 THE SUNDAY TIMES NO. 1 BESTSELLER Discover the hilarious memoir written by the most relatable woman in the world - Daisy May Cooper, creator and star of BBC's award-winning comedy This Country 'Thank goodness for gloriously silly Daisy May Cooper. Joyful, irreverent and totally uplifting' THE TIMES 'Hilarious. A riot from start to finish' DAILY EXPRESS 'Bloody brilliant, like the woman herself' HEAT ____ 'I've always had an over-active imagination and felt the urge to be a massive f**king show-off so acting seemed like the obvious choice of career. There was never anything else I wanted to do more. But fulfilling my ambition wasn't going to be easy . . . I grew up battling rural poverty which was a struggle enough but my family were completely insane to boot. Together with my brother Charlie, I staggered my way through adolescence from one drama to the next until finally, after years of trying, we had This Country commissioned by the BBC. By sharing tales of how I accidentally auditioned to be a pole-dancer to being catfished by a one-armed internet boyfriend, I answer all of life's great mysteries: Could I count wall plaster as one of my five-a-day? Would I find the afterlife in the back of a shitty pub? Who dropped the monster turd at the fake audition? And just how much of a humiliating, ridiculous, screw-up of a s**t-storm life did I need to lead before I could finally realise my dream?'

Listen up chumps, basically the Vicar asked us to edit the parish newsletter this month, we weren't gonna do it at first cos the vicar said 'I want you to channel your energy into doing something creative', which he knows brings back Kurtan's PTSD cos our old woodwork teacher Mr Perkins used to say it to him all the time, and when Kurtan actually DID channel his energy into something creative he managed to sand down some MDF to make a back scratcher and Darren Lacey pointed at it and laughed and called it an 'abomination to woodwork', which made Kurtan throw a chair across the room in rage and one of the chair legs hit Rob Robinson and left a dent in his forehead. So we decided to write this newsletter cos people need to the know the REAL s*** that goes down in our village, it ain't just fetes and duck races you know - it's proper f***** up. All the best, Kerry and Kurtan p.s. Kurtan wants to make it clear that although this newsletter is in book format it does not make him any of the following: Book worm Book bummer Boffin Nerd alert The lion, the witch and the book worm p.p.s If you don't buy this newsletter that's fine, but we are getting a percent of the profits to donate to the Kerry Mucklowe eating fund, so if you don't buy it I'll basically starve. Which is fine if your conscience can deal with that utter headf***. p.p.p.s If you were offended by any of the contents in this newsletter please post your complaints to PO BOX GET STUFFED.

Toast on Toast is the must-have book for all budding actors - and non-actors too. In this part memoir, part 'how to act' manual, Steven Toast draws on his vast and varied experiences, providing the reader with an invaluable insight into his journey from school plays to RADA, and from 'It's a Right Royal Knockout' to the Colony Club. Along the way, he reveals the secrets of his success. He discloses how to brush up on and expand your technical and vocal skills, how to nail a professional voiceover, and how to deal with difficult work experience staff in a recording studio. He also reveals the dangers of typesetting, describes the often ruthless struggle for 'top billing', and shares many awesome nuggets of advice. The end result is a book that will inspire and educate anyone who wants to tread the floorboards. It will also inform (and entertain) anybody who simply wants to discover what a jobbing actor's life is actually like.

'For a collection of good old-fashioned gags, it's one of the best out there, a rich buffet of inventive wordplay that's best savoured a little at a time to fully appreciate the joy of these perfectly-constructed morsels. For original, hilarious gags you'll want to share, this is the real deal.' - Chortle 'A rollicking joyride. . . Pundamentalist has puns for the whole family: rude ones, daft ones, deft ones, stinkers and absolute belters.' - British Comedy Guide Gary Delaney, one-liner extraordinaire, has appeared on shows like *Mock the Week* and written for the likes of Jimmy Carr, Jason Manford, and James Corden. Now, for the first time, comes the first collection of his finest jokes. Featuring the likes of: Garden centres can't reopen fast enough for me, I've been living on borrowed thyme. We can't even afford a garden, so when my girlfriend bought us a trampoline I hit the roof. Sure everyone cares about straws killing dolphins now, but they've been breaking camels' backs for years. Genius is 1% inspiration and 99% perspiration, which explains why Prince Andrew is so stupid. Sad news: The British simile champion has died. We shall not see his like again. My mom doesn't trust my dad's secretary. I asked her why, and she just said 'I've seen her type before'. Today someone told me that I look good with a salt 'n' pepper beard, so I took that as a condiment. My French pen friend just said 'Le Monde', which means the world to me. Can anyone tell me what FOMO stands for?

