#### **Secret Military Assistance to Iran and the Contras**

Gefen

Publishing House Ltd

An expert on terror and political extremism, Ami Pedahzur argues in this book that Israel's strict reliance on the intelligence community and its elite units is fundamentally flawed.

#### Arrows in the Dark

(Volumes 1 and 2) Simon and Schuster

In the first detailed account of Israel's nuclear record, Cohen forges an interpretive political history, drawing on thousands of American and Israeli once-classified documents.

#### *Readers' Guide to Periodical Literature*

Taylor & Francis

The two-volume set LNCS 9562 and LNCS 9563

constitutes the refereed proceedings of the 13th International Conference on Theory of Cryptography, TCC 2016, held in Tel Aviv, Israel, in January 2016.

The 45 revised full papers presented were carefully reviewed and selected

from 112 submissions.

The papers are organized in topical sections on obfuscation, differential privacy, LWR and LPN, public key encryption, signatures, and VRF, complexity of cryptographic primitives, multiparty computation, zero knowledge and PCP, oblivious RAM, ABE and IBE, and codes and interactive proofs. The volume also includes an invited talk on cryptographic assumptions.

#### The Secret History of MI6

Columbia University Press  
This book goes back to the early days of Hasidism and retells its beginning with an esoteric circle of messianic Kabbalists that established the first Hasidic court.

Paradoxically, their failure to bring redemption enabled the growth of Hasidism from a small group of devotees to a mass movement, still influential throughout the Jewish world.

#### **Zionism and Arabism in Palestine and Israel**

Hamish Hamilton

The authorized history of the world's oldest and most storied foreign intelligence service, drawing extensively on

hitherto secret documents Britain's Special Intelligence Service, commonly called MI6, is not only the oldest and most storied foreign intelligence unit in the world - it is also the only one to open its archives to an outside researcher.

The result, in this authorized history, is an unprecedented and revelatory look at an organization that essentially created, over the course of two world wars, the modern craft of spying. Here are the true stories that inspired Ian Fleming's James Bond's novels and John le Carré George Smiley novels. Examining innovations from invisible ink and industrial-scale cryptography to dramatic setbacks like the Nazi sting operations to bag British operatives, this groundbreaking history is as engrossing as any thriller - and much more revealing. "Perhaps the most authentic account one will ever read about how intelligence really works." -The Washington Times

#### Israel at Sixty

State University of New York Press

For twenty-six years, Iran

has waged an international terrorist war while the intelligence services of the West, led by Mossad and the CIA, have waged a relentless, mostly clandestine counter-jihad in return. Though Iran has become a quietly looming threat, little has been revealed about this intelligence-based war. Now, Ronen Bergman, Israel's leading reporter and analyst of intelligence affairs, has written a full account of this secret war. He connected the dots of the long history of Iranian backed terrorist attacks, and revealed for the first time many classified operations against the Iranian terrorist network, including details about collaborations between Israel's Mossad and the CIA and FBI; thrilling Mossad operations, the successful recruitment of top insiders of Iranian intelligence, who have disclosed a wealth of information about Iran's nuclear program as well as its terrorist activities; and the use of ultra-sophisticated surveillance equipment to penetrate and damage Iranian targets. From the Iranian proxy Hizbollah's planning of terrorists attacks from apartments in New York City, to Iran's training of

an army of work Iraqi insurgents in the techniques of suicide bombing and the making of improvised explosive devises, he showed Iran has steadily waged war against the West. *The Israeli Secret Service* Springer Israel has made a unique contribution to the nuclear age. It has created a special "bargain" with the bomb. Israel is the only nuclear-armed state that does not acknowledge its possession of the bomb, even though its existence is a common knowledge throughout the world. It only says that it will not be the first to introduce nuclear weapons to the Middle East. The bomb is Israel's collective ineffable the nation's last great taboo. This bargain has a name: in Hebrew, it is called amimut, or opacity. By adhering to the bargain, which was born in a secret deal between Richard Nixon and Golda Meir, Israel has created a code of nuclear conduct that encompasses both governmental policy and societal behavior. The bargain has deemphasized the salience of nuclear weapons, yet it is incompatible with the norms and values of a

liberal democracy. It relies on secrecy, violates the public right to know, and undermines the norm of public accountability and oversight, among other offenses. It is also incompatible with emerging international nuclear norms. Author of the critically acclaimed *Israel and the Bomb*, Avner Cohen offers a bold and original study of this politically explosive subject. Along with a fair appraisal of the bargain's strategic merits, Cohen critiques its undemocratic flaws. Arguing that the bargain has become increasingly anachronistic, he calls for a reform in line with domestic democratic values as well as current international nuclear norms. Most ironic, he believes Iran is imitating Israeli amimut. Cohen concludes with fresh perspectives on Iran, Israel, and the effort toward global disarmament. *The Worst-Kept Secret* Routledge Despite multiple official American and Israeli inquiries that determined the attack resulted from faulty communications and tragic error, conspiracy theorists have, for thirty-five years, tirelessly maintained

vocal charges of conspiracy and cover-up."

