WATTS TRAVIS

Wolves Houghton Mifflin Harcourt

Describes the habits of a wolf pack by tracing the care and development of a young wolf with potential of becoming a pack leader.

Wolves of the Kenai Peninsula, Alaska Stillwater, Minn. : Voyageur Press

Describes the social interaction of wolves in a pack as they share the work of hunting, maintaining territory, and raising young.

Papa Wolf McClelland & Stewart

After Josh and Tank crash their snowmobiles in the Alaskan wilderness, they must try to make their way to safety while being stalked by wolves and wild dogs possibly infected with rabies.

Wolf Pack Houghton Mifflin Harcourt

In this book, early fluent readers will learn how and why wolves live together in groups called packs. Vibrant, full-color photos and carefully leveled text will engage young readers as they learn more about the animal's predatory habits, diet, behaviors, appearance, and social structure. A Take a Look! infographic aids understanding, sidebars present interesting, supplementary information, and an activity offers readers an opportunity to extend discovery. Children can learn more about wolf packs using our safe search engine that provides relevant, age-appropriate websites. *Wolf Packs* also features reading tips for teachers and parents, a table of contents, a glossary, and an index. *Wolf Packs* is part of Jump!'s Better Together: Animal Groups series.

Julie's Wolf Pack Turtleback

Heralded by Science Fiction Chronicle as one of the Best Books of 2001. Across the waterworld of Aquasilva, change is being fought and ruthlessly suppressed by the Domain and its ferocious holy warriors, the Sacri. When Cathan, a count's son, inadvertently stumbles across a terrifying Domain plot to wipe out the rising discontent, he is thrust headlong into a fight beyond his control.

Alpha Wolf Rowman & Littlefield

The acclaimed final book in the trilogy that begins with the

Newbery Medal-winning Julie of the Wolves In this exciting adventure about the wolf pack that saved the life of a young girl when she was lost on the tundra, Julie has returned to her family, but her wolf pack has a story all its own. Fearless but inexperienced Kapu is now the new leader of the pack. He must protect his wolves from the threats of famine and disease and, at the same time, defend himself from bitter rivals, both inside and outside the pack, who are waiting for their chance to overthrow him. The strength of Kapu's leadership will determine not just the well-being of the pack but its very survival. Jean Craighead George's research and first-hand observation form this engrossing epic tale that's sure to draw readers into the fascinating world of wolves. Don't miss any of the books in Jean Craighead George's groundbreaking series: *Julie of the Wolves*, *Julie*, and *Julie's Wolf Pack*.

Wolves: Track and Attack Univ of Wisconsin Press

Did you know that a group of wolves is called a pack? This book gives readers an up-close look at life within a wolf pack. Each wolf has a role to play in order for the pack to survive. Wolves are great communicators. They use their communication skills to work together, especially when hunting. Amazing photographs are paired with accessible text to make this book both educational and fun. Fact boxes on each spread provide additional chances for young readers to learn about these incredible creatures.

They Lead Bearport Publishing

A young child joins his scientist parents as they observe the behavior a wolf pack over the course of one year. The narrator decides to keep a diary and records how the pack's alpha pair digs a den and then raises a litter of cubs. From watching the cubs emerge from the den for the first time, to seeing the cubs grow into adults and find their places in the hierarchy of the pack, the reader will follow the daily life of the close-knit wolf family. Colorful photos, diagrams, and clear, age-appropriate text will engage young readers as they explore the life cycle, natural habitat, physical characteristics, diet, and behavior of these intelligent and fascinating animals. The diary format models scientific observation and critical thinking—and encourages children to keep notebooks recording their own investigations into

the natural world.

When The Wolves Come Out Pogo Books

In *The Red Snow*, his second work, Greiner turns his keen eye to Alaska's vast wilderness and its most mysterious creature: the gray wolf. Basing his story on careful research and personal observation, Greiner recounts the lives of the Tanana River Valley wolf pack and the tough, lonely hunter, Jake, who inhabits their valley. In splendid detail, he describes the birth of pups, the victory of the hunt, and the habits of animals who share the wolves' valley. Yet in describing the beauty, he never forgets the harshness of the Arctic wilderness; Greiner makes the ugly realities of the fight for survival intensely clear.

The Wolves of Denali Greystone Books Ltd

Explores the behaviors and daily life of a wolf pack, as well as their habitat, environmental threats, and the advantages of group living.

Driven from their packs, two wolves meet, become companions, and form a new pack with their pups.

The Reign of Wolf 21 The Rosen Publishing Group, Inc

"Developed by literacy experts for students in kindergarten through grade three, this book introduces wolves to young readers through leveled text and related photos"--Provided by publisher.

