Dreamcatcher  
s are a unique  
type of  
ornament.  
They are  
frequently  
presented as  
presents for  
protection and  
are  
considered to  
have  
mysterious

characteristics  
. However,  
some people  
might simply  
enjoy the way  
a  
dreamcatcher  
looks and  
sounds when  
it is caught in  
the wind.  
Although most  
dreamcatcher  
s are made of  
metal and  
stones or  
wood and  
string, it is not  
unusual to see  
one that was  
crocheted. In  
truth,  
dreamcatcher  
s made of  
crochet can

seem rather  
beautiful,  
particularly if  
they are  
embellished  
with beads,  
stones, and  
feathers. For a  
collector or  
someone who  
believes in  
their  
mysterious  
qualities, they  
can also be a  
really  
thoughtful  
present.  
Although  
creating a  
crochet  
dreamcatcher  
isn't  
particularly  
challenging,

using a pattern is always helpful. *Dreamcatcher Tutorials* Rowman & Littlefield Do you want to crochet your own dreamcatcher s but have no ideas? A dream  
catcher is a  
craft object  
traditionally

made by Native Americans. It is a hoop, often made of willow, that is woven with a web of string or cord, and decorated with feathers and beads. The dream catcher is said to filter out bad dreams, allowing only good dreams to pass through to the sleeper. The good dreams are said to slide down the feathers to the sleeper, while the bad dreams are trapped in the webbing and destroyed by the morning

light. Dream catchers are typically hung above a person's bed and are believed to protect the sleeper from nightmares. They are often given as gifts to children or loved ones, to protect them while they sleep. The Ojibwe people, an indigenous people of North America, have a longstanding tradition of making and using dream catchers. The legend behind the dreamcatcher says that the spider woman,

Asibikaashi, in the Ojibwe culture, would visit the people in their dreams and take away the bad dreams and give good dreams. The dreamcatcher is said to have originated with the Ojibwe people, but it has since been adopted by other Native American tribes and cultures. Dreamcatchers are made in different sizes, but most commonly are circular, with a diameter of around 6-8 inches. The hoop is

usually made of willow, which is bent and woven together to form a circular shape. The webbing is then woven through the hoop, and the dreamcatcher is decorated with feathers and beads. The feathers are said to represent the breath of life and the beads are said to represent the tears of joy. The dreamcatcher is considered a sacred object that should be treated with respect. Dreamcatcher

has become a popular decorative item and many people hang it in their homes to bring good luck, peace and harmony. It has also been used as a symbol of cultural appropriation. Many people have started to use it without understanding its significance and meaning in the Native American culture. Dreamcatcher Crochet Independently Published A book of patterns for making
