A witness in danger. Assassins on the hunt. After testifying against her brother's murderer, Hope Miller thought she'd be safe in witness protection—until she's attacked by an assassin at her new safe house. Now her identity and location are in the hands of a vicious drug cartel, and only US marshal Andrew Lewis can protect her. But stopping the crime ring could prove lethal for them both. From Love Inspired Suspense: Courage. Danger. Faith. *Chase's Calendar of Events, 2011 Edition* BRILL

The Works of Ibn Wāḍih al-Ya'qūbī (3 vols.) contains a translation of the writings of Abū al-'Abbās al-Ya'qūbī, a Muslim polymath of the third/ninth century. The works include the History (Ta'rikh); the Geography (Kitab al-buldan); a new translation of his essay (Mushakalat al-nas) and a set of fragments.

Shocking true stories of those who walk among us . . . Just who has visited us in the past? Who might be coming next? And who walks among us today? Real Aliens, Space Beings, and Creatures from Other Worlds investigates the theories, the mysteries, and the facts surrounding alien involvement in the lives of Earthlings. Packed with thought-provoking stories and shocking revelations of more than 300 otherworldly incidents, including aliens living among us, spacecraft landings, interstellar cooperation, alien encounters, government conspiracies, hybrid children, mutilations, missing time experiences, secret alien facilities, and the influence of extraterrestrials on human events throughout history. Each astonishing report is detailed with thorough research of the historical record, news articles, and disquieting

testimonials.

 The acclaimed classic novel and fan favorite—the far-future story of one man's quest to discover the truth behind a galactic war hero.

The Athenaeum Wolters Kluwer Law & Business
 The clinical approaches to the chronic degenerative diseases that drain our resources, and compromise our well-being, have become almost exclusively symptom-focused. The common wisdom is that they are idiopathic with final outcomes to be managed rather than prevented or cured. That they are potentially reversible rarely enters any discussion between doctor and patient. Reversibility of Chronic Disease and Hypersensitivity, Volume 5: Treatment Options of Chemical Sensitivity, the final volume of this set, offers a much different perspective on chronic degenerative disease; one that disputes the idiopathic label attached to most, as well as the usual fatalistic prognosis. *Sinful Sacrifices*
 Cambridge University Press
 60 years ago, the space

yacht Polaris was found deserted, the fate of its pilot and passengers a mystery. Now, to mark the anniversary of the disappearance, there is to be an auction of what was left behind on the ship. Using his insider knowledge, Alex Benedict, one of the preeminent antiquities dealers in the galaxy, secures some of the artifacts. But then an explosion destroys most of the collection, convincing Alex that drastic measures are being taken to hide what happened aboard the Polaris - which is why that's exactly what he has to find out, especially if it means risking his life. Seeker BRILL
 This photographic survey of attack and missile submarines captures the essence of the men who drive them.

Diplomatic List Legacy

Words
 Enoch Powell's explosive rhetoric against black immigration and anti-discrimination law transformed the terrain of British race politics and cast a long shadow over British society. Using extensive archival research, Camilla Schofield offers a radical reappraisal of Powell's political career and insists that his historical significance is inseparable from the political generation he sought to represent. Enoch Powell and the Making of Postcolonial Britain follows Powell's trajectory from an officer in the British Raj to the centre of British politics and, finally, to his turn to Ulster Unionism. She argues that Powell and the mass movement against 'New Commonwealth' immigration that he inspired shed light on Britain's war generation, popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain. Through Powell, Schofield illuminates the complex relationship between British social democracy, racism and the politics of imperial decline in Britain.

