Exotic, seductive, and doomed: the antebellum mixed-race free

woman of color has long operated as a metaphor for New Orleans. Commonly known as a "quadroon," she and the city she represents rest irretrievably condemned in the popular historical imagination by the linked sins of slavery and interracial sex. However, as Emily Clark shows, the rich archives of New Orleans tell a different story. Free women of color with ancestral roots in New Orleans were as likely to marry in the 1820s as white women. And marriage, not concubinage, was the basis of their family structure. In *The Strange History of the American Quadroon*, Clark investigates how the narrative of the erotic colored mistress became an elaborate literary and commercial trope, persisting as a symbol that long outlived the political and cultural purposes for which it had been created. Untangling myth and memory, she presents a dramatically new and nuanced

understanding of the myths and realities of New Orleans's free women of color.

Music and Tourism is the first book to comprehensively examine the links between travel and music. It combines contemporary and historical analysis of the economic and social impact of music tourism, with discussions of the cultural politics of authenticity and identity. Music tourism evokes nostalgia and meaning, and celebrates both heritage and hedonism. It is a product of commercialisation that can create community, but that also often demands artistic compromise. Diverse case studies, from the USA and UK to Australia, Jamaica and Vanuatu, illustrate the global extent of music tourism, its contradictions and pleasures.

This book argues that fictional television can educate audiences on complex communities and issues long after it has faded from the news cycle. Treme, to date, remains one of the most notable experiments of how post-Katrina New Orleans communities struggle to hold on to their cultural and historical essence. The David Simon-HBO-great American city television formula continues to captivate audiences worldwide.