*The Dalai Lama's Secret and Other Reporting Adventures* Oxford University Press  
Isabella Ginor and Gideon Remez's groundbreaking history of the Six-Day War in 1967 radically changes our understanding of that conflict, casting it as a crucial arena of Cold War intrigue that has shaped the Middle East to this day. The authors, award-winning Israeli journalists and historians, have investigated newly available documents and testimonies from the former Soviet Union, cross-checked them against Israeli and Western sources, and arrived at fresh and startling conclusions. Contrary to previous interpretations, Ginor and Remez's book shows that the Six-Day War was the result of a joint Soviet-Arab gambit to provoke Israel into a preemptive attack. The authors reveal how the Soviets received a secret Israeli message indicating that Israel, despite its official ambiguity, was about to acquire nuclear weapons. Determined to destroy Israel's nuclear program before it could produce an atomic bomb, the Soviets

then began preparing for war--well before Moscow accused Israel of offensive intent, the overt trigger of the crisis. Ginor and Remez's startling account details how the Soviet-Arab onslaught was to be unleashed once Israel had been drawn into action and was branded as the aggressor. The Soviets had submarine-based nuclear missiles poised for use against Israel in case it already possessed and tried to use an atomic device, and the USSR prepared and actually began a marine landing on Israel's shores backed by strategic bombers and fighter squadrons. They sent their most advanced, still-secret aircraft, the MiG-25 Foxbat, on provocative sorties over Israel's Dimona nuclear complex to prepare the planned attack on it, and to scare Israel into making the first strike. It was only the unpredicted devastation of Israel's response that narrowly thwarted the Soviet design.

[Deadly Arsenals](#) Univ of Wisconsin Press  
This book examines the politics of water scarcity in the Middle East's Jordan River Basin (Syria, Lebanon, Jordan, Israel, and the Palestinian Authority) between 1920

and 2006. Jeffrey K. Sosland demonstrates that while water scarcity might generate political tension, it does not by itself precipitate war, nor is it likely to do so. At the same time, efforts to promote water cooperation, such as those initiated by the United States, have an identifiable political benefit by creating rules, building confidence, and reducing tensions among adversaries. Sosland concludes that while this alone might not resolve the overall conflict, it does create positive long-term value in achieving peace.  
*The Secret Israeli-Palestinian Negotiations in Oslo* Routledge

The ultimate proof of the ongoing massacre of the Jews and how the Allies found out.

[The Jews' Secret Fleet](#)  
Yale University Press  
An authoritative study of the dangers nations face today from weapons of mass destruction and the successes and failures of international nonproliferation efforts. This proliferation atlas documents with maps, charts, and graphs the spread of nuclear, chemical, and biological weapons and missile delivery systems. The book describes the

weapons and the regimes that try to control them; it also details the countries that have, want, or have given up weapons of mass destruction.

*The Secret War with Iran*  
Gefen Publishing House Ltd

This book represents the first scholarly examination of the origins of the 1956 Sinai campaign between Egypt and Israel. Utilising a wide range of primary sources, the study analyses the reasons for the breakdown of the Armistice Agreement between Egypt and Israel and the failure of efforts to mediate a peace accord.

*The Origins of the Second Arab-Israeli War* Penguin

This book, first published in 1982, collects together ten studies from the journal *Middle Eastern Studies*. They tackle a variety of issues stemming from the conflict between Arabism and Zionism, before and after the creation of the State of Israel. Aspects of Arab-Jewish relations during the Mandate are considered, as are political decisions and diplomatic events that led to the end of the Mandate. After 1948, the diplomatic history of Israel and of the Arab-Israeli conflict are examined.

**The Palestinian Arab National Movement, 1929-1939** Routledge

The Palestinian Druze are the only Israeli Arabs who are conscripted into the Israeli army today. Based on Israeli military and political documents, this book looks at the origins of the Druze's unique status in Israeli society by telling the story of the military and political alliance that emerged between the Druze and the Jewish army in the 1948 war.