Wolves Independently Published

What would compel a man to place himself in constant danger in order to become a member of a wolf pack? To eat with them, putting his head into a carcass alongside the wolves' gnashing teeth? To play, hunt, and spar with them, suffering bruises and bites? To learn their language so his howl is indistinguishable from theirs? To give up a normal life of relationships and family so that he can devote himself completely to the protection of these wild animals? In *The Man Who Lives with Wolves*, Shaun Ellis reveals how his life irrevocably changed the first time he set eyes on a wolf. In exhilarating prose, he takes us from his upbringing in the wilds of Norfolk, England, to his survival training with British Army Special Forces to the Nez Percé Indian lands in Idaho, where he first ran with a wolf pack for nearly two years. Offering an extraordinary look into the lives of these threatened, misunderstood creatures, Ellis shares how he ate raw kill-and little else; washed rarely, and only in plain water; learned to bury his face into the carcasses of prey-and, when necessary, to defend his share of the kill; communicated with the pack by his howls and body language, which over time became seemingly identical to theirs; and observed from this unique vantage point how wolves give birth to and raise their young, and enforce order among the pack. After years of living in the wild, Shaun Ellis was barely able to recognize the feral face that stared back at him from the mirror. And in *The Man Who Lives with Wolves*, we discover the life of a rare and fascinating man who abandoned civilization but never lost touch with his humanity.

Wolf Country First Avenue Editions

It was 1978, and there had been no resident timber wolves in

Wisconsin for twenty years. Still, packs were active in neighboring Minnesota, and there was the occasional rumor from Wisconsin's northwestern counties of wolf sign or sightings. Had wolves returned on their own to Wisconsin? Richard Thiel, then a college student with a passion for wolves, was determined to find out. Thus begins *Keepers of the Wolves*, Thiel's tale of his ten years at the center of efforts to track and protect the recovery of wolves in Northern Wisconsin. From his early efforts as a student enthusiast to his departure in 1989 from the post of wolf biologist for the Department of Natural Resources, Thiel conveys the wonder, frustrations, humor, and everyday hard work of field biologists, as well as the politics and public relations pitfalls that so often accompany their profession. We share in the excitement as Thiel and his colleagues find wolf tracks in the snow, howl in the forest night and are answered back, learn to safely trap wolves to attach radio collars, and track the packs' ranges by air from a cramped Piper Cub. We follow the stories of individual wolves and their packs as pups are born and die, wolves are shot by accident and by intent, ravages of canine parvovirus and hard winters take their toll, and young adults move on to new ranges. Believing he had left his beloved wolves behind, Thiel takes a new job as an environmental educator in central Wisconsin, but soon wolves follow. By 1999, there were an estimated 200 timber wolves in 54 packs in Wisconsin. This is a sequel to Dick Thiel's 1994 book, *The Timber Wolf in Wisconsin: The Death and Life of a Majestic Predator*. That book traced the wolf's history in Wisconsin, its near extinction, and the initial efforts to reestablish it in our state. Thiel's new book looks at how successful that program has been.

Werewolf Security Thomas Nelson

Describes the social interaction of wolves in a pack as they share the work of hunting, maintaining territory, and raising young.

Return of the Wolf Putnam Publishing Group

Discover the wonder of wolves from Emmy-award winning

filmmakers Jim and Jamie Dutcher as they tell their story of the six years they watched, learned about, and lived with the Sawtooth wolf pack. Adventure, friendship, and family come together in this riveting memoir as two award-winning filmmakers take you through the experience of the years they spent living in the wild with a real-life wolf pack. Jim and Jamie set out to show the world that instead of fearsome beasts, wolves are social, complex, and incredible creatures that deserve our protection. Deep in the mountain wilderness of Idaho, they set up Wolf Camp, where they spent years capturing the emotional, exciting, and sometimes heartbreaking story of their pack. Meet Kamots, the fearless leader. Learn from wise Matsi. Explore the forest with shy Lakota. And watch as adorable pups grow from silly siblings to a devoted pack. See how these brave wolves overcome all odds, battling mountain lions and frigid temperatures. Most of all, discover the surprising kindness, compassion, and devotion that Jim and Jamie discovered by living with wolves.

Wolf Pack Riverbend

Filled with spectacular full-color images of the elusive wolf in its natural habitat, this compelling study provides an up close and personal glimpse into three families. View life through the eyes of these wild creatures as they hunt together for food, defend their territory against intruders, keep peace in their tightly knit group with strict social rules, and care lovingly for their pups, so they will grow up to meet the challenges of their environment. From basic wolf biology, the evolution of the species, and wolf body language to the structure and practical functioning of packs to recent triumphs in wolf conservation, *Wolves* pairs fascinating information about the species with spectacular full-color images of these elusive animals in their natural habitat.

Yellowstone Wolves in the Wild HarperCollins

An introduction to the lives of wolves that focuses on how they hunt and how they raise their cubs.
