Vedic Maths for 8th Class (Second Edition) Oswaal Books and Learning Private Limited

Strictly as per the new CBSE course structure and NCERT guidelines, this thoroughly revised and updated textbook is designed for class XI of senior secondary schools (under the 10 + 2 pattern of education). The text is presented in a logical manner. It identifies your problem areas and helps you to solve them. Every effort has been made to make the contents as simple as possible so that the beginners will grasp the fundamental concepts easily. KEY FEATURES : Large number of solved examples to understand the subject. Categorization of problems under: Level of Difficulty A (Cover the needs of the students preparing for CBSE exams) Level of Difficulty B (Guide the students for engineering entrance examinations). 'Learning Objectives' at the beginning of each chapter to enable the students to focus their study. Problem Solving Trick(s) to enhance the problem solving skills. Besides this, each chapter is followed by a Chapter Test to test problem solving skills. Working hints to a large number of problems are given at the end of each and every exercise. In a nut shell, this book will help the students score high marks in CBSE, and at the same time build a strong foundation for success in any competitive examination. Contents: CONTENTS Preface Syllabus Chapter 1 Sets Chapter 2 Relations and

Functions Chapter 3 Trigonometric Functions Chapter 4 Principle of Mathematical Induction Chapter 5 Complex Numbers and Quadratic Equations Chapter 6 Linear Inequations Chapter 7 Permutations and Combinations Chapter 8 Binomial Theorem Chapter 9 Sequences and Series Chapter 10 Straight Line Chapter 11 Conic Sections Chapter 12 Introduction to Three-Dimensional Geometry Chapter 13 Limits and Derivatives Chapter 14 Mathematical Reasoning Chapter 15 Statistics: Measures of Dispersion Chapter 16 Probability

Self-Help to CBSE Applied Mathematics (Solutions of RD Sharma) Class 11 Arihant Publications India limited

Mathematics is a tricky subject. Those who love, enjoy it much and those who don't, feel it's boring. I lost interest in mathematics while in 7th class. Based on whatever I remember, it was mainly due to a lack of understanding of negative numbers. By nature, I am a kinaesthetic person and therefore I refuse to accept anything unless understood thoroughly. Generally, just memorization doesn't work for me and the same thing happened

about the multiplication of negative numbers. Our teacher presented them as rules and I refused to accept them at face value. One year later my cousin's grandfather started living with us and he had a great interest in teaching. Moreover, his concepts in mathematics were extremely clear and he could answer all my crazy questions. This retriggered my interest in mathematics. The whole journey was so joyful that I wish everyone get a grandfather like him who is at home to help with fundamental questions in studies. When I started thinking about developing books as per the curriculum, the next question was which board to follow. After a bit of research, I got to know that CBSE is a most popular board in India and therefore I decided to develop Vedic Math books for the CBSE curriculum. Finally, I had a choice of developing books from class I and I decided to develop the first book for class VIII. Class VIII is the foundation for board exams and therefore I felt this is the right time to start strengthening our knowledge, skills, and abilities. The book is designed in such a way that all required methods from Vedic math are covered here and the student need not refer to any other book to learn the basics. Secondly, numbers (data) are represented in pictorial format or charts wherever appropriate. This certainly simplifies the learning. I have explained principles wherever relevant. This shall help the pupil to understand them further and apply them confidently.
