 "Takes us to a place of almost mythic power and tells a story that unfolds like a long ride on a killer wave . . . compellingly written." —Sebastian Junger, New York Times–bestselling author  
 Rising from the depths of the North Pacific lies a fabled island, now submerged just fifteen feet below the surface of the ocean. Rumors and warnings about Cortes Bank abound, but among big wave

surfers, this legendary rock is famous for one simple (and massive) reason: this is the home of the biggest rideable wave on the face of the earth. In this dramatic work of narrative nonfiction, journalist Chris Dixon unlocks the secrets of Cortes Bank and pulls readers into the harrowing world of big wave surfing and high seas adventure above the most enigmatic and dangerous rock in the sea. The true story of this Everest of the sea will thrill anyone with an abiding curiosity of and respect for mother ocean. "A terrific, deeply researched tale about a truly wild place. You couldn't make up Cortes Bank, or the characters who've tried to make it theirs." —William Finnegan, Pulitzer Prize–winning author of *Barbarian Days: A Surfing Life* "A first-rate account of an amazing phenomenon and the people who tried to conquer and exploit it. A great read." —Winston Groom, New York Times–bestselling author of *Forrest Gump* "After reading Chris' most excellent account of the monstrous waves of the mysterious Cortes Bank—the Bermuda Triangle of the Pacific—I never thought I would ever consider riding a wave like this. But after surviving a five-foot, head-first fall from the stage earlier this year, I think I might be ready." —Jimmy Buffett

Nancy Roberts has often been described to as the "First Lady of American Folklore" and the title is well deserved. Throughout her decades-long career, Roberts documented supernatural experiences and interviewed hundreds of people about their recollections of encounters with the supernatural. This nationally renowned writer began her undertaking in this ghostly realm as a freelance writer for the Charlotte Observer. Encouraged by Carl Sandburg, who enjoyed her stories and articles, Roberts wrote her first book in 1958. Aptly called a "custodian of the twilight zone" by Southern Living magazine, Roberts based her suspenseful stories on interviews and her rich knowledge of American folklore. Germany's Baltic coast. A place of escape, of carefree summer holidays, of spa towns and health retreats. A place where some of the darkest stories of 20th Century German history played out. Inspired by his wife's collection of family photographs from the 1930s and her memories of growing up on the Baltic coast in the GDR, Paul Scraton set out to travel from Lübeck to the Polish border on the island of Usedom, an area central to the mythology of a nation and bearing the heavy legacy of trauma. Exploring a world of socialist summer camps, Hanseatic trading towns long past their heyday and former fishing villages surrendered to tourism, Ghosts on the Shore unearths the stories, folklore and contradictions of the coast, where politics, history and personal memory merge to create a nuanced portrait of place.

"From horse thieves to hurricanes, from shattered Southern myths to fractured family ties, from Nashville to Myrtle Beach to Miami, Low Country is a lyrical, devastating, fiercely original memoir" of one family's changing fortunes in the Low Country of South Carolina (Justin Taylor, author of Riding with the Ghost). J. Nicole Jones is the only daughter of a prominent South Carolina family, a family that grew rich building the hotels and seafood restaurants that draw tourists to Myrtle Beach. But at home, she is surrounded by violence and capriciousness: a grandfather who beats his wife, a barman father who dreams of being a country music star. At one time, Jones's parents can barely afford groceries; at another, her volatile grandfather presents her with a fur coat. After a girlhood of extreme wealth and deep debt, of ghosts and folklore, of cruel men and unwanted spectacle, Jones finds herself face to face with an explosive possibility concerning her long-abused grandmother that she can neither speak nor shake. And through the lens of her own family's catastrophes and triumphs, Jones pays homage to the landscapes and legends of her childhood home, a region haunted by its history: Eliza Pinckney cultivates indigo, Blackbeard ransacks the coast, and the Gray Man paces the beach, warning of Hurricane Hazel.
