Educational Assessment in a Time of Reform provides background information on large-scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the

advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough. If not, then how can it be improved? The aim of this book is to provide a point of departure for discussions on standard-setting, quality assurance, equating of examinations and assessment approaches. From this point of departure recommendations for practices in general and the exit-level (Grade 12) examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement, and evaluation.

The Effectiveness of the Small Business Administration

Booklet outlining the duties of company directors and their ethical and legal responsibilities. Produced by eight business organisations concerned about recent corporate practices, with a working group chaired by Henry Bosch, former head of the National Companies and Securities Commission.

BUSINESS STUDIES For Class-12TH

An often overlooked secret to creating wealth as a business owner has little to do with actually running the business. Marketing, customer service, quality products, and more are required to make a business successful...but when it comes to creating real and lasting wealth, decisions regarding this key "secret" will have the greatest impact. As both a small business lender and a small business owner himself, Chris Hurn has a bird's eye view of how businesses create wealth, as well as an in-the-trenches perspective on the tough decisions that must be made if a business is to go from good to great. In *The Entrepreneur's Secret to Creating Wealth*, Chris explains the myriad of factors and variables involved in this significant wealth-creation strategy. Plenty of books describe how entrepreneurs can create more ideas or have happier employees. But no other business book outlines in such detail -- or with such authority -- how to actually develop the wealth behind the business. **SPECIAL OFFER** When you buy two or more copies of this book (say, one for you and one you give to a friend), we'll donate the net proceeds of the sale to the National Federation of Independent Business (NFIB) Young Entrepreneur Foundation. All we need is a copy of your receipt showing the purchase, and that can be emailed (info@mercantilecc.com), faxed

(407-682-1632) or mailed (60 N. Court Avenue, Suite 200, Orlando, FL 32801).
