Education for Sustainable Development (ESD) lies at the heart of global, regional and national policy agendas, with the goal of achieving socially and environmentally just development through the provision of inclusive, equitable quality education for all. Realising this potential on the African continent, however, calls for radical transformation of policy and practice. Developing a transformative agenda requires taking account of the 'learning crisis' in schools, the inequitable access to a good quality education, the historical role of education and training in supporting unsustainable development, and the enormous challenges involved in complex system change. In the African continent, sustainable development entails eradicating poverty and inequality, supporting economically sustainable livelihoods within planetary boundaries, and averting environmental catastrophe, as well as dealing with health pandemics and security threats. In addressing these challenges, the book: explores the meaning of ESD for Africa in the context of the 'postcolonial condition' critically discusses the Sustainable Development Goals (SDGs) as well as regional development agendas draws on a wealth of research evidence and examples from across the continent engages with contemporary debates about the skills, competencies and capabilities required for sustainable development, including decolonising the curriculum and transforming teaching and learning relationships sets out a transformative agenda for policy-makers, practitioners, NGOs, social movements and other stakeholders based on principles of social and environmental justice. Education for Sustainable Development in the Postcolonial World is an essential read for anyone with an interest in education and socially and environmentally just development in Africa.

"[H]aunting and harrowing." —Booklist (starred review) "Vivid, distressing, and all too real." —Kirkus Reviews In this 20th anniversary edition of Todd Strasser's gut-wrenching and critically acclaimed Give a Boy a Gun, two boys bring guns to school in search of revenge against their classmates. For as long as they can remember, Brendan and Gary have been mercilessly teased and harassed by the jocks who rule Middletown High. But not anymore. Stealing a small arsenal of guns from a neighbor, they take their classmates hostage at a school dance. In the panic of this desperate situation, it soon becomes clear that only one thing matters to Brendan and Gary: revenge. This special 20th anniversary edition includes updated backmatter and statistics on school shootings—a topic that is now more relevant than ever.

The setting is Danzig during World War II. The narrator recalls a boyhood scene in which a black cat pounces on his friend Mahlke's "mouse"-his prominent Adam's apple. This incident sets off a wild series of events that ultimately leads to Mahlke's becoming a national hero. Translated by Ralph

Manheim. A Helen and Kurt Wolff Book

**Handbook of European Societies** Routledge

From the rise of terrorism to the uncertainties associated with economic crisis and recession, our age is characterized by fear. Fear is the expression of a society on unstable foundations. Most of us feel that our social status is under threat and our future prospects in jeopardy. We are overwhelmed by a sense of having been catapulted into a world to which we no longer belong. Tracing this experience of fear, Heinz Bude uncovers a society marked by disturbing uncertainty, suppressed anger and quiet resentment. This is as true in our close relationships as it is in the world of work, in how we react to politicians as much as in our attitudes towards bankers and others in the financial sector. Bude shows how this fear is not derived so much from a 'powerful other' but rather from the seemingly endless range of possibilities which we face. While this may seem to offer us greater autonomy and freedom, in reality the unknown impact and meaning of each option creates a vacuum which is filled by fear. What conditions lead people to feel anxious and fearful for themselves and others? How can individuals withstand fear and develop ways of making their fears intelligible? Probing these and other questions, Bude provides a fresh analysis of some of the most fundamental features of our societies today.

European integration is one of the most ambitious and socially far-reaching developments in world politics and in world economics. Against growing opposition and despite increasing social heterogeneity, the European Union continues to expand and to acquire new competences. But to what extent is the self-proclaimed "ever closer union among the peoples of Europe" a social reality? In which ways is the political European project anchored in social developments? How does social change impinge upon political integration? Societal trends in multi-cultural, multi-ethnic, multi-lingual and socially diverse Europe have never been studied systematically. Handbook of European Societies: Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe, providing a groundwork for the sociology of European integration. The book portrays social life and social relations in the enlarged Europe, and gives a perspective on the European Union as an evolving social entity. Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent. It covers a representative selection of major topics of social concern and sociological relevance, such as Collective Action, Consumption, Identity, Power Structure, Sexuality, Stratification and Well-being. Each contribution probes key developments in a strictly comparative manner. The Handbook thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society. The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight-forward style. The contributions stay away from jargon, simple labeling and sweeping assertions. Instead, they provide solid and accessible information on a wide variety of social trends and processes within and across European societies.