"Trust me," he says. "Trust is a lot to ask of someone you've just met." "Okay, then a take a chance on me." Imogen Shaw is done with this life, or at least she's done pretending that everything is the same as it used to be. What was once so perfect and uncomplicated is ruined. Her dad, a person she thought could never disappoint her, turned out to be a liar and a fraud. All she cares about now is getting out of town and starting her new life in Boston. Love, she decides as she packs up her room and vows to put all of the hurt behind her, is just a delusion for suckers. If anybody knows about things falling apart, it's Seth Cavanaugh. With an alcoholic mother and a sister stuck in prison, Seth's gotten used to taking care of himself. He figures he can handle anything life hurls at him because whenever people have let him down, music has always been there to carry him through. But these days even music feels like a stranger, and now Seth is in search of something more. The setup is simple: A starry night, a scavenger hunt, one unlikely partnership, and two desperate hearts headed for each other on a collision course. In

Chasing Polaris, Erica Cope and Autumn Doughton bring you another radiant story about misfits, catastrophic mistakes, and unforgettable discoveries. Simultaneously heart-wrenching and hilarious, Seth and Imogen's journey is one that can't be missed. A girl. A boy. A fragile trust. Everyone knows that true love is a joke and hearts are made to be broken. But what if Imogen and Seth took the chance anyway?

She married a man she never spoke a word to. Now, they're thrust on a quest to save their planets. An evil race of artificial intelligence bent on enslavement shatter their family. As AI, space travel and war threaten to pull their family apart, Leofric and Coco must prove that love can survive the universe's relentless tug toward entropy. The heat between the savage alpha King and his sexy, human Princess reaches a fever pitch as they dash through space and time to save their family. This steamy sci-fi romance is a blue alien romance set in Enid Titan's alien romance universe. This is the third

and final book in the series featuring NO cliffhanger and a guaranteed HEA. If you enjoy hot alien romance and alien savage romance stories, you'll love this sizzling hot book which will leave you dripping with excitement over the alien male/human female pairing!

Department of State Publication McGraw Hill Professional

Now in paperback, revised and updated, the stirring and authoritative account of one of World War II's most highly decorated submarines Find 'Em, Chase 'Em, Sink 'Em is the first book to recount the tragic and mysterious loss of the World War II submarine USS Gudgeon. In April 1944, the highly decorated submarine USS Gudgeon slipped beneath the waves in one of the most treacherous patrol areas in the most dangerous military service during World War II. Neither the Gudgeon nor the crew was ever seen again. Author Mike Ostlund's "Uncle Bill," the operator of a farm implements business, was aboard that ship as a lieutenant junior grade. Through extensive research of patrol reports in U.S. and Japanese naval archives, interviews with

veterans who had served aboard the Gudgeon before its final patrol, and the personal effects of the lost men's relatives, Ostlund has assembled the most accurate account yet of this remarkably successful submarine's exploits, of the men aboard from steward to captain, and of what we now know about her demise. *Find 'Em, Chase 'Em, Sink 'Em* details the memories and life lessons of the young men who went to sea aboard Gudgeon before its last patrol knowing hardly anything, and came home having seen too much.

With Polaris, multiple Nebula Award-nominee Jack McDevitt

reacquainted readers with Alex Benedict, his hero from *A Talent for War*. Alex and his assistant, Chase Kolpath, return to investigate the provenance of the cup. Alex and Chase follow a deadly trail to the Seeker - strangely adrift in a system barren of habitable worlds. But their discovery raises more questions than it answers, drawing Alex and Chase into the very heart of danger.

Find 'Em, Chase 'Em, Sink 'Em Kristine Mason Called "spellbinding" (Scientific American) and "thrilling...a future classic of popular science" (PW), the up close, inside story of the greatest space exploration project of our time, New Horizons' mission to Pluto, as shared with David Grinspoon by mission leader Alan Stern and other key players. On July 14, 2015, something amazing happened. More than 3 billion miles from Earth, a small NASA spacecraft called New Horizons screamed past Pluto at more than 32,000 miles per hour, focusing its instruments on the long mysterious icy worlds of the Pluto system, and then, just as quickly, continued on its journey out into the beyond. Nothing like this has occurred in a generation—a raw exploration of new worlds unparalleled since NASA's Voyager missions to Uranus and Neptune—and nothing quite like it is planned to happen ever again. The photos that New Horizons sent back to Earth graced the front pages of newspapers on all 7 continents, and NASA's website for the mission received more than 2 billion hits in the

