Jellyfish World of Ocean Animals

This stunning debut novel about grief and wonder was an instant New York Times bestseller and captured widespread critical acclaim, including selection as a 2015 National Book Award finalist! After her best friend dies in a drowning accident, Suzy is convinced that the true cause of the tragedy must have been a rare jellyfish sting--things don't just happen for no reason. Retreating into a silent world of imagination, she crafts a plan to prove her

theory--even if it means traveling the globe, alone. Suzy's achingly heartfelt journey explores life, death, the astonishing wonder of the universe...and the potential for love and hope right next door. Oddlot Entertainment has acquired the screen rights to *The Thing About Jellyfish*, with Gigi Pritzker set to produce with Bruna Papandrea and Reese Witherspoon.

Amazing Jellyfish The Creative Company
Jellyfish are animals that live in the sea. Most jellyfish are made up of a bell or top part. Then there are lots of tentacles or arms that hang down from the bell. These arms can be up to 100 feet long! The arms are the part of the jellyfish you want to stay away from. They have tiny stingers all over them. These stingers can inject poison into anything they touch. Find out what a jellyfish looks like, where it lives, what it eats, what eats it, how babies are born, and some funky facts. This Educational Version includes activities designed to reinforce Common Core Curriculum Standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.
