 A rigorous, high-yield review for the new ABA Part 1: BASIC Examination The year 2014 marks the beginning of a new phase in board certification for anesthesiology residents in the United States. The Part 1 exam is now split into two written examinations: Basic and Advanced. Anesthesiology. Residents who are unable to pass the Basic examination will not be allowed to finish their training. That's why this book is a true must read for every anesthesiology resident. It is the single best way to take the stress out of this make-or-break exam, focus your study on nearly 200 must-know topics found on the board exam outline, and identify your areas of strength and weakness. Written by program directors with many years of board examination advising experience, Anesthesiology Core Review Part One: BASIC Exam is designed to be the cornerstone of your study preparation. Each chapter of Anesthesiology Core Review succinctly summarizes key concepts in basic science and clinical anesthesia practice. Space is conveniently provided throughout

the book to add notes from other study resources. Anesthesiology Core Review Part One: BASIC Exam is logical divided into four sections: Basic Science Clinical Sciences Organ-Based Sciences Special Issues in Anesthesiology (covering important topics such as professionalism and licensure, ethics, and patient safety) With its expert authorship and concise yet thorough coverage, Anesthesiology Core Review Part One: BASIC Exam is biggest step you can take to assure effective preparation for the new ABA BASIC Examination.

Everything you need to pass the NAPLEX® - comprehensive

study material and two practice exams – in one student-reviewed package. Written by an instructor who has taught thousands of students, this all-in-one study guide was developed and reviewed by pharmacists, faculty, students, and recent graduates – so you know it contains only the most relevant, up-to-date content. You'll find valuable foundational material and chapter-ending case application questions that cover every key topic included on the NAPLEX. Two downloadable practice tests with a total of 370 questions allowing you to pinpoint your weaknesses. Includes: Coverage that is organized around the NABP competencies and designed to sharpen problem-solving skills, put must-know information at your fingertips, and improve exam-taking ability. More than 1400 case application questions, each with a detailed explanation of both correct and incorrect answer choices. Takeaway Points at the end of every chapter that summarize key concepts. Two complete downloadable practice tests, each with 185 questions.

Each chapter of the Student Study Guide begins with a chapter review tied to the chapter goals in the text. Next, sample problems are supplied and stepped out through the solution, for each type of problem covered in the chapter. A Self-Test serves up fill-in-the-blank exercises to assess learning, with answers supplied at the end of the chapter. Finally, chapters end with the solutions for all of the in-chapter problems, as well as for the odd-

numbered end-of-chapter problems.

A new title in the acclaimed Understanding series that focuses on the science of healthcare delivery. Over the past decade, the subject of Systems Science has skyrocketed in importance in the healthcare field. With its engaging, clinically relevant style, *Understanding Healthcare Delivery Science* is the perfect introduction to this timely topic. It covers every aspect of what actually constitutes "best care" and how it can be most efficiently delivered from an operational standpoint. The book is exceptional for two other reasons: numerous case vignettes put the content in a clinically relevant framework, and its comprehensive coverage spans everything from quality and safety to data and policy. Readers will find a valuable opening section that delivers an outstanding introductory discussion of Healthcare Delivery Science. Co-author Dr. Michael Howell is a nationally recognized expert on healthcare quality, whose research has been covered by *The New York Times*, CNN, and *Consumer Reports*. He has served on national quality- and safety-related national advisory panels for the CDC, Society of Critical Care Medicine, CMS, and others. An active healthcare delivery scientist, Dr. Howell has published more than 90 research articles, editorials, and book chapters on topics related to quality, safety, patient-centeredness, and critical care.
