Opening with a powerful cycle of elegies for her long-distant, half-brother, this major new collection by one of our bestselling poets then goes on to include both serious and funny poems about

women and poems about the precarious balance of nature, ending with the beautiful, life-affirming "The Art of Blessing the Day." 160 pp.

Humphrey Bogart. Abbott and Costello. Judy Garland and Mickey Rooney. John Wayne. Rita Hayworth and Betty Grable. Images of these film icons conjure up a unique moment in cinema and history, one of optimism and concern, patriotism and cynicism.

What Dreams Were Made Of examines the performers who helped define American cinema in the 1940s, a decade of rapid and repeated upheaval for Hollywood and the United States. Through insightful discussions of key films as well as studio

publicity and fan magazines, the essays in this collection analyze how these actors and actresses helped lift spirits during World War II, whether in service comedies, combat films, or escapist musicals. The contributors, all major writers on the stars and movies of this period, also explore how cultural shifts after the war forced many stars to adjust to new outlooks and attitudes, particularly in film noir. Together, they represented the hopes and fears of a nation during turbulent times, enacting on the silver screen the dreams of millions of moviegoers.

Plan for six weeks of learning covering all six areas of learning and development of the EYFS through the topic of what things are made from. The Planning for Learning series is a series of topic books written around the Early Years Foundation Stage designed to make planning easy. This book takes you through six weeks of activities on the theme of what are things made from. Each activity is linked to a specific Early Learning Goal, and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting. This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children's topic, as well as ideas for bringing the six weeks of learning together. Weekly topics include a look at materials around us including paper, wood, fabric, wool and shiny materials. Count wooden bricks, make postcard collages and design shiny jewellery. Bring it all together with a jumble sale!

Primary School Books were vehicles by which authors in

nineteenth-century France hoped to shape the future. These authors, members of the middle class, believed in reason and progress and in their own ability to ascertain what was reasonable and to enforce progress. Not surprisingly, they did not always get the cooperation of the people whom they were trying to lead to a civilized life. Peasants, who made up the largest population of those needing progress, in the view of the middle class, did not accept new ideas unquestionably. They worked out their own compromises, evasions, and selections from the portrait of the good life presented to them in the village primary schools. The books of Zulma Carraud are particularly interesting because they were directed specifically to socializing rural children to modern gender roles. Annotated excerpts from her best-selling books, *La Petite Jeanne ou le devior* and *Maurice ou le travail*, highlight the growing difference between women's work, which is referred to as "duty" and is portrayed as an expansion of woman's nature, and men's work, which remains a duty to his family, country, and God, but more importantly, becomes a source of fulfillment, provides a sense of achievement and of self worth. In Carraud's books, men use their skills to tame nature, to create civilization, in an ever-expanding field of endeavors, while women's work remains confined to child nurture, house care, care of the sick and elderly. The process of inculcating new values is traced with the aid of school inspectors' reports, the letters and diaries of teachers, and a collection of notebooks kept by rural pupils. These documents provide a rare view of the dialectic nature of historical change.

An analysis of the 1923 Treaty of Lausanne from multiple historical, economic, and social perspectives. The last of the post-World War One peace settlements, the 1923 Treaty of Lausanne departed from methods used in the Treaty of Versailles and took on a new peace-making initiative: a forced population exchange that affected one and a half million people. Like its German and Austro-Hungarian allies, the defeated Ottoman Empire had initially been presented with a dictated peace in 1920. In just two years, however, the Kemalist insurgency enabled Turkey to become the first sovereign state in the Middle East, while the Greeks, Armenians, Arabs, Egyptians, Kurds, and other communities previously under the Ottoman Empire sought their own forms of sovereignty. Featuring historical analysis from multiple perspectives, *They All Made Peace, What is Peace?* considers the Lausanne Treaty and its legacy. Chapters investigate British, Turkish, and Soviet designs in the post-Ottoman world, situate the population exchanges relative to other peacemaking efforts, and discuss the economic factors behind the reallocation of Ottoman debt and the management of refugee flows. Further chapters examine Kurdish, Arab, Iranian, Armenian, and other communities that were refused formal accreditation at Lausanne, but which were still forced to live with the consequences, consequences that are still emerging, one hundred years on.

Catch up as the story continues on Star Gazer Island. Three women find friendship and courage on the shores of Corpus Christi Bay. Come visit the Star Gazer Inn, with a side trip to the McIntyre Ranch, as widow Alice McIntyre finds her way between two worlds. The Star Gazer Inn is packed as the summer nights cool off, but temperatures are rising as Alice and Seth are exploring a new level of their "friendship" and both are nervous. Oh the "Glamping" we will do...Riley has more than he bargained for as the venue opens, and the women show up in droves ready to be pampered while roughing it on the ranch's beach side retreat. And the woman he's been hoping he would find just pulled into the park... Jackson and Nina are expecting...puppies! And Lisa is not happy when an old flame shows up as a guest at the Inn. Put your feet up, grab a glass of sweet iced tea, or a glass of your favorite wine and enjoy time on the Texas coast. This new series follows Alice, her sons, and her friends--and new loves--on the South Texas coast with its sparkling topaz water. You'll want to dip your toes in and stay awhile.

If the experiences and other answers provided in this book were accounted for in any of the many books I have read, then there is a certainty that I would have been spared the agony and the loss of time and other resources due to ignorance and a misguided lifestyle. The tabooed subject of demons is reserved for fiction and is considered the figment of the imagination of the people of the medieval times. It is now fashionable to dismiss the subject

based on ones status and the persons with whom one associates. The book accounts for personal encounters with the unseen and details the painful struggles of the author to break from the grip of an orchestrated demonic spell. The book declares also that the theory of evolution, by its own account of the process, irreversibly leads to a supreme being. Disaster, disease, and destruction provide knowledge necessary for the eternal state, and God is unwilling to let mankind enter eternity as ignoramuses. There are benefits to be gained from the materials of this book, and I believe the experiences and thoughts shared will improve in significant ways the lot of every reader and others with whom they share these gains.

Each step in our life is so fragile, yet so carefree and exciting. We as children go on as if nothing will ever go wrong, as if nothing will ever happen to us, as if everything is just so perfect. Its a wonderful state of mind for the time that it lasts. My parents worked very hard for all of us all of the time. They planted us well in the soil of Sacramento. I love and thank my father for who he was and love my mother for who she is. They are the very essence of my soul

Charles Harper Webb is celebrated for his use of humor; yet even his funniest poems rise, as the best comedy must, out of deep human drives, sorrows, and needs. Powerful immersions in what it means to be human, these poems explore the spectrum of emotions from love to hate, tenderness to brutality. They can be withering and vulnerable in the same breath. Models of clarity and vividness, they are mysterious when they need to be,

ranging from lyric to narrative, from realism to wild surreal flights, powered by a fierce, compassionate intelligence. Metaphors of startling aptness and originality, a voice at once endearing and provocative, high musicality, propulsive energy, wild imaginative leaps, as well as mastery of diction from lyricism to street-speak, create a reading experience of the first order. Uniformly fun to read, these poems go down easy, but pack a wallop. As Robert Frost said poetry should do, *What Things Are Made Of* "begins in delight and ends in wisdom."
