In 1977, RW Johnson's best-selling *How Long Will South Africa Survive?* provided a controversial and highly original analysis of the survival prospects of the apartheid regime. Now, after more than twenty years of ANC rule, he believes the situation has become so critical that the question must be posed again. He moves

from an analysis of Jacob Zuma's rule to the increasingly dire state of the South African economy, concluding that the country is heading towards a likely International Monetary Fund bail-out which will in turn lead to a regime change of some kind.

"Everyone knows the old saying "necessity is the mother of invention," but if you do a paternity test on many of the modern world's most important ideas or

institutions, you will find, invariably, that leisure and play were involved in the conception as well." Most history books don't concern themselves with delight. History is the serious business of war, treaties, governments and monarchs. This is a different kind of history book. Steven Johnson argues that if you want to understand how we got to now, you have to understand pleasure and play. A staggering amount of the landscape of modern life is populated by environments and technology designed to entertain and

delight us. Here history of popular entertainment, arguing that the pursuit of novelty and wonder is a powerful driver of world-shaping technological change. Throughout history, he locates the cutting edge of innovation wherever people are working the hardest to keep themselves and others amused. He introduces us to the colorful innovators of leisure: the explorers, proprietors, showmen, and artists who changed the trajectory of history with their luxurious wares, exotic meals, taverns, gambling tables, and magic shows.

"Alice's Adventures Under Ground" is the original handwritten and illustrated manuscript of Lewis Carroll's beloved classic, "Alice's Adventures in Wonderland." This early version of the story was created as a gift for Alice Liddell, the young girl who inspired the character of Alice. It is shorter and simpler than the published version and includes Carroll's original illustrations. While a personal gift, it holds historical significance as the genesis of one of the most celebrated works of children's literature and is preserved in the collection of the British

Library.

Authoritarianism is on the march—and so is dystopian fiction. In the brave new twenty-first century, young-adult series like *The Hunger Games* and *Divergent* have become blockbusters; after Donald Trump's election, two dystopian classics, *1984* and *The Handmaid's Tale*, skyrocketed to the New York Times best-seller list. This should come as no surprise: dystopian fiction has a lot to say about the perils of terrible government in real life. In *Survive and Resist*, Amy L. Atchison and Shauna L. Shames explore the ways in which dystopian narratives help explain how real-world politics work. They draw on classic and contemporary fiction, films, and TV shows—as well as their real-life counterparts—to offer funny and accessible explanations of key political concepts. Atchison and Shames demonstrate that dystopias both real and imagined help bring theories of governance, citizenship, and the state down to earth. They emphasize nonviolent

resistance and change, exploring ways to challenge and overcome a dystopian-style government. Fictional examples, they argue, help give us the tools we need for individual survival and collective resistance. A clever look at the world through the lenses of pop culture, classic literature, and real-life events, *Survive and Resist* provides a timely and innovative approach to the fundamentals of politics for an era of creeping tyranny.

*Seized* is a narrative portrait of a common brain disorder that can alter personality, illuminating the mind-body problem and the limits of free will. An invaluable resource for anyone touched by epilepsy, *Seized* gives first-hand accounts of three ordinary patients with temporal lobe epilepsy (TLE), explaining what they suffer and how they cope. The book also tells the stories of creative luminaries diagnosed with or suspected of having TLE, including van Gogh, Dostoevsky, Lewis Carroll, Saint Paul, and Flaubert. The psychological implications of *Seized* are, according to Publishers Weekly, “staggering.” Kirkus Reviews called the book “Fascinating . . . LaPlante’s descriptions of the human brain

are wonderfully concrete, her historical research is well presented, and her empathy for TLE's victims is clear." In this "fascinating account of medical research," Howard Gardner noted, "LaPlante shows how a brain scar may cause bizarre aggressive or sexual behavior—and works of profound creative imagination."

Dacia Maraini's *Narratives of Survival: (Re)Constructed* focuses on Dacia Maraini's narrative from about 1984 to 2004 and makes substantive use of her interviews and essays. While acknowledging the importance and ongoing validity of feminist scholarship of Maraini's work, this book seeks to take scholarship on Maraini beyond feminist readings by identifying a critical framework that cuts across gender and genre and thereby invites alternative readings. Using a method of close textual analysis, the author includes studies of men, children, animals, and imaginary characters in Maraini's narrative, analyzes language, character, motifs, and symbols, and considers some of Maraini's work in light of declining postmodern and emerging posthuman critical social theory.

