If I built a car, it'd be totally new! Here are a few of the things that I'd do. . . . Young Jack is giving an eye-opening tour of the car he'd like to build. There's a snack bar, a pool, and even a robot named Robert to act as chauffeur. With Jack's soaring imagination in the driver's seat, we're deep-sea diving one minute and flying high above traffic the next in this whimsical, tantalizing take on the car of the future. Illustrations packed with witty detail, bright colors, and chrome recall the fabulous fifties and an era of classic American automobiles. Infectious rhythm and clever invention make this wonderful read-aloud a launch pad for imaginative fun.

From potty-training expert and social worker Jamie Glowacki, who's already helped over half a million families successfully toilet train their preschoolers, comes a newly revised and updated guide that's "straight-up, parent-tested, and funny to boot" (Amber Dusick, author of Parenting: Illustrated with Crappy Pictures). Worried about potty training? Let Jamie Glowacki, potty-training expert, show you how it's done. Her six-step, proven process to get your toddler out of diapers and onto the toilet has already worked for tens of thousands of kids and their parents. Here's the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20-30 months), and it can be done FASTER than you expect (most kids get the basics in a few days—but Jamie's got you covered even if it takes a little longer). If you've ever said to yourself: -How do I know if my kid is ready? -Why won't my child poop in the potty? -How do I avoid "potty power struggles"? -How can I get their daycare provider on board? -My kid was doing so well—why is he regressing? -And what about nighttime?! Oh Crap! Potty Training can solve all of these (and other) common issues. This isn't theory, you're not bribing with candy, and there are no gimmicks. This is real-world, from-the-trenches potty training information—all the questions and all the answers you need to do it once and be done with diapers for good.

Eula is the only square cat in town—and she doesn't think there's anything hip about it. Everything that normal cats do is hard for her: She can't get her square paw into mouse holes, she can't wear her favorite circle skirt, and all of her friends are round! Eula is sad until her two best friends show her just how well a square cat can fit into a round world. Debut author/illustrator Elizabeth Schoonmaker applies her dry wit to the topic of fitting in, and the spare text and appealing trim size of Square Cat make it ideal for repeated readings.

Read Along or Enhanced eBook: All aboard for a train ride through the alphabet! Whether chug-chug-chugging up a mountainside in an Incline train or zipping at super speed in a Bullet train, trains will get you where you need to be—A to Z! There is a train—some familiar and some unusual—for every letter of the alphabet. Trains are used all over the world for carrying people and cargo from place to place. With a bouncy rhyming text, and clever illustrations full of visual cues, young readers will love learning all about trains. A companion to the Children's Book Award nominated Alphabet Trucks! From the Hardcover edition.

**Counting Bears** Picture Puffin

In this off-beat book perfect for reading aloud, a Caldecott Honor winner shares the story of a duck who rides a bike with hilarious results. One day down on the farm, Duck got a wild idea. "I bet I could ride a bike," he thought. He waddled over to where the boy parked his bike, climbed on, and began to ride. At first, he rode slowly and he wobbled a lot, but it was fun! Duck rode past Cow and waved to her. "Hello, Cow!" said Duck. "Moo," said Cow. But what she thought was, "A duck on a bike? That's the silliest thing I've ever seen!" And so, Duck rides past Sheep, Horse, and all the other barnyard animals. Suddenly, a group of kids ride by on their bikes and run into the farmhouse, leaving the bikes outside. Now ALL the animals can ride bikes, just like Duck! Praise for Duck on a Bike "Shannon serves up a sunny blend of humor and action in this delightful tale of a Duck who spies a red bicycle one day and gets "a wild idea" . . . Add to all this the abundant opportunity for youngsters to chime in with barnyard responses ("M-o-o-o"; "Cluck! Cluck!"), and the result is one swell read-aloud, packed with freewheeling fun." —Publishers Weekly "Grab your funny bone—Shannon . . . rides again! . . . A "quackerjack" of a terrific escapade." —Kirkus Reviews

**Things that Go** Workman Publishing

This bestselling book has been completely updated and expanded to help teachers use the project approach in child care centers, in preschools, and in kindergarten, 1st grade, and early childhood special education classrooms. For those new to using projects, the book introduces the approach and provides step-by-step guidance for conducting meaningful projects. Experienced teachers will

find the teacher interviews, children's work, photographs (including full colour), and teacher journal entries used to document the project process in actual classrooms very useful. This popular, easy-to-use resource has been expanded to include these new features: explicit instructions and examples for incorporating standards into the topic selection and planning process; a variety of nature experiences, with examples that show how project work is an excellent way to connect children to the natural world; an update of the use of technology for both documentation and investigations, including use of the Web as well as and video and digital cameras; and more toddler projects that reflect our increased knowledge from recent mind/brain research about toddler understanding and learning.
