Few conventions were left unchallenged in the 1970s as Americans witnessed a decade of sweeping social, cultural, economic, and political upheavals. The fresh anguish of the Vietnam War, the disillusionment of Watergate, the recession, and the oil embargo all contributed to an era of social movements, political mistrust, and not surprisingly, rich cultural diversity. It was the Me Decade, a reaction against 60s radicalism reflected in fashion, film, the arts, and music. Songs of the Ramones, the Sex Pistols, and Patti Smith brought the aggressive punk-rock music into the mainstream, introducing teenagers to rebellious punk fashions. It was also the decade of disco: Who can forget the image of John Travolta as Tony Manero in Saturday Night Fever decked out in a three-piece white leisure suit with his shirt collar open, his hand points towards the heavens as the lighted disco floor glares defiantly below him? While the turbulent decade ushered in Ms. magazine, Mood rings, Studio 54, Stephen King horror novels, and granola, it was also the decade in which over 25 million video game systems made their way into our homes, allowing Asteroids and Pac-Man games to be played out on televisions in living rooms throughout the country. Whether it was the boom of environmentalism or the bust of the Nixon administration and public life as we knew it, the era represented a profound shift in American society and culture.

Emerson, Lake & Palmer were, without question, one of the great rock bands of the 1970s. Selling millions of albums across the globe, with all three members winning awards for their dazzling musical ability, ELP were no ordinary group. Their pioneering attitude was adored by their legions of fans, none more so than in the USA, where they toured widely. Despite ELP being the embodiment of the dinosaurs that punk sought to kill. However, just like their peers – Yes, Genesis and Pink Floyd – they survived punk's onslaught, continuing to make albums until the mid-90s and touring right until their final concert, a headlining performance at London's High Voltage Festival in 2010. This book charts their rise, via every track on all nine of their studio albums recorded between 1970 and 1994 including Tarkus, Trilogy and Brain Salad Surgery. Key recorded live performances – such as 1971's Pictures at an Exhibition – are also included as well as overviews on all three member's solo projects. With informed insight and information, this is the ultimate guide to the band's music – a must-own companion to Emerson, Lake & Palmer's recorded legacy. Since graduating from art college in the early 1980s, Mike Goode has pursued a successful career in the creative industry – as

a designer, art director and writer. However, his biggest passion is music – specifically anything related to Emerson, Lake and Palmer. A fan since hearing Pictures at an Exhibition as a teenager in the 70s, there's no person better suited or qualified to write and research this book on these progressive rock legends. He lives in Brecon, Powys.

The late 1970s brought us an eclectic mix of popular music--everything from big hits (and even bigger hair) to cult favorites, along with the dawn of disco and punk, the coming of corporate rock, the rise of reggae and new wave, and some of the most progressive, inventive songwriting of the century. Whether you cranked up your radio for Bruce Springsteen, Stevie Wonder, Supertramp, the Bee Gees, Talking Heads, Rickie Lee Jones, or Earth, Wind and Fire, you'll relive those heady days with this compulsively readable, behind-the-scenes account of the "Frampton years," an era when pop became very big business. It's all here, from ABBA to Zevon. *Night Moves* by Don Breithaupt and Jeff Breithaupt is a feisty, funny volume that will leave pop fans of every stripe feeling Reunited, Afternoon Delight-ed, and Still Crazy After All These Years.

Revered former Metal Maniacs editor Jeff Wagner analyses the heady side of metal in this exhaustive narrative history of a relentlessly ambitious musical subculture. Beginning with the hugely influential mid-1970s efforts of progressive rock acts Rush and King Crimson, Wagner unfurls a vast colourful tapestry of sounds and styles, from the 'Big 3' of Queensryche, Fates Warning and Dream Theater to the extreme prog pioneers Voivod, Watchtower, Celtic Frost and others.

The definitive biography of the rock 'n' roll kings of the North With extensive, first-hand reflections from Geddy Lee, Alex Lifeson, and Neil Peart, as well as from family, friends, and fellow musicians, *Anthem: Rush in the '70s* is a detailed portrait of Canada's greatest rock ambassadors. The first of three volumes, *Anthem* puts the band's catalog, from their self-titled debut to 1978's *Hemispheres* (the next volume resumes with the release of *Permanent Waves*) into both Canadian and general pop culture context, and presents the trio of quintessentially dependable, courteous Canucks as generators of incendiary, groundbreaking rock 'n' roll. Fighting complacency, provoking thought, and often enraging critics, Rush has been at war with the music industry since 1974, when they were first dismissed as the Led Zeppelin of the north. *Anthem*, like each volume in this series, celebrates the perseverance of Geddy, Alex, and Neil: three men who maintained their values while operating from a Canadian base, throughout lean years, personal tragedies, and the band's eventual

worldwide success.

