Achieve "Massive Action" results and accomplish your business dreams! While most people operate with only three degrees of action-no action, retreat, or normal action-if you're after big goals, you don't want to settle for the ordinary. To reach the next level, you must understand the coveted 4th degree of action. This 4th degree, also known as the 10 X Rule, is that

level of action that guarantees companies and individuals realize their goals and dreams. The 10 X Rule unveils the principle of "Massive Action," allowing you to blast through business clichés and risk-aversion while taking concrete steps to reach your dreams. It also demonstrates why people get stuck in the first three actions and how to move into making the 10X Rule a discipline. Find out exactly where to start, what to do, and how to follow up each action you take with more action to achieve Massive Action results. Learn the "Estimation of Effort" calculation to ensure you exceed your targets Make

the Fourth Degree a way of life and defy mediocrity Discover the time management myth Get the exact reasons why people fail and others succeed Know the exact formula to solve problems Extreme success is by definition outside the realm of normal action. Instead of behaving like everybody else and settling for average results, take Massive Action with The 10 X Rule, remove luck and chance from your business equation, and lock in massive success.

In many jobs people work their way up through a hierarchy, an experience that

prepares them for managing a team. In some professions, such as law, finance, accountancy, academia, engineering, education and healthcare, individuals may find themselves managing a team of equals. This book uses 50 simple lessons to show the reader in concise, pithy prose how to manage a team of equals with intelligence and diplomacy. Each lesson features a short introduction and example from the authors' experience, showing you how skills can be acquired. These are then followed by 6-10 action points to implement immediately. Core leadership skills are reevaluated for the leader of a smart team. The book teaches you core skills such as decision making and delegating, but also soft skills such as delivering good and bad news to team members and how to realise more general aims such as building trust and growing your team. The authors also offer advice on how to look after yourself as a team leader, how to build resilience in tough situations, but also how to develop creativity and extend your skill base so that you are constantly learning.

How to Lead Smart People John Wiley & Sons

In a perfect corporate world, intellect, hard work, and professionalism would be recognized and rewarded regardless of the color of your skin. Kenneth Arroyo Roldan is here to tell you that nobody works in a perfect corporate world. Stellar performance alone will not determine corporate advancement—minorities need to learn and follow the rules of corporate politics. As one African American employee who started as a systems analyst at Xerox observed, "The reality was that despite your ability, if you weren't playing politics correctly, you would be derailed." In *Minority Rules*, Roldan gives a dose of tough love to minorities in corporate America while educating their majority counterparts. As the CEO of the top U.S. head-hunting firm specializing in placing minorities in fast track jobs, Roldan watched as minority superstars hired at Fortune 500 companies bailed out, disappointed and rejected after only a few years. The problem, Roldan

says, is that minorities are not adequately prepared psychologically or culturally for corporate careers. In a six-step plan, he explains how to surmount the obstacles, play corporate hardball, and succeed as a minority in the workplace. Corporate culture is unforgiving to minorities, but it is possible to rise to the top with Roldan as your guide. With refreshing candor, Roldan prepares minorities both psychologically and culturally for corporate careers. Forget about using affirmative action and discrimination lawsuits to level the playing field. The only way to win is to know the landscape and master the rules of the game—from finding the right mentor to learning the art of networking to focusing on self-reliance, patience, and most of all, performance. Roldan shows minorities how to climb to the top jobs—and keep them.

The 10X Rule The Only Difference Between Success and Failure by Grant Cardone
NOTE: This is a book summary. About Making big promises is what Grant Cardone does. So it comes as no surprise when he tells us that his 10X rule will guarantee success beyond our wildest dreams. But this is not some cheap

gimmick or shortcut. The 10X Rule requires you to rethink everything you thought you knew about business and life management. Cardone is on a mission to help people bust out of the confines of "average" "normal" and "practical". In order to achieve the massive results he promises, you must be prepared to start taking massive action. This means setting sky-high goals and busting your butt to reach them. It means doing 10 times more than your colleagues and competitors, in order to not only rise above, but set the example for all others to follow. The big ideas from this book will also teach you how to banish fears, excuses and procrastination by showing you how to assume control over all aspects of your life, even the things you imagine are beyond your control. Cardone will show you how to say goodbye to being a victim of circumstance, and say hello to becoming the master of your life. Here's what you'll learn about in this summary: Why setting your targets at seemingly impossible high levels is the necessary first step towards beginning to take massive action. Why you need to assume responsibility for everything in your life -

even situations that seem entirely down to bad luck - hurricanes, bad economy, illness, etc. Why it is crucial that you are prepared to overcommit and then obsess about following through.

