to take direct aim at white privilege and unsparingly denounce the oppression of free people of color that intensified after the insurrection. This new critical edition—featuring an invaluable, contextualizing introduction and afterword in addition to the new English translation—offers readers the most detailed portrait of the everyday lives and plight of free people of color in Cuba in any novel up to the 1850s. *Writing the Early Americas*

The Paris Commune 1871 SAMPI Books

The Paris Commune was the biggest and last popular revolution in western Europe - ending the cycle of revolutions that started in 1789. The Parisians, reeling from defeat in the Franco-Prussian War set up their own revolutionary administration. Government troops eventually retook the city and took a terrible revenge: thousands died in the bloodbath that followed. The short-lived Commune and its repression cast a long shadow. It exposed deep divisions in French society and became a potent inspiration for the radical left. This stirring new study written with great zest, and a vivid sense of time and place lets the reader experience these tumultuous events at first hand and provides a comprehensive synthesis of recent research in both French and English.

With the same wit and perception that distinguished his stylish books on Paris, London, and Rome, M. Sasek pictures fabulous, big-hearted New York City in This Is New York, first published in 1960 and now updated for the 21st century. The Dutchman who bought the island of Manhattan from the Native Americas in 1626 for twenty-four dollars' worth of handy housewares little knew that his was the biggest bargain in American history. For everything about New York is big -- the buildings, the traffic jams, the cars, the stories, the Sunday papers. Here is the Staten Island

Ferry, the Statute of Liberty, MacDougal Alley in Greenwich Village, Times Square, Rockefeller Center, Harlem, Chinatown, Central Park. The brass, the beauty, the magic, This Is New York!

The literature on early-modern monetary history is vast and rich, yet overly Eurocentric. This book takes a global approach. It calls attention to the fact that, for example, Japan and South America were dominant in silver production, while China was the principal end-market; key areas for transshipment included Europe and Africa, India and the Middle East. Europeans were often just middlemen. Other monetized substances - gold, copper and cowries - must also be viewed globally. The interrelated trades in metals and monies are what first linked worldwide markets, and

disequilibrium within the silver market in the 16th and 17th centuries was an active cause of this global trade.

This historically significant novel of love and betrayal led to a renewed interest in preserving the grand architecture of Paris. Victor Hugo's *The Hunchback of Notre Dame* was written in 1831, at a time when the Notre Dame Cathedral in Paris was falling into disrepair. This epic novel helped spark a preservationist movement that led to the cathedral being restored to its full glory. Set in 1482, the story tells of how four men—the hunchbacked bell-ringer, Quasimodo; the archdeacon of Notre Dame, Claude Frollo; the dashing soldier Phoebus de Chateaupers; and the poet Pierre Gringoire—vie for the love of Esmeralda, a young Romani woman. As the story unfolds, readers come to realize that the focus of the story is not only on the human characters but on the grand cathedral itself.

Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español: Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601-1700), BICRES III (1701-1800), and together with Miguel Ángel Esparza Torres of

Madrid there followed BICRES IV (1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work — relative sources of the Americas have also been covered — making it exhaustive source for any serious scholar of any possible aspect of the Spanish language.
