This 496-page book allows the average homeowner or home buyer to conduct a real estate transaction in California. It guides both the prospective buyer and the seller in the necessary steps. If properly completed, the contract in this book will ensure all of the terms and conditions of the transaction are complete, accurate, and explanatory. Using the provided forms, both parties can be assured their interests are protected and they are complying with all the legal requirements. This book also provides the seller with each and every seller-completed disclosure form required for the sale of a property of one to four residential units. The only disclosure forms omitted are the ones that must be completed by a third party certified to provide the natural hazards disclosures, environmental disclosures, and real property tax liability disclosures.

This book explores 100 current real estate transactions which contain "red flags". A red flag is an indicator that there are, or may be, problems. Agents, Buyers, and Sellers will want to take a good look at the existing situation and determine what, if anything, needs to be done before proceeding. Ignoring these red flags can lead to major troubles; many of these troubles became actual lawsuits. Every topic is followed by suggestions of how to resolve these issues before they develop into problems. Don't make yourself the target!

California real estate practitioners should understand that their real estate license actually allows them to operate under an exception to the general rule that people are not allowed to practice law without being an active member of the State Bar of California. In other words California real estate licensees are in effect permitted to "practice law" within a narrow defined field covered by the California real estate licensing laws. This manual will address the scope of permitted activities and how not to cross over the line into areas where an attorney should be involved.
