Metaphor, though not now the scholarly [mania] it once was, remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis. Warren Shibbes' *Metaphor: An Annotated Bibliography and History* (Bloomington, Ind. 1971) recorded the initial interest. Then *Metaphor: A Bibliography of Post-1970 Publications*, published by John Benjamins, continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language. Five years later, there is a need for a report on the newest thinking and tendencies in the field. This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources, including many sometimes-hard-to-find publications from Eastern Europe. *Metaphor II* systematically collects references of books, articles and papers published between 1985 and May 1990, and includes for completeness corrections and additions to the earlier bibliographies. Abstracts are given for

many of the titles, while four indices (disciplines, semantic fields, metaphor theory and names) multiply the number of access points to the information.

The debate on literature and the arts provoked by the Italian neoavant-garde (neoavanguardia) is undoubtedly one of the most animated and controversial the country has witnessed from World War II to the present. Comprising the period between the late 1950s and the late 1960s, the phenomenon of the neoavanguardia involved key writers, critics, and artists, both as insiders - Sanguineti, Balestrini, Guglielmi, Eco, and others - and adversaries such as Pasolini, Calvino, and Moravia. In *The New Avant-Garde in Italy* - the first book in English to document the movement - John Picchione's objective is twofold: to provide a comprehensive analysis of the theoretical tenets that inform the works of the neoavanguardia and to show how they are applied to the poetic practices of its authors. The neoavanguardia cannot, Picchione argues, be defined as a movement with a unified program expressed in the form of manifestos or shared theoretical principles. It experiences irreconcilable internal conflicts that are explored as a split between two main blocs - one that is tied to the project of modernity, the other to post-modern aesthetic postures. This study suggests that some of the contentious views proposed by the neoavanguardia anticipated a wide range of issues that continue to be significant and pressing to this day.

100 Meter University of Virginia Press Brain research is much in the news, but what is its relevance in the classroom? Are there ways to take what brain researchers are discovering about learning and memory and apply it to the situations that educators face every day? Practicing teacher and author Marilee Sprenger tells how to do just that in this book. Sprenger has spent years studying neurological research and training other educators in brain compatible teaching methods. This background, combined with her long career as a classroom teacher, has given her priceless knowledge of what works in a multitude of classroom situations. Current brain research is as amazing as it can be confusing. This book discusses

in plain terms the structure, function, and development of the human brain. The author describes the five "memory lanes"--semantic, episodic, procedural, automatic, and emotional--and tells how they function in learning and memory. She offers dozens of practical suggestions for teaching and assessing in brain-compatible ways. Bridging the gap between theory and practice, the book offers valid, usable, "What you can do on Monday" ideas to incorporate into the classroom. This is an approach to brain research that educators at all levels can apply in their daily work.

A brooding novel of colonial intrigue in the Congo, from the author of *The Accordionist's Son* and *Obabakoak* The year is 1903, and the garrison of Yangambi on the banks of the Congo is under the command of Captain Lalande Biran. The captain is also a poet whose ambition is to amass a fortune and return to the literary cafés of Paris. His glamorous wife, Christine, has a further ambition: to own seven houses in France, a house for every year he has been abroad. At Lalande Biran's side are the ex-legionnaire van Thiegel, a brutal womanizer, and the servile, treacherous Donatien, who dreams of running a brothel. The officers spend their days guarding enslaved rubber-tappers and kidnapping young girls, and at their hands the jungle is transformed into a wild circus of human ambition and absurdity. But everything changes with the arrival of a new officer and brilliant marksman: the enigmatic Chrysostome Liege. An outstanding new novel from the critically acclaimed and prizewinning author Bernardo Atxaga, *Seven Houses in France* is a blackly comic tale which reveals the darkest sides of human

desire.