The wildly entertaining story of progressive rock, the music that ruled the 1970s charts—and has divided listeners ever since. *The Show That Never Ends* is the definitive story of the extraordinary rise and fall of progressive (“prog”) rock. Epitomized by such classic, chart-topping bands as Yes, Genesis, Pink Floyd, Jethro Tull, and Emerson Lake & Palmer, along with such successors as Rush, Marillion, Asia, Styx, and Porcupine Tree, prog sold hundreds of millions of records. It brought into the mainstream concept albums, spaced-out cover art, crazy time signatures, multitrack recording, and stagecraft so bombastic it was spoofed in the classic movie *This Is Spinal Tap*. With a vast knowledge of what Rolling Stone has called “the deliciously decadent genre that the punks failed to kill,” access to key people who made the music, and the passion of a true enthusiast, Washington Post national reporter David Weigel tells the story of prog in all its pomp, creativity, and excess. Weigel explains exactly what was “progressive” about prog rock and how its complexity and experimentalism arose from such precursors as the Beach Boys’ *Pet Sounds* and the Beatles’ *Sgt. Pepper*. He traces prog’s popularity from the massive success of Procol Harum’s “Whiter Shade of Pale” and the Moody Blues’ “Nights in White Satin” in 1967. He reveals how prog’s best-selling, epochal albums were made, including *The Dark Side of the Moon*, *Thick as a Brick*, and *Tubular Bells*. And he explores the rise of new instruments into the prog mix, such as the synthesizer, flute, mellotron, and—famously—the double-neck guitar. *The Show That Never Ends* is filled with the candid reminiscences of prog’s celebrated musicians. It also features memorable portraits of the vital contributions of producers, empresarios, and technicians such as Richard Branson, Brian Eno, Ahmet Ertegun, and Bob Moog. Ultimately, Weigel defends prog from the enormous derision it has received for a generation, and he reveals the new critical respect and popularity it has achieved in its contemporary resurgence.

This volume examines the location of memories and histories of popular music and its multiple pasts, exploring the different ‘places’ in which popular music can be situated, including the local physical site, the museum storeroom and exhibition space, and the digitized archive and display space made possible by the internet. Contributors from a broad range of disciplines such as archive studies, popular music studies, media and cultural studies, leisure and tourism, sociology, museum studies, communication studies, cultural geography, and social anthropology visit the specialized locus of popular music histories and heritage, offering diverse set of approaches. Popular music studies has increasingly engaged with popular music histories, exploring memory processes and considering identity, collective and cultural memory, and notions of popular culture’s heritage values, yet few accounts have spatially located such trends to focus on the spaces and places where we encounter and engender our relationship with popular music’s history and legacies. This book offers a timely re-evaluation of such sites, reinserting them into the narratives of popular music and offering new perspectives on their function and significance within the production of popular music

heritage. Bringing together recent research based on extensive fieldwork from scholars of popular music studies, cultural sociology, and museum studies, alongside the new insights of practice-based considerations of current practitioners within the field of popular music heritage, this is the first collection to address the interdisciplinary interest in situating popular music histories, heritages, and pasts. The book will therefore appeal to a wide and growing academic readership focused on issues of heritage, cultural memory, and popular music, and provide a timely intervention in a field of study that is engaging scholars from across a broad spectrum of disciplinary backgrounds and theoretical perspectives.

This is a study of the way in which popular words and music relate to American life. The question of what popular song was, and why it came into existence, as well as how each song fitted within the context of the larger 20th century society are considered and explained clearly and fruitfully. The author also offers insight into why musical styles were seen to change as they did during this time period.

This is the first book and only book to look at the massive impact of Metallica’s first four albums on the international metal scene. This book shows the birth and rise of the monster known as Metallica and will link the band and the American metal scene with the famed New Wave of British Heavy Metal movement in the UK and metal originators such as Black Sabbath and Judas Priest. Metallica’s early success was built on strong live performances and fierce thrash metal riffs. With the remarkable passion and drive of drummer/founder Lars Ulrich, Metallica became the biggest American metal band in the world and the legacy of those first four albums *Kill Em All*, *Ride The Lightning*, *Master Of Puppets* and *...And Justice For All* lives on to this day. American thrash metal produced four major bands Metallica, Slayer, Megadeth and Anthrax dubbed the Big Four, but out of that unholy collective, Metallica were kings. This book tells the story of how that remarkable global

triumph started, with interviews with people who were there, saw those early gigs and numerous other eye-witnesses to the incredible story. This is the first book to explore the early years of Metallica, containing exclusive and original interviews with key players and the journalists that brought Metallica to the UK. Plus, in-depth insights into Metallica's groundbreaking first four albums and an exploration of the San Fran Bay Area thrash scene of the 1980s