days surrounding the flyby. At a time when so many think that our most historic achievements are in the past, the most distant planetary exploration ever attempted not only succeeded in 2015 but made history and captured the world's imagination. How did this happen? Chasing New Horizons is the story of the men and women behind this amazing mission: of their decades-long commitment and persistence; of the political fights within and outside of NASA; of the sheer human ingenuity it took to design, build, and fly the mission; and of the plans for New Horizons' next encounter, 1 billion miles past Pluto in 2019. Told from the insider's perspective of mission leader Dr. Alan Stern and others on New Horizons, and including two stunning 16-page full-color inserts of images, Chasing New Horizons is a riveting account of scientific discovery, and of how much we humans can achieve when people focused on a dream work together toward their incredible goal. *The Decline of British Seapower* Simon and Schuster "An extraordinary real-life

adventure of men battling the elements and themselves, told with ice-cold precision.” –Kirkus Reviews (starred review) In the dark years following the Civil War, America’s foremost Arctic explorer, Charles Francis Hall, became a figure of national pride when he embarked on a harrowing, landmark expedition. With financial backing from Congress and the personal support of President Grant, Captain Hall and his crew boarded the *Polaris*, a steam schooner carefully refitted for its rigorous journey, and began their quest to be the first men to reach the North Pole. Neither the ship nor its captain would ever return. What transpired was a tragic death and whispers of murder, as well as a horrifying ordeal through the heart of an Arctic winter, when men fought starvation, madness, and each other upon the ever-shifting ice. *Trial by Ice* is an incredible adventure that pits men against the natural elements and their own fragile human nature. In this powerful true story of death and survival, courage and intrigue aboard a doomed ship, Richard Parry chronicles one of the most astonishing, little known

tragedies at sea in American history. “**ABSORBING . . .** Suspense builds as Parry describes the events leading up to Hall’s ‘murder,’ then climaxes in horrifying detail.” –Publishers Weekly “**RIVETING.**” –Library Journal

The X-Men confront space pirates and intergalactic war in this stunning space adventure featuring Kid Omega and a quest for the legendary powers of the Phoenix Force Kid Omega’s latest scheme to set up his own mutant school goes horribly awry when mysterious aliens called The Remaining kidnap his “students”, demanding a rare Phoenix Egg – source of the awesome Phoenix Force – in exchange for their lives. Wildly out of his depth, Kid Omega turns to Cyclops for help. He gets a ride with space pirates the Starjammers, and someone more responsible: Cyclops’ brother Alex “Havok” Summers. Their mission: rescue the students, recover the Egg, save the day. But it won’t be easy. Galaxy-hopping sleuthing, heists, and action lead the X-Men to clues that reveal a monstrous plot using

the Phoenix Egg to ultimately conquer the universe.
Polaris (Alex Benedict - Book 2) Wolters Kluwer Law & Business
Some sacrifices lead to murder... A ski trip turns deadly when a bus carrying boys from an elite high school is hijacked and driven to an old abandoned amusement park. With a frozen lake on one side, acres of forest on the other, and up against a blizzard and sub-zero temperatures, the teens are trapped and at the mercy of their kidnappers. They have less than forty-eight hours to escape before the gunmen make good on their threats and begin killing them...one by one. Chase Sawyer, agent for the criminal investigative firm, CORE, was a badass Crisis Negotiator with the FBI until a hostage situation resulted in the deaths of innocents. In the fallout, he left the Bureau, left the woman he loved, and left town. When a ransom is demanded for the release of fifteen kidnapped teens, Chase returns to Cleveland to work with the FBI and is forced to deal with past mistakes, along with the woman who haunts his dreams. FBI Agent Summer Raines

wonders why she still loves Chase. Before their breakup she'd been questioning their relationship. The man never could commit, and after becoming a crisis negotiator, had turned controlling and distant.

Yet, five months ago, when he'd been in Cleveland for an assignment, she'd let him into her house and bed, only to be left brokenhearted once again. Now he's back and about to get a huge

surprise...she's pregnant with a child he never wanted. Chase is in for the negotiation of his life as he and Summer work to rescue the hostages and find a killer before more innocent lives are sacrificed...