INTERNATIONAL BESTSELLER • Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. "A formally beautiful, disturbing and finally morally devastating novel." —Los Angeles Times When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

Named a Notable Work of Nonfiction of 2020 by the Washington Post As heard on NPR's Fresh Air, *We Have Been Harmonized*, by award-winning correspondent Kai Strittmatter, offers a groundbreaking look, based on decades of research, at how China created the most terrifying surveillance state in history. China's new drive for repression is being underpinned by unprecedented advances in technology: facial and voice recognition, GPS tracking, supercomputer databases, intercepted cell phone conversations, the monitoring of app use, and millions of high-resolution security cameras make it nearly impossible for a Chinese citizen to hide anything from authorities. Commercial transactions, including food deliveries and online purchases, are fed into vast databases, along with everything from biometric information to social media activities to methods of birth control. Cameras (so advanced that they can locate a single person within a stadium crowd of 60,000) scan for faces and walking patterns to track each individual's movement. In some schools, children's facial expressions are monitored to make sure they are paying attention at the right times. In a new Social Credit System, each citizen is given a score for good behavior; for those who rate poorly, punishments include being banned from flying or taking high-speed trains, exclusion from certain jobs, and preventing their children from attending better schools. And it gets worse: advanced surveillance has led to the imprisonment of more than a million Chinese citizens in western China alone, many held in draconian "reeducation" camps. This digital totalitarianism has been made possible not only with the help of Chinese private tech companies, but the complicity of Western governments and corporations eager to gain access to China's huge market. And while governments debate trade wars and tariffs, the Chinese Communist Party and its local partners are aggressively stepping up their efforts to export their surveillance technology abroad—including to the United States. *We Have Been Harmonized* is a terrifying portrait of life under unprecedented government surveillance—and a dire warning about what could happen anywhere under the pretense of national security. "Terrifying. ... A warning call." —The Sunday Times (UK), a "Best Book of the Year so Far"

*Qualitative Forschung* Springer

Die europäische Integration ist ein zunehmend umstrittenes Thema, weil die Europäische Union

nicht nur den Umfang ihrer politischen Kompetenzen ausweitet, sondern zugleich auch die Zahl ihrer Mitglieder vergrößert. Die Erweiterung fordert insbesondere die europäischen Institutionen heraus und bringt substantielle Reformen auf die Tagesordnung, um deren Funktionsfähigkeit zu sichern. Zugleich müssen sich die Institutionen dem Problem stellen, eine Reihe von Gesellschaften mit spezifischen historischen Entwicklungspfaden und besonderen sozialen Rissen zu integrieren. Der Band »Europe in Motion« versammelt fundierte Einblicke in diesen janusköpfigen Vorgang. Zum einen widmen sich die Beiträge den institutionellen Anpassungsprozessen und den gesellschaftlichen Auswirkungen, die durch die Erweiterung in Gang gesetzt wurden. Zum anderen nehmen die Autoren die sich verändernde soziale Architektur der EU in den Blick: soziale Konflikte, Solidarität und Identität, Potentiale für institutionelle Regulierung. Der Sammelband plädiert nachdrücklich dafür, daß die Institutionalisierung der EU Rücksicht auf die Spezifika der einzelnen europäischen Gesellschaften nimmt, um institutionelle Fehlanpassungen, Verteilungskonflikte und soziale Spaltungen zu vermeiden.

This book is the first volume of a two-volume edition based on the International Society for Information Studies Summit Vienna 2015 on 'The Information Society at the Crossroads. Response and Responsibility of the Sciences of Information' (see summit.is4is.org). The book represents a trans-disciplinary endeavor of the leading experts in the field of information studies posing the question for a better society, in which social and technological innovations help make information key to the flourishing of humanity and dispense with the bleak view of the dark side of information society. It is aimed at readers that conduct research into any aspect of information, information society and information technology, who develop or implement social or technological applications. It is also for those who have an interest in participating in setting the goals for sciences of information and social applications of technological achievements and scientific results.

Beyond the Blue Border Pccs Books

"Dispelling the notion that François Mitterrand was reluctant to accept the reunification of Germany, Schabert focuses on French diplomacy, re-creating cabinet meetings and quoting communications between Mitterrand and other world leaders, to show that Mitterrand's main concern was that a reunified Germany be firmly anchored in a unified Europe"--Provided by publisher.

**Report of the International Narcotics Control Board for 2020** Houghton Mifflin Harcourt

The Palgrave Handbook of Methods for Media Policy Research covers the craft that is and the methods used in media and communication policy research. It discusses the steps involved in conducting research, from deciding on a topic, to writing a report and everything in between and, furthermore, deals with a wide variety of qualitative and quantitative methods of data collection and analysis. The handbook invites researchers to rediscover trusted methods such as document analysis, elite interviews and comparisons, as well as to familiarize themselves with newer methods like experiments, big data and network analysis. For each method, the handbook provides a practical step-by-step guide and case studies that help readers in using that method in their own research. The methods discussed are useful for all areas of media and communication policy research, for research concerning the governance of both mass media and online platforms, and for policy issues around the globe. As such, the handbook is an invaluable guide to every researcher in

this field.

