JACOBS DWAYNE

Skeleton Keys Penguin

Defeated by an unruly bunch of pirates who throw him overboard, a once-fearsome pirate is rescued by a mermaid only to be swallowed by a whale who suffers from indigestion because of a treasure-laden ship in its tummy. By the creator of *Christmas at the Toy Museum*.

There's a Skeleton Inside You! Penguin

The gripping, unforgettable, and deeply affecting story of a young clinical psychologist learning how she can best help her patients, *The Skeleton Cupboard* is a riveting and revealing memoir that offers fascinating insight into the human mind. In *The Skeleton Cupboard*, Professor Tanya Byron recounts the stories of the patients who most influenced her career as a mental health practitioner. Spanning her years of training—years in which Byron was forced her to contend with the harsh realities of the lives of her patients and confront a dark moment in her own family's past—*The Skeleton Cupboard* is a compelling and compassionate account of how much health practitioners can learn from those they treat. Among others, we meet Ray, a violent sociopath desperate to be shown tenderness and compassion; Mollie, a talented teenager intent on starving herself; and Imogen, a twelve-year old so haunted by a secret that she's intent on killing herself. Byron brings the reader along as she uncovers the reasons each of these individuals behave the way they do, resulting in a thrilling, compulsively readable psychological mystery that sheds light on mental illness and what its treatment tells us about ourselves.

If You Ever Meet a Skeleton Harper Trophy

Caldecott Honor winner Steve Jenkins presents a fascinating look at the bones of the human body as compared to the bones of animals, and shows them off! This book is far from skinny -- it's the definitive nonfiction title about human and animal bones, delivered with in-your-face accuracy and intrigue. In this visually driven volume, kids come face-to-face with some head-to-toe boney comparisons, many of them shown at actual size. Here you'll find the differences between a man's hand and that of a spider monkey; the great weight of an elephant's leg, paired with the feather-light femur of a stork; and rib-tickling info about snakes and sloths. How many bones are in the whole human body?

A Bad Case of Stripes Scholastic Inc.

Stitch Head, the Mad Professor's first creation, has long hidden in the shadows of Castle Grotteskew—but now that the newest monster, the Creature, has decided that they are best friends, and the evil Freakfinder wants to kidnap the monsters for his freak show, Stitch Head finds himself cast in the role of hero.

Skeleton Hiccups Dutton Juvenile

The Skeleton Inside Me! Workman Publishing

A chilling middle grade novel featuring a brave young girl, missing parents, and a terrifying stranger, based on a Native American legend. R.L. Stine, New York Times bestselling author of the *Goosebumps* series, raved, "This book gave ME nightmares!" Molly's father, who grew up on the Mohawk Reserve of Akwesasne, always had the best scary stories. One of her favorites was the legend of Skeleton Man, a gruesome tale about a man with such insatiable hunger he ate his own flesh before devouring those around him. But ever since her parents mysteriously vanished, those spooky tales have started to feel all too real. Don't miss *The Legend of Skeleton Man: a spine-tingling collection of Skeleton Man and its sequel, The Return of Skeleton Man!*

"What if there was an algorithm that could predict which novels become mega-bestsellers? Are books like Dan Brown's *The Da Vinci Code* and Gillian Flynn's *Gone Girl* the Gladwellian outliers of publishing? [This book] boldly claims that the New York Times bestsellers in fiction are predictable and that it's possible to know with 97% certainty if a manuscript is likely to hit number one on the list as opposed to numbers two through fifteen. The algorithm does exist; the code has been cracked; the results are in"--

Gideon the Ninth is the first book in the New York Times and USA Today Bestselling *Locked Tomb Series*, and one of the Best Books of 2019 according to NPR, the New York Public Library, Amazon, BookPage, Shelf Awareness, BookRiot, and Bustle! WINNER of the 2020 Locus Award and Crawford Award Finalist for the 2023 Hugo Award for Best Series! Finalist for the 2020 Hugo, Nebula, Dragon, and World Fantasy Awards "Unlike anything I've ever read." —V.E. Schwab "Lesbian necromancers explore a haunted gothic palace in space!" —Charles Stross "Deft, tense and atmospheric, compellingly immersive and wildly original." —The New York Times The Emperor needs necromancers. The Ninth Necromancer needs a swordswoman. Gideon has a sword, some dirty magazines, and no more time for undead nonsense. Tamsyn Muir's *Gideon the Ninth* unveils a solar system of swordplay, cut-throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy. Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won't set her free without a service. Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will become an immortal, all-powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Without Gideon's sword, Harrow will fail, and the Ninth House will die. Of course, some things are better left dead. THE LOCKED TOMB SERIES BOOK 1: *Gideon the Ninth* BOOK 2: *Harrow the Ninth* BOOK 3: *Nona the Ninth* BOOK 4: *Alecto the Ninth* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Skeleton Key Harper Collins

"A provocative and entertaining magical mineral tour through the life and afterlife of bone." —Wall Street Journal Our bones have many stories to tell, if you know how to listen. Bone is a marvel, an adaptable and resilient building material developed over more than four hundred million years of evolutionary history. It gives your body its shape and the ability to move. It grows and changes with you, an undeniable document of who you are and how you lived. Arguably, no other part of the human anatomy has such rich scientific and cultural significance, both brimming with life and a potent symbol of death. In this delightful natural and cultural history of bone, Brian Switek explains where our skeletons came from, what they do inside us, and what others can learn about us when these artifacts of mineral and protein are all we've left behind. Bone is as embedded in our culture as it is in our bodies. Our species has made instruments and jewelry from bone, treated the dead like collectors' items, put our faith in skull bumps as guides to human behavior, and arranged skeletons into macabre tributes to the afterlife. Switek makes a compelling case for getting better acquainted with our skeletons, in all their surprising roles. Bridging the worlds of paleontology, anthropology, medicine, and forensics, *Skeleton Keys* illuminates the complex life of bones inside our bodies and out.