This critical framework identifies the paradigm of reconstruction as narrative center, both strategy and theme, of many of Maraini's works from this twenty-year-period and beyond. Reconstruction here signifies the strategies by which Maraini's deep investment in survival, which has its roots in the life threatening conditions she experienced as a small child in a WWII Japanese concentration camp, is enacted in a narrative re-building and re-constructing of personal memory, of various personal, social and political histories, of motherhood and maternal discourses, of crime stories, of postmodern fragmentation, and even of the process of erasure itself. Maraini's narrative is deeply attentive to the mechanisms that threaten survival of the body (and not just the woman's body); psychological and aesthetic survival; the survival in the Italian canon of a woman author's work, memory and legacy after her death; the survival of a drug-addicted and self-destructive younger generation; and by extension, collective and ecological survival. Never marked by nihilism or despair, Maraini's narratives offer the ethos of reconstruction as a variation on

the "begin again" that marks the end of many of her novels and, as we can see in *Colomba*, her own aesthetic process of renewal and regeneration. This book focuses primarily on *Il treno per Helsinki* (1984), *Isolina* (1985), some of her short stories for children, *La nave per Kobe: Diari giapponesi di mia madre* (2001), *Buio* (Strega Literary Prize, 1999), and *Colomba* (2004).

Pulsing with the dark obsession of Radiohead's song "Creep," Jennifer Hillier's superb debut thriller is a terrifying cat-and-mouse game between a woman with everything to lose, and the lover she

couldn't resist...who's now the monster who won't let her go. A popular psychology professor in Seattle, Sheila works hard to keep her secrets hidden. On the surface, she's an expert in human behavior and a well-liked educator, but nobody knows she's a recovering sex addict in therapy—not even the love of her life, Morris. And she needs it to stay that way, or she could lose everything. But Ethan Wolfe is impossible to resist. The graduate student is brilliant, charming, and seductive as hell. He's also Sheila's teaching assistant, and thirteen years her junior. Ignoring the risks to her career and relationship, they begin an illicit affair that lasts three months, until Morris asks her to marry him. Determined to get her life back on track, Sheila commits to a future with her fiancé, a man she's not sure she deserves. But Ethan can't move on so easily. He didn't pursue his professor for as long as he did to get dumped for some boring, middle-aged suit. Ethan's made plans too, and he doesn't take rejection well. When the body of one of Sheila's students is discovered floating in Puget Sound—a young woman Ethan was rumored to have dated—it's clear that the

graduate student has secrets of his own. And he's not about to let Sheila get away. ### **How to Survive a Killer Seance**

Random House Books for Young Readers Alice, Griffin, and Dinah Stenen's mother and father died tragically when they were quite young. The loss haunts them into adulthood. Alice is a stage actress in New York who can't commit to a relationship. When she meets Ian she's smitten, but suspects it's Ian's four-year-old son that really captivates her. Griffin and his longtime partner are settled into a contented domesticity, however Theo's insistence that they adopt a child throws Griffin into a panic. When he refuses to cooperate, the crack in their relationship widens. Dinah, the youngest, has a short, passionate love affair that leaves her pregnant and alone when she discovers the father is engaged to someone else. The three look to each other for support

during this rough period but they falter. What they don't know is that their parents are watching them from a place outside time and space--worrying, reminiscing, and perhaps guiding their children as each makes their tentative way towards happiness. In luminous prose, Cook tells the story of these tender souls and a love that knows no boundaries.

"Intense and well-researched, . . . ambitious, . . . magisterial. . . . Surviving Genocide sets a bar from which subsequent scholarship and teaching cannot retreat."--Peter Nabokov, New York Review of Books In this book, the first part

of a sweeping two-volume history, Jeffrey Ostler investigates how American democracy relied on Indian dispossession and the federally sanctioned use of force to remove or slaughter Indians in the way of U.S. expansion. He charts the losses that Indians suffered from relentless violence and upheaval and the attendant effects of disease, deprivation, and exposure. This volume centers on the eastern United States from the 1750s to the start of the Civil War. An authoritative contribution to the history of the United States' violent path toward building a continental empire, this ambitious and well-researched book deepens our understanding of the seizure of Indigenous lands, including the use of treaties to create the appearance of Native consent to dispossession. Ostler also documents the resilience of Native people, showing how they survived genocide by creating alliances, defending their towns, and rebuilding their communities.
