The Yogin and the Madman Shambhala Publications

This volume seeks to offer a new approach to the study of music through the lens of recent works in Science and Technology Studies (STS). Applied to the study of music, this approach enables us to reconcile the human, social, factual, and technological aspects of the musical world, and opens the prospect of new areas of inquiry in musicology and sound studies. Drawing together contributions from a wide range of scholars, the book's four sections focus on key areas of music study that are impacted by STS: organology, sound studies, music history,

and epistemology.

Tibetan biographers began writing Jetsun Milarepa's (1052-1135)

life story shortly after his death, initiating a literary tradition that turned the poet and saint into a model of virtuosic Buddhist practice throughout the Himalayan world. Andrew Quintman traces this history and its innovations in narrative and aesthetic representation across four centuries, culminating in a detailed analysis of the genre's most famous example, composed in 1488 by Tsangnyön Heruka, or the "Madman of Western Tibet." Quintman imagines these works as a kind of physical body supplanting the yogin's corporeal relics.

AN INSTANT NEW YORK TIMES BESTSELLER

"Provocative and appealing . . . well worth your extremely limited time."

—Barbara Spindel, *The Wall Street Journal* The average human lifespan is absurdly, insultingly brief.

Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of

anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on “getting everything done,” *Four Thousand Weeks* introduces

readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we’ve come to think about time aren’t inescapable, unchanging truths, but choices we’ve made as individuals and as a society—and that we could do things differently.

The Dharma is the first major collection of teachings by Kalu Rinpoche, a great meditation master in the Tibetan Buddhist tradition. These discourses were presented in America with a Western audience in mind, and have been specially edited for this volume.

The openness, simplicity, and depth of realization in his teachings have brought inspiration to many, and greater understanding of the wisdom Buddhism has to offer. The topics covered range from the most subtle psychology and metaphysics to everyday life and practice. Readers new to Buddhism will find lucid and profound explanations of the fundamental teachings; those already familiar with Buddhism will discover unexpected insights into the heart of the tradition.

The Hundred Thousand Songs of Milarepa Farrar, Straus and Giroux
Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a

Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of

Hiroshima.

The Hundred Thousand Songs

Vintage

An authoritative new translation of the complete Hundred Thousand Songs of Milarepa, the teaching songs and stories from Tibet's most beloved Buddhist yogi, poet, and saint. Powerful and deeply inspiring, there is no book more beloved by Tibetans than *The Hundred Thousand Songs*, and no figure more revered than Milarepa, the great eleventh-century poet and saint. An ordinary man who, through sheer force of effort, faith, and perseverance, overcame nearly insurmountable obstacles on the spiritual path to achieve enlightenment in a single lifetime, he

stands as an exemplar of what it is to lead a spiritual life. Milarepa, a cotton-clad yogi, wandered and taught the dharma, most famously through spontaneously composed songs, a colorful and down-to-earth way to convey the immediacy and depth of the Buddhist teachings. In this work, the songs are woven into a narrative that tells the stories of his most famous encounters with his students, including Gampopa and Rechungpa, and recount his victories over supernatural forces in the remote Himalayan mountains and caves where he meditated. In this authoritative new translation, prepared under the guidance of Dzogchen Ponlop

Rinpoche, Christopher Stagg brilliantly brings to life the teachings of this extraordinary man. This classic of world literature is important for its narrative alone but is also a key contribution for those who seek inspiration for the spiritual path.

The Hundred Thousand Fools of God Hal Leonard Corporation
This collection of Tibetan poetry and lyrics is accompanied by extensive commentary and offers a great insight into a

rich literary culture. Tibet, remote and inaccessible, is less known to the western world for its literary than its artistic contributions to world culture. Nevertheless, it has produced a literature of enduring beauty and significance, the supreme achievement of which is the poetry of Milarepa, its greatest poet and saint. This Tibetan poetry book indicates in its poetic exaggeration that, to the Tibetans, his poetry contains all earthly and celestial wisdom. It is from this masterpiece that the selections for the present volume have been made—songs in which Milarepa describes his life in the solitude of mountain glaciers, his yogic

attainments in self-discipline, his encounters with demons who try to obstruct his meditations, and his arrival at enlightenment and spiritual freedom. Presented here in skillful translation—in a volume decorated with original Tibetan woodcuts and motifs from Tibetan art—these poems shinningly reflect the genius of Tibet's "Old Man, Storehouse of Songs."

Calcutta Review

Tibetans accord The Hundred Thousand Songs of Milarepa a classic status comparable to that of the Mahabharata and the Bible, and revere its author as probably the best single exemplar of the religious life. Milarepa was an eleventh-

century Buddhist poet and saint, a cotton-clad yogi who avoided the scholarly institutions of his time and wandered from village to village, teaching enlightenment and the path to Buddhahood through his spontaneously composed songs. Wherever he went, crowds of people gathered to hear his sweet sounding voice "singing the Dharma." The Hundred Thousand Songs of Milarepa, says the book's translator, "has been read as the biography of a saint, a guide book for devotions, a manual of Buddhist yoga, a volume of songs and poems, and even a collection of Tibetan folklore, and fairy tales." With titles like "The Salvation of the Dead," "A Woman's

Role in the Dharma," and "Challenge from a Wise Demoness," Milrepa's poems are filled with fascinating tales of miraculous encounters and colorful imagery, and present a valuable insight into the living quality of Tibetan Buddhism. Central as this book is to Tibetan culture, the arcane dialect and obscurity of many original passages daunted translators for centuries; this was the first complete version of the classic to appear in the West.

Spanning three thousand years and five major cultures, the traditions of Eastern philosophy play a major role in any study of human thought today; to ignore the East is to miss the valuable insights of philosophers from the Persian, Indian, Chinese, Tibetan and Japanese traditions. In this book, every major stream of Eastern thought, whether idealistic or materialistic, is presented. The author reveals here the wisdom of the East, from Avicenna to Zoroaster, from Buddha to Gandhi. Entries cover not only the philosophers themselves but also the philosophical terms and concepts, the historical background, the doctrines,

teachings and writings of the East. Whether we wish to consult the I Ching, to understand Zen koan, or to read from the Upanishads,

this volume will be a valuable tool in our quest.