Everyone else seems to know. Actors have got Equity, Magicians have got the Magic Circle, but it's a shame ventriloquists don't have anyone to speak for them. Does anyone know if it's safe to dye your pubes? It's a bit of a grey area. And make sure you look out for Gary's next book, about Stockholm Syndrome: it starts off badly but by the end you'll really enjoy it . . .

In this long overdue and affectionate salute, celebrated comedy historian Robert Ross pays tribute to some of the finest, funniest and most fascinating names in comedy from both sides of the Atlantic. Monty Python's Terry Jones wrote the foreword. With the passionate input of such comics as Tim Brooke-Taylor, Hattie Hayridge, Roy Hudd, Michael Palin, Ross Noble, Chris Addison and Bernard Cribbins, Ross honours these legends of humor who, for a variety of reasons, didn't quite reach the heady heights of stardom or, once they had, couldn't cope with the pressures. Whether it is a favorite from the distant smoke- and ale-stained world of the Music Hall like the great George Robey, or the downbeat poetry of Hovis Presley, who dropped disenchanting bombs on the late 1990s, *Forgotten Heroes of Comedy* will finally elevate them to the Hall of Fame where they belong. These are extremely difficult and confusing times - people are cross and shouty. It's exhausting! But more than anything, people like Susan, people who don't hate other people, are apologising for the way that they think. Susan wants to make sure that they don't. She wants them to know that it's ok to love people and that kindness is something wonderful and brilliant. Above all, she wants them to bring on the joy. So the mission is simple. To get the nation to join her in not being negative. To bring back joy, kindness and community, to find that joy in the little things in life and defeat the hate and fear. Susan is a one-woman army of hope and joy, and she's ready to lead the nation in a different direction.

Scholars have long worked to identify the names of tribes and other groupings in the Americas, a task made difficult by the sheer number of indigenous groups and the many names that have been passed down only through oral tradition. This book is a compendium of tribal names in all their variants--from North, Central and South America--collected from printed sources. Because most of these original sources reproduced words that had been encountered only orally, there is a great deal of variation. Organized alphabetically, this book collates these variations, traces them to the spellings and forms that have become standardized, and supplies see and see also references. Each main entry includes tribal name, the "parent group" or ancestral tribe, original source for the tribal name, and approximate location of the name in the original source material.

The must-have guide to pop culture, history, and world-changing ideas that started in New York City, from the magazine at the center of it all. Since its founding in 1624, New York City has been a place that creates things. What began as a trading post for beaver pelts soon transformed into a hub of technological, social, and cultural innovation—but beyond fostering literal inventions like the elevator (inside Cooper Union in 1853), Q-tips (by Polish immigrant Leo Gerstenzang in 1923), General Tso's chicken (reimagined for American tastes in the 1970s by one of its Hunanese creators), the singles bar (1965 on the Upper East Side), and Scrabble (1931 in Jackson Heights), the city has given birth to or perfected idioms, forms, and ways of thinking that have changed the world, from Abstract Expressionism to Broadway, baseball to hip-hop, news blogs to neoconservatism to the concept of “downtown.” Those creations and more are all collected in *The Encyclopedia of New York*, an A-to-Z compendium of unexpected origin stories, hidden histories, and useful guides to the greatest city in the world, compiled by the editors of *New York Magazine* (a city invention itself, since 1968) and featuring contributions from Rebecca Traister, Jerry Saltz, Frank Rich, Jonathan Chait, Rhonda Garelick, Kathryn VanArendonk, Christopher Bonanos, and more. Here you will find something fascinating and uniquely New York on every page: a history of the city's skyline, accompanied by a tour guide's list of the best things about every observation deck; the development of positive thinking and punk music; appreciations of seltzer and alternate-side-of-the-street parking; the oddest object to be found at Ripley's Believe It or Not!; musical theater next to muckracking and mugging; and the unbelievable revelation that English muffins were created on...West Twentieth Street. Whether you are a lifelong resident, a curious newcomer, or an armchair traveler, this is the guidebook you'll need, straight from the people who know New York best.

Richard Ayoade - in this foren, perhaps one of the most 'insubstantial' people of our age, takes us on a journey from Peckham to Paris by way of Nevada and other places we don't care about. It's a journey deep within, in a way that's respectful and non-invasive; a journey for which we will all pay a heavy price, even if you've waited for the smaller paperback edition. Ayoade argues for the canonisation of this brutal masterpiece, a film that celebrates capitalism in all its victimless glory; one we might imagine Donald Trump himself half-watching on his private jet's gold-plated flat screen while his other puffy eye scans the cabin for fresh, young prey."