*The Soviet-Israeli War, 1967-1973* Springer

This is the dramatic story of the rescue of Jews from Europe after World War II by North American Jewish volunteers who smashed through the British blockade and brought thousands of refugees to safe haven in Palestine through the illegal Aliyah Bet. Film director Alan Rosenthal was inspired by this book to create his documentary film *Waves of Freedom*, released in 2008. Packed with photos, and enhanced by the eminent historian Sir Martin Gilbert's introduction, this meticulously researched book is the definitive word on a little-known chapter of Jewish history. ABOUT THE AUTHOR: Murray S. Greenfield was one of the

volunteer sailors in the Aliyah Bet operations. He has served as executive director of the Association of Americans and Canadians in Israel (AACI) and as volunteer director of the American Association for Ethiopian Jewry (AAEJ). He lives in Israel with his wife Hana. [Perfect Heroes](#) Carnegie Endowment

NEW YORK TIMES

BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject."

WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood

in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as “arguably [Israel’s] best investigative reporter”—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country’s military and

intelligence services: the IDF (Israel Defense Forces), the Mossad (the world’s most feared intelligence agency), Caesarea (a “Mossad within the Mossad” that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel’s most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel’s targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. “A remarkable feat of fearless and responsible reporting . . . important, timely, and informative.”—John le Carré

*The Secret of the Jews*  
LSU Press

The role of intelligence in colonialism and decolonization is a rapidly expanding field of study. The premise of *The Secret* Anglo-French War in the Middle East is that intelligence statecraft is the “missing dimension” in the established historiography of the Middle East during and after World War II. Arguing that intelligence, especially covert political action and clandestine diplomacy, played a key role in Britain’s Middle East policy, this book examines new archival sources in order to demonstrate that despite World War II and the Cold War, the traditional rivalry between Britain and France in the Middle East continued unabated, assuming the form of a little-known secret war. This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other; Britain exploited France’s defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence; whilst France’s successful use of intelligence enabled it to undermine Britain’s position in

Palestine, Egypt, Saudi Arabia and Iraq. Shedding new light on the clandestine Franco-Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab-Jewish war in Palestine, this book, which presents close to 400 secret Syrian and British documents obtained by the French intelligence, is essential reading for scholars with an interest in the political history of the region, inter-Arab and international relations, and intelligence studies.

### **The Arab Secret**

**Service[s]** Columbia University Press  
Sixty years after the birth of Israel, this fascinating and original book of essays brings together a number of the leading experts on Zionism and Israel to examine the domestic and international context of Israel's transition from community to state in 1948. With contributions on a wide range of historically important topics that are no less relevant now than they were six decades ago, the book examines how countries as diverse as France, the United States,

Turkey, Britain and Ireland viewed the partition of Palestine in 1947 and the subsequent establishment of Israel in 1948. It also looks at the involvement of the UN, Zionist and Arab leaders in the events immediately preceding Israel's birth. While controversial issues such as the role of the Holocaust in the creation of Israel and the attitude of the Zionist movement to Palestinian Arabs, from its onset to the 1948 war, are examined in order to set the record straight after decades of mistaken and misleading research. This book was previously published as a special issue of *Israel Affairs*. [Perspectives on Language and Language Development](#) BRILL  
This award-winning study traces the shifting relations between Israel, Iran, and the U.S. since 1948—including secret alliances and treacherous acts. Vitriolic exchanges between the leaders of Iran and Israel are a disturbingly common feature of the news cycle. But the real roots of their enmity mystify Washington policymakers, leaving no promising pathways to stability. In

Treacherous Alliance, U.S. foreign policy expert Trita Parsi untangles to complex and often duplicitous relationship among Israel, Iran, and the United States from 1948 to the present. In the process, he reveals shocking details of unsavory political maneuverings that have undermined Middle Eastern peace and disrupted U.S. foreign policy initiatives in the region. Parsi draws on his unique access to senior American, Iranian, and Israeli decision makers to present behind-the-scenes revelations that will surprise even the most knowledgeable readers: Iran's prime minister asks Israel to assassinate Khomeini; Israel reaches out to Saddam Hussein after the Gulf War; the United States foils Iran's plan to withdraw support from Hamas and Hezbollah; and more. Treacherous Alliance not only revises our understanding of the recent past, it also spells out a course for the future.