Marc Blitzstein was one of the 20th century's most important American composers, lyricists, and critics, often credited with having virtually invented opera in the American vernacular. Called the father of American opera in the vernacular by luminaries Aaron Copland and Leonard Bernstein, Blitzstein was a masterful pianist, coach, and accompanist, though, ironically, he made more money on the lyrics to one song—Mack the Knife—than on everything else he ever did. Blitzstein's brilliant career was cut short in 1964 when he died at the age of 58. This book catalogs Blitzstein's own writings and writings about him, followed by detailed listings (chronological, alphabetical, and genre), analysis, a comprehensive performance history, and summaries of all known critiques of his 128 original musical works and 18 texts set to the music of others. Shown in detail are the ways in which Blitzstein took music from his earlier works and developed it in later works, a process that Lehman utilized in completing (with Bernstein's and the Estate's approval) 20 Blitzstein works for performance, including *The Cradle Will Rock*, *I've Got the Tune*, *No for an Answer*, *Idiots First*, and *Sacco and Vanzetti*, which Blitzstein believed would be his magnum opus. The book provides a unique and full perspective on the works of one of America's greatest composers—one who deserves to be better known.

Through a series of penetrating conversations originally published in the *New York Times* and the *Los Angeles Review of Books*, Brad Evans and Natasha Lennard talk with a wide range of cutting edge thinkers—including Oliver Stone, Simon Critchley, and Elaine Scarry--to explore the problem of violence in everyday life, politics, culture, media, language, memory, and the environment. "To bring out the best of us," writes Evans, "we have to confront the worst of what humans are capable of doing to one another. In short, there is a need to confront the intolerable realities of violence in this world." These lively, in-depth exchanges among historians, theorists, and artists offer a timely and bracing look at how the increasing expression and acceptance of violence--in all strata of society--

has become a defining feature of our times. "Many of us live today with a pervasive sense of unease, worried that our own safety is at risk, or that of our loved ones, or that of people whose bad circumstances appear to us through networked media. Violence feels ever-present. Natasha Lennard and Brad Evans help us to analyze those feelings, talking with a wide range of thinkers in order to gain insight into the worst of what humans do, and challenging us to imagine a world in which violence is no longer a given. Their book is full of surprising insights and intelligent compassion."--Sarah Leonard, co-editor of *The Future We Want: Radical Ideas for the New Century* "In *Violence*, Brad Evans and Natasha Lennard have created, alongside their interview subjects, a kaleidoscopic exploration of the concept of violence, in terrains expected and not, in prose taut and unexpectedly gorgeous. Their philosophical rigor provides the reader with an intellectual arsenal against the violence of the current moment."--Molly Crabapple, author of *Drawing Blood* "We would be wise to read this collection with a similar eye toward service, and in so doing, open ourselves up to the rare mercy of no longer having to stand on our own."--Alana Massey, author of *All The Lives I Want* "The range of interviews with leading academics, to filmmakers and artists, is impressive, at once immediate and relevant, but also profoundly philosophical. More essentially, though, the conversations underline the need and suggest ways to resist and organize in a visionary way, in the extraordinary times we live in."--Razia Iqbal, *BBC News* "Notable contemporary thinkers and creators give their individual perspectives in this compelling look at violence. . . . A provocative volume that challenges humanity to correct its runaway course toward an increasingly violent future by learning from its violent past."--*Kirkus Reviews* "The purpose of the work is to challenge humanity to create more meaningful solutions when it comes to these kinds of violence--or at least to name violence without inadvertently inciting even more anger. . . . passion roars through every chapter . . . This book delivers on what it promises, which is an achievement."--Alison Gately, *The Los Angeles Review of Books* "If you wish to read the intellectualization of violence, *Violence* is a phenomenal anthology. . . . Brad Evans and Natasha Lennard, the interviewers and the 'authors' of the anthology, have done a remarkable job in bringing together perceptive and intelligent contributors from various fields to scout the reaches of violence. Their piercing questions brought out brilliant responses from the interviewees."--L. Ali Khan, *New York Journal of Books* "*Violence: Humans in Dark Times* is an intriguing beginning to a much-needed sustained intellectual and aesthetic response to the horrors of modern times."--Zoe Vorsino