Effective knowing and learning for vocational purposes must take account of the wide range of variables that impact on knowledge formation and that promote learning. In light of those many variables, the formal sector of technical and vocational education and training (TVET) must constantly ask itself what it could and should do to better provide vocational learning for those people likely to pursue learning via the informal sector. This book addresses that question. Vocational Learning: Innovative Theory and Practice discusses four theoretical aspects of vocational learning that support understanding of vocational learning processes and practices: the situations of vocational learning; the power and roles of social networks and identity in vocational learning; knowing and knowledge management processes; and the implications for pedagogic practices in both informal and formal TVET systems. The book provides an overview of a series of international examples of innovative approaches to vocational educational theory and practice, and it draws on empirical research to analyze the effects of those approaches. It includes unique insights into aspects of TVET for Indigenous peoples. With a discussion of policy implications for Europe, North America and Australia, this book is an instrumental tool to understand the underlying factors that generate effective educational and workforce outcomes through effective formal and informal learning.

**Idyll with Drowning Dog** HarperCollins

By day, Julia Ebner works at a counter-extremism think tank, monitoring radical groups from the outside. But two years ago, she began to feel she was only seeing half the picture; she needed to get inside the groups to truly understand them. She decided to go undercover in her spare hours - late nights, holidays, weekends - adopting five different identities, and joining a dozen extremist groups from across the ideological spectrum. Her journey would take her from a Generation Identity global strategy meeting in a pub in Mayfair, to a Neo-Nazi Music Festival on the border of Germany and Poland. She would get relationship advice from 'Trad Wives' and Jihadi Brides and hacking lessons from ISIS. She was in the channels when the alt-right began planning the lethal Charlottesville rally, and spent time in the networks that would radicalise the Christchurch terrorist. In *Going Dark*, Ebner takes the reader on a deeply compulsive journey into the darkest recesses of extremist thinking, exposing how closely we are surrounded by their fanatical ideology every day, the changing nature and practice of these groups, and what is being done to counter them.

**The Reader** Bloomsbury Publishing

The book offers a counter-model to the classical liberal theories of civil disobedience, as developed by authors such as John Rawls and Ronald Dworkin. Based on a strict opposition between liberalism and democracy it proposes a new perspective for the understanding of political disobedience. As an alternative to civil disobedience the author proposes the idea of civic disobedience. With reference to authors such as Chantal Mouffe, Jacques Rancière and Stanley Fish, and in opposition to liberal concepts of democracy, the outlines of a new novel theory of democracy become visible.

*The Mergence of Spaces* SAGE

Mia Holl lives in a state governed by The Method, where good health is the highest duty of the citizen. Everyone must submit medical data and sleep records to the authorities on a monthly basis,

and regular exercise is mandatory. Mia is young and beautiful, a successful scientist who is outwardly obedient but with an intellect that marks her as subversive. Convinced that her brother has been wrongfully convicted of a terrible crime, Mia comes up against the full force of a regime determined to control every aspect of its citizens' lives.

**Facilitating Young People's Development** Other Press, LLC

A glorious picture book story all about one boy, one imaginary friend named Kevin, and one very special friendship... from the creative genius behind the #DrawWithRob phenomenon and the bestselling and award-winning *Blown Away!*

**The Future Information Society** World Scientific Publishing Company

Hanna and Andreas will do anything to leave oppressive East Germany behind. There's one escape route open to them, but can they survive it? Hanna and Andreas have always been friends. When they're expelled from school for activism directly challenging the socialist state in East Germany, they end up doing factory work. But what kind of life do they have to look forward to without education or opportunity? Especially when they aren't allowed a voice? The choice to risk imprisonment or death by escaping to the democratic West seems like a risk worth taking. They set out to swim twenty-five hours across the choppy waters of the Baltic Sea. Linke's storytelling achieves a delicate balance between heightened moments of danger--searchlights, jellyfish, a Russian helicopter, a violent summer storm--and the monotony, ineffable fatigue, physical pain, cramping, fear, and hope that fill the rest of the journey. A memorable tale of two people risking all for a chance at freedom.

*Going Dark* OCDE

The International Handbooks of Teacher Education cover major issues in the field through chapters that offer detailed literature reviews designed to help readers to understand the history, issues and research developments across those topics most relevant to the field of teacher education from an international perspective. This volume is divided into two sections: The organisation and structure of teacher education; and, knowledge and practice of teacher education. The first section explores the complexities of teacher education, including the critical components of preparing teachers for teaching, and various aspects of teaching and teacher education that create tensions and strains. The second examines the knowledge and practice of teacher education, including the critical components of teachers' professional knowledge, the pedagogy of teacher education, and their interrelationships, and delves into what we know and why it matters in teacher education.

**Strategy for lifelong learning in the Federal Republic of Germany** Simon & Schuster Books for Young Readers

While access to schooling has expanded around the world, many countries have not realised the hoped-for improvements in economic and social well-being. Access to education by itself is an incomplete goal for development; many students leave the education system without basic proficiency in literacy and numeracy. As the world coalesces around new sustainable development targets towards 2030, the focus in education is shifting towards access and quality. Using projections based on data from the OECD Programme for International Student Assessment (PISA) and other international student assessments, this report offers a glimpse of the stunning economic and social benefits that all countries, regardless of their national wealth, stand to gain if they ensure

that every child not only has access to education but, through that education, acquires at least the baseline level of skills needed to participate fully in society.
