General Law of Contracts CCH Australia Limited

This hard cover book offers a concise, practical guide to the law relating to construction contracts in Australia. Written for engineers negotiating and administering construction contracts, it aims to assist readers in understanding the risks associated with these contracts and how to minimise them. The book is written by two experienced and respected authors who have a unique combination of local and international practical experience and professional and academic background in law and engineering. Oxford University Press Australia & New Zealand is the non-exclusive distributor of this title.

General Conditions of the Contract for Construction Berrett-Koehler Publishers

The new third edition of the General Conditions of Contract for Construction Works (the GCC 3rd Edition 2015) will replace the GCC 2010. By clarifying certain contract administration procedures and refining some of the risk appropriation clauses, amongst other things, the new GCC 3rd Edition 2015 states that the Contractor's time risk allowances must be indicated on the Programme of Works. It also permits the Contractor to suspend the Works if the Employer fails to make payment on a payment certificate, and includes delay and cost due to excepted risks as an entitlement that the Contractor may claim. A Variable Performance Guarantee is added to the list of securities and it allows for the selection of inflation indices that are appropriate to the type of Works to be carried out. The amendments and use of simpler and more concise wording in the latest edition should also ensure that GCC 3rd Edition 2015 will remain relevant in the future and will provide supportive contract administration and the equitable appropriation of risks. The GCC 3rd Edition 2015 are to be used with the contract documentation format as prescribed by the Construction Industry Development Board in the Standard for Uniformity in Construction Procurement and in conjunction with SANS 1921 to set out the requirements and constraints relating to the manner in which the contract work is to be performed -- Publisher's description.
