One of the most exciting aspects of creating worlds in the popular game of Minecraft is constructing railroads to carry your character around the towns you build. Rails and carts can also be used to make transportation systems in mines, but also roller-coasters. This volume shows readers how railroads constructed in Minecraft can display engineering concepts used in the real world. Using the redstone blocks in Minecraft gives readers a basic understanding of electronic circuits.

Readers are also encouraged to explore computer programming and creating mods in Minecraft. The colorful illustrations and photographs help allow readers to make important connections between Minecraft and engineering.

The everything-you-missed, wanted-to-know-more-about, and can't-get-enough guide to the Game of Thrones television series—from the first episode to the epic finale. Valar morghulis! Spanning every episode across all eight seasons, INSIDER's entertainment correspondent Kim Renfro goes deep into how the show was made, why it became such a phenomenon and explores every detail you want to know. It's the perfect book to look back

at all you may have missed or to jump-start you on a second viewing of the whole series. As an entertainment correspondent, Renfro has covered the show's premieres, broken down key details in scenes, explored characters' histories, and interviewed the cast, directors, and crew. In this book, she sheds new light on the themes, storylines, character development, the meaning of the finale, and what you can expect next. Some of the questions answered here

include: What was the Night King's ultimate purpose? How did the show effect George R.R. Martin's ability to finish the book series? Why were the final seasons shorter? Why did the direwolves get shortchanged? How were the fates of Jon Snow and Daenerys Targaryen foretold from the start? Was that really a bittersweet ending? Winter may have come and gone, but there is still plenty to discover and obsess over in this behind-the-scenes fan

guide to the Game of Thrones HBO series.

 Beginning as a 1986 science fiction/horror novel, Megami Tensei has since grown to become one of the most expansive Japanese RPG series of all time, comprising of over thirty titles in variety of subgenres. As the original "monster collecting"

game, the heroes converse with hundreds of demons across various world mythologies and convince them to join their cause. While early entries focused on exploring post-apocalyptic Tokyo, the series has branched out in several different directions, putting you in the role of demon-hunting detectives and high school students, across other spinoffs like Devil Summoner, Persona, and Devil Survivor. This book catalogs all of them and untangles the web of the this complicated but

fascinating series, reviewing many Japanese-only entries as well as other incredibly obscure titles within the series. Included features are reviews for every mainline and spinoff entry in the Shin Megami Tensei and Persona series, including Devil Summoner, Devil Survivor, Last Bible, and all others, with over 30 extensive reviews in all; trivia and recurring elements; essays introducing the series and analyzing its use of demons; and reviews of various anime, manga,

and other media tie-ins. *Pro Gaming for Fortnitters* Triumph Books
