Nicoll's History, which tells the story of English drama from the reopening of the theatres at the time of the Restoration right through to the end of the Victorian period, was viewed by Notes and Queries (1952) as 'a great work of exploration, a detailed guide to the untrodden acres of our dramatic history, hitherto largely ignored as barren and devoid of interest'.

Lord Salwicke is a very rich but worried man. His beautiful daughter, Tasia, is already twenty years of age, which has dampened his hopes of her taking London by storm. Though not quite an old maid, he fears she may have missed her chance for wedded bliss. So he decides to take matters into his own hands and finds her a suitable husband. But Tasia is not a young lady who likes being told what to do. Headstrong and stubborn she envisages marriage to a man who loves her, not a union of convenience to a man she hasn't met. Determined to show her father the error of his ways, Tasia masquerades as a tutor and manages to obtain employment as teacher to the Earl of

Linsdale's two young sons, Peter and Simon. The boys have already frightened off previous learned tutors by their bad behaviour and flat refusal to take part in lessons. Entering the Earl's home, Tasia soon learns that due to an unhappy early marriage, the Earl has set his face against all women, seeing them as untrustworthy and inferior in every way to a man. Believing that she can win the trust of the two boys, and spark an interest in learning before the return of the Earl, she sets to work with the help of her beloved cocker spaniel, Jimbo. But two dark clouds hang over the schoolroom threatening Tasia and the happiness she finds with her young charges. Firstly the fear of being found by her father and forced home to get married, and secondly worry that the Earl might return home unexpectedly and demand to know why his wishes regarding the education of his sons have been ignored. A loving but strict father, the Earl has his own ideas about the way two young men should be educated - and they could not be further away from the new regime that Tasia has installed since her arrival. Will Tasia be able to hide out until she has proved a point to her father? Will her success as a tutor challenge the Earl's opinions of women? As the clouds loom ever closer Tasia faces the biggest decisions of her life - to conform or stand up for her beliefs and hold out for true love.

In 1992, Jeff and Kristi Leeland's infant son, Michael, needed a bone marrow transplant. It cost \$200,000 they didn't have. That's when Dameon, the most picked-on kid in the junior high where Jeff taught, emptied his bank account and handed Jeff twelve \$5 bills to help save Michael's life. Other students rallied behind Dameon's \$60 donation of hope--and a community rallied behind them. In less than four weeks, they raised over \$227,000 for Michael's life-saving transplant. Sometimes it's the small who are mighty and the young who are wise.... Kids will do heroic things when they have heroic things to do. Out of the Leelands' experience came Sparrow Clubs USA, an organization of kids helping kids in medical need. Batman is one of the most compelling and enduring characters to come from the Golden Age of Comics, and interest in his story has only increased through countless incarnations since his first appearance in *Detective Comics #27* in 1939. Why does this superhero without superpowers fascinate us? What does that fascination say about us? *Batman and Psychology* explores these and other intriguing questions about the masked vigilante, including: Does Batman have PTSD? Why does he fight crime? Why as a vigilante? Why the mask, the bat, and the underage partner? Why are his most intimate relationships with "bad girls" he ought to lock up? And why won't he kill that homicidal, green-haired clown? Combining psychological theory with the latest in psychological research, *Batman and Psychology* takes you on an unprecedented journey behind the mask and into the dark mind of your favorite Caped Crusader and his never-ending war on crime.

Studies of varied aspects of Robin Hood legends and associated topics: the greenwood, archery, outlawry, and 20c response to the legends. The Robin Hood tradition has had a continuing appeal from the middle ages to the present day, the hero himself holding a distinctive place within popular culture, his exploits, and those of his companions, being celebrated in multiple forms, from the earliest rituals, plays and ballads to musical theatre, lyric poetry, modern popular fiction, cinema and TV. The essays in this volume provide a rich and coherent perspective on this enigmatic figure and the legends which have grown up around him, offering a wide range of approaches. Topics include place-name study; examinations of surviving manuscripts and their cultural context; appraisals of the links between Robin Hood and medieval archery; other medieval outlaws; mythic figures such as the Green Man; patterns of masculine and feminine identity; and the popularity of Robin Hood on stage and screen, in comic books and videos, and in modern Japan. There are also extended overviews of the hero's origins and status; and the future of Robin Hood studies. Interest in Sylvia Plath continues to grow, as does the mythic status of her relationship with Ted Hughes, but Plath is a poet of enduring power in her own right. This book explores the many layers of her often unreliable and complex representations and the difficult relationship between the reader and her texts. The volume evaluates the historical, familial and cultural sources

which Plath drew upon for material: from family photographs, letters and personal history to contemporary literary and cinematic holocaust texts. It examines Plath's creative processes: what she does with materials ranging from Romantic paintings to women's magazine fiction, how she transforms these in multiple drafts and the tools she uses to do this, including her use of colour. Finally the book investigates specific instances when Plath herself becomes the subject matter for other artists, writers, film makers and biographers.
