 Shan people can be found in a belt stretching from Assam (Northeastern

India) over Myanmar (Burma) to the Chinese province Yunnan. In this volume Shan manuscripts from collections in Berlin, Munich and Hamburg are described. In this catalogue a total of 335 manuscripts and inscribed pieces of cloth are introduced. For each document there is mentioned its title, the date, the author, its appearance as well as a summary of the contents. In the introduction many topics are raised, such as a short history of the Shan, the Shan script, famous authors, material writing culture, a typology of written documents, and the principles of prosody. "In compiling this catalogue of Shan manuscript, Terwiel and Chaichuen have done valuable work which will be appreciated by everyone who is doing research on Shan or Tai culture or

cultural history and related themes by using original indigenous sources. [◆]
 The completion of this work marks a new milestone in Shan studies and Tai studies as a whole." Tai culture.

A Universal and Critical Dictionary of the English Language Franz Steiner Verlag First Published in 1984. From Adam Smith to Karl Marx, classical economists identify work as a collection of technical operations resulting in the creation of social goods and founding value. The authors of this book deal with several societies in Asia, Africa and America. D'Adam Smith a Karl Marx, les économistes classiques identifient le travail a un ensemble d'operations techniques aboutissant a la creation de biens sociaux et fondant la valeur. Les auters de ce livre traitent de plusieurs societes d'Asie, d'Afrique at d'Amerique.

Learning and Teaching Around the World is a wide-ranging introduction to diverse experiences, practices and developments in global primary education. It explores different contexts for children's learning, and methods and purposes of primary education, in settings across Africa, Asia, Europe, the Americas and Australasia, and addresses wider issues such as the rise of refugee

learners and large multi-grade classes. With an explicit focus on comparative and international studies and improving the knowledge, understanding and practice of effective pedagogies for children's learning, this book reflects on key issues such as: Standards for learner-centred education Patterns of inclusion and exclusion Defining 'teacher professionalism' The impact of global education agendas Language policy for schooling and assessment *Learning and Teaching Around the World* is an essential text for those wishing to develop a critical understanding of the experiences of primary teachers and children around the world. Aimed at both undergraduate and postgraduate education studies students, the scope of this book will support all students in

developing knowledge of primary education and of the diverse needs of learners in an era of global movement of children and families.

The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations, but with the express purpose of providing the reader with a deep understanding of the music itself. Consequently, there are readings that are chosen because they have been influential, but there are also many which, though published, have not enjoyed very wide circulation. There are those which are of obvious historic interest, and others which speak to contemporary issues. Among other things, the volume provides an excellent

sense of the varying ideologies and approaches that determine the relationship between author and subject. The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally. It is also an excellent resource for those who do not have immediate access to harder-to-find articles, and is perhaps most vital to those who are looking to find a way into the world of South African music. Published to observe the twelfth centenary of the Battle of Roncevaux, the event that inspired the *Chanson de Roland*, this edition provides the first systematic analysis of the entire poem. Professor Brault's edition also incorporates the considerable scholarly work done in the half century since the Bedier and Jenkins editions appeared. The underlying theme of this new edition is that the poem is a Christian hero. As imagined by the poet Tuoldus—and writing about 1100, at the time of the First Crusade—Roland, the nephew of Charlemagne, had no faults and accomplished mighty deeds in warring

against the Saracens. The introduction compares the known historical facts about the Battle of Roncevaux with the Roland legend, with various versions of the poem, and with the Oxford text. Christian thought and sensibility are shown to permeate the *Chanson de Roland*, in its character portrayal and narrative development, as well as in its tone and diction—and to provide its thematic unity and metaphorical consistency. Influences of the oral tradition of the *chansons de geste* are demonstrated, as are evidences of the accompanying gestures used by the jongleurs in interpreting these works. The Commentary organizes discussion of the 4002 verses into 49 units. The method of analysis is eclectic, combining thematic criticism with philology,

exegetical interpretation with iconography. The 66 illustrations, primarily from Romanesque works of art, clarify key passages

Colton and Fitch's Introductory School Geography Manchester University Press

This book investigates the Mesopotamian roots of two key monotheist characters, Adam and Noah, and their stories, through an exhaustive reading of relevant texts from the ancient literature; it includes original Arabic transliterations, and Arabic and English translations of sections from Akkadian and Sumerian inscriptions, and the Hebrew Genesis. The common, biblical beliefs in an initial, single human creation, and a subsequent survival of a punishing, catastrophic flood were among the key forming pillars of the

Near East monotheist religions. The other key pillar was, arguably, the belief in the existence of a one, supreme god and creator. However, neither the two stories of human creation and catastrophic flood, nor the belief in one supreme god, were originally introduced by these monotheist religions. Key inscriptions from ancient Mesopotamia have clearly indicated that various versions of these beliefs were commonplace for thousands of years before. Despite the differences in details, and at times ambiguities, the monotheist faiths seem to have derived their defining themes from one source: early Mesopotamian mythology. Unfortunately, several key inscriptional facts supporting this hypothesis were lost in the current transliterations,

translations, and interpretations of the ancient texts.

Sex has been sadly neglected in studies of African folktales. The present book assembles 29 erotic folktales of the Balsa in Northern Ghana. Most of the Balsa stories rendered here have been

tape-recorded in Buli, their language. Part I of the book contains stories about Sexual Organs. Part II comprises stories about Sexual Intercourse. The erotic folktales of the Balsa will be investigated in the context of their religious beliefs and their social practices. The book will thus give an intimate view not only of sexual views and practices, but also of the ethos and the world-view of an African people.