20 Rules of Closing a Deal Currency

"To some extent this book isn't about how to think at all. Many of the Rules are about how to remove the barriers that get in the way of good, clear thinking. How to avoid self-interest, sidestep assumption, dodge the pitfalls. Once you do that, it's easy to think clearly. It would be implausibly convenient if there just happened to be exactly 100 Rules of Thinking. So these are the key 100, which are more than enough to change your thought patterns significantly for the better. Once you've mastered these Rules, you'll be much better placed to notice more of your own. Please feel free to share them on my Facebook page if you'd like to, and help other people join you as a fully-fledged Rules thinker"--

Summary to Quickly Read The 10X Rule by Grant Cardone Harper Collins

Read Larry Winget's posts on the Penguin Blog. Straight-talking, bestselling Pitbull of Parenting Larry Winget says "This is not a

fix your kid book. It's a fix the way you parent book. You owe it to your kids to parent with a plan!" Being a parent is the toughest job in the world, especially with the increasing number of negative influences and pitfalls facing our kids today, from childhood obesity and out-of-control celebrity culture to the dangers of the internet and credit card debt. Larry Winget has never been one to shy away from tough truths, and what he says here may well be difficult for some parents to swallow: we are in the midst of a crisis with our kids. Kids today are over-indulged, over-entertained, under-achieving, and under-disciplined, with a sense of entitlement that is crippling society. And the real problem is that parents aren't paying attention to what's going on. If they were they would realize that most kids today barely read and write, except with their thumbs on their cell phones! Well-behaved, respectful kids are the exception, not the rule, and for the most part, parents are to blame.

Responsible parenting is about beginning with the end in mind and parenting with a plan. But most parents have never stopped to consider what kind of adult

they want to raise. They have all this fun creating a baby, but they don't have a plan for the end product. Larry's message to parents: Teach your kids to become the best adults they can be. But don't expect your kids to improve until you improve. Your Kids Are Your Own Fault covers familiar lessons and principles that have led Larry's readers to greater success with money, career, and goal setting, this time at a level where they can be taught to children. This book shows parents how to design the adult they want their kid to become and work backwards to make sure it happens. Kids don't come with an instruction manual, but finally being a parent does! Summary of The 10X Rule Penguin

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will

you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of

skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

The 10X Rule by Grant Cardone:
Conversation Starters Grant Cardone has spent many years studying successful and unsuccessful people in order to better understand success and how it can be

achieved. He says most people agree about the main aspects of success-setting goals, having discipline, managing your time, etc-but he wanted to know if there was "one thing" that can make the difference between success and failure. This questioning is what led to his creation of the 10X Rule, which, of course, is the basis for his latest book, *The 10X Rule: The Only Difference between Success and Failure*. Brian Tracy, bestselling author of over 45 books, said Grant Cardone "hit the nail on the head" when it comes to revealing the reason people are successful in life. *A Brief Look Inside: EVERY GOOD BOOK CONTAINS A WORLD FAR DEEPER* than the surface of its pages. The characters and their world come alive, and the characters and its world still live on. *Conversation Starters* is peppered with questions designed to bring us beneath the surface of the page and invite us into the world that lives on. These questions can be used to... Create Hours of Conversation: - Promote an atmosphere of discussion for groups - Foster a deeper understanding of the book - Assist in the study of the book, either individually or corporately - Explore unseen realms of the

book as never seen before Disclaimer: This book you are about to enjoy is an independent resource meant to supplement the original book. If you have not yet read the original book, we encourage you to before purchasing this unofficial Conversation Starters.

Summary Guide of the 10x Rule: The Only Difference Between Success and Failure Book by Grant Cardone Cityprint
QuickRead.com

From the millionaire entrepreneur and New York Times bestselling author of The 10X Rule comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else's version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to

his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we're in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: · Set crazy goals—and reach them, every single day. · Feed the beast: when you value money and spend it on the right things, you get more of it. · Shut down the doubters—and use your haters as fuel. Whether you're a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It's a simple choice: be obsessed or be average.
