*Colors with Ladybug* National Geographic Books  
 Ladybird's First Fabulous Facts is an illustrated non-fiction series for 3-5 year olds. Fun and fascinating facts engage young children and bring their favourite interests, hobbies and obsessions to life. Planet Earth helps children understand the world around them. It looks at the concepts of land and water, climate and weather, as well as our planet's different habitats and the animals that live in them. Look out for other titles in the series: Minibeasts, Dinosaurs and My Body!  
*BBC Earth: Animal Colors - Ladybird Readers Level 1* Cartwheel Books  
 This Activity Book accompanies the Reader. It provides practice of key language structures and vocabulary, while developing a range of skills: singing, spelling and writing, reading, speaking, and listening. Ladybird Readers is a graded reading series of traditional tales, popular characters, modern stories, and non-fiction, written for young learners of English as a foreign or

second language. Recommended for children aged 4+, the eight levels of Readers and six levels of Activity Books follow the CEFR framework (Pre-A1 to A2+) and include language activities that help develop key skills and provide preparation for the Cambridge English: Young Learners (YLE) Starters, Movers and Flyers exams. The Starter level introduces phonics and sight words. Each book contains two versions of the story: the first with single words focusing on phonics, and the second with full sentences introducing sight words. It is Pre-A1 in the CEFR framework.

Learn how a seed becomes a tree with Eric Carle's classic artwork and *The Very Hungry Caterpillar*! In this nonfiction story, young readers explore the transformation of a seed into a tree. The miracles of nature come to life in this early-learning series centered around life cycles, featuring simple text and Eric Carle's classic illustrations!

*Lady Bird Johnson: Hiding in Plain Sight* Ladybird

*Peter Rabbit: The Angry Owl* Squirrel Nutkin has lost Old Brown's glasses and the owl is not happy! Will Peter and his friends help

Nutkin find the missing glasses? Read it yourself with Ladybird is one of Ladybird's best-selling reading series. For over thirty-five years it has helped young children who are learning to read develop and improve their reading skills. Each Read it yourself book is very carefully written to include many key, high-frequency words that are vital for learning to read, as well as a limited number of story words that are introduced and practised throughout. Simple sentences and frequently repeated words help to build the confidence of beginner readers and the four different levels of books support children all the way from very first reading practice through to independent, fluent reading. There are more than ninety titles in the Read it yourself series, ranging from classic fairy tales and traditional world stories to favourite children's brands such as Peppa Pig, Angry Birds and Peter Rabbit. All-new, first reference titles complete the range, with information books about favourite subjects that even the most reluctant readers will enjoy. Each book has been carefully checked by educational consultants and can be read independently at home or used in a guided reading session at school. Further content includes comprehension questions or puzzles, helpful notes for parents, carers and teachers, and book band information for use in schools. Peter Rabbit: The Angry Owl is a Level 2 Read it yourself book, ideal for children who have received some initial reading instruction and can read short, simple sentences with help.

**Rebugging the Planet** National Geographic Books

"This is a lovely little book that could and should have a big impact...Let's all get rebugging right away!"—Hugh Fearnley-Whittingstall Meet the intelligent insects, marvelous minibeasts, and inspirational invertebrates that help shape our planet—and discover how you can help them help us by rebugging your attitude today! Remember when there were bugs on your windshield? Ever wonder where they went? We need to act now if we are to help the insects survive. Robin Wall Kimmerer, David Attenborough, and Elizabeth Kolbert are but a few voices championing the rewilding of our world. Rebugging the Planet explains how we are headed toward “insectageddon” with a rate of insect extinction eight times faster than that of mammals or birds, and gives us crucial information to help all those essential

creepy-crawlies flourish once more. Author Vicki Hird passionately demonstrates how insects and invertebrates are the cornerstone of our global ecosystem. They pollinate plants, feed birds, support and defend our food crops, and clean our water systems. They are also beautiful, inventive, and economically invaluable—bees, for example, contribute an estimated \$235 to \$577 billion to the US economy annually, according to Forbes. *Rebugging the Planet* shows us small changes we can make to have a big impact on our littlest allies: Learn how to rewild parks, schools, sidewalks, roadsides, and other green spaces. Leave your garden to grow a little wild and plant weedkiller-free, wildlife-friendly plants. Take your kids on a minibeast treasure hunt and learn how to build bug palaces. Make bug-friendly choices with your food and support good farming practices. Begin to understand how reducing inequality and poverty will help nature and wildlife too—it's all connected. So do your part and start rebugging today! The bees, ants, earthworms, butterflies, beetles, grasshoppers, ladybugs, snails, and slugs will thank you—and our planet will thank you too.
