It's late summer 1793, and the streets of Philadelphia are abuzz with mosquitoes and rumors of fever. Down near the docks, many have taken ill, and the fatalities are mounting. Now they include Polly, the serving girl at the Cook Coffeehouse. But fourteen-year-old Mattie Cook doesn't get a moment to mourn the passing of her childhood playmate. New customers have overrun her family's coffee shop, located far from the mosquito-infested river, and Mattie's concerns of fever are all but overshadowed by dreams of growing her family's small business into a thriving enterprise. But when the fever begins to strike closer to home, Mattie's struggle to build a new life must give way to a new fight—the fight to stay alive.

An unflinching shapeshifter, *Beast at Every Threshold* dances between familial hauntings and cultural histories, intimate hungers and broader griefs. Memories become malleable, pop culture provides a backdrop to glittery queer love, and folklore speaks back as a radical tool of survival. With unapologetic precision, Natalie Wee unravels constructs of “otherness” and names language our most familiar weapon, illuminating the intersections of queerness, diaspora, and loss with obsessive, inexhaustible ferocity—and in resurrecting the self rendered a site of violence, makes visible the

“*Beast at Every Threshold*.” Beguiling and deeply imagined, Wee’s poems explore thresholds of marginality, queerness, immigration, nationhood, and reinvention of the self through myth.

'A wild, sleazy, drug-filled odyssey ... Doyle's maverick novel deserves the accolades coming its way' Independent 'The best work to date from a writer who gets better and better with each release' Irish Independent 'A masterclass in what not to do' New Statesman 'His best book so far: riddling, irreverent, fearless' TLS Rob has spent most of his confusing adult life wandering, writing, and imbibing literature and narcotics in equally vast doses. Now, stranded between reckless youth and middle age, between exaltation and despair, his travels have acquired a de facto purpose: the immemorial quest for transcendent meaning. On a lurid pilgrimage for cheap thrills and universal truth, Doyle's narrator takes us from the menacing peripheries of Paris to the drug-fuelled clubland of Berlin, from art festivals to sun-kissed islands, through metaphysical awakenings in Asia and the brink of destruction in Europe, into the shattering revelations brought on by the psychedelic DMT. A dazzling, intimate, and profound celebration of art and ageing, sex and desire, the limits of thought and the extremes of sensation, *Threshold* confirms Doyle as one of the most original writers in contemporary literature.

*Anthem* has long been hailed as one of Ayn Rand's classic novels, and a clear predecessor to her later masterpieces, *The Fountainhead* and *Atlas*

Shrugged. In Anthem, Rand examines a frightening future in which individuals have no name, no independence, and no values. Equality 7-2521 lives in the dark ages of the future where all decisions are made by committee, all people live in collectives, and all traces of individualism have been wiped out. Despite such a restrictive environment, the spark of individual thought and freedom still burns in him—a passion which he has been taught to call sinful. In a purely egalitarian world, Equality 7-2521 dares to stand apart from the herd—to think and choose for himself, to discover electricity, and to love the woman of his choice. Now he has been marked for death for committing the ultimate sin. In a world where the great "we" reign supreme, he has rediscovered the lost and holy word—"I."

What Our Last Words Reveal About Life, Death, and the Afterlife A person's end-of-life words often take on an eerie significance, giving tantalizing clues about the ultimate fate of the human soul. Until now, however, no author has systematically studied end-of-life communication by using examples from ordinary people. When her father became terminally ill with cancer, author Lisa Smartt began transcribing his conversations and noticed that his personality underwent inexplicable changes. Smartt's father, once a skeptical man with a secular worldview, developed a deeply spiritual outlook in his final days — a change reflected in his language. Baffled and intrigued, Smartt began to investigate what other people have said while nearing death, collecting more than one hundred case studies through interviews and transcripts. In this groundbreaking and insightful book, Smartt shows how the language of the dying can point the way to a transcendent world beyond our own.

A few weeks after her father's death, linguist and educator, Lisa Smartt, heard his voice asking that she transcribe poems from beyond the veil for his beloved, Susan, wife of 54 years. Was it truly the spirit of her father or merely her imagination? Lisa is not sure, but the poems inspired by his voice are beautiful, so she gathered them together into this collection in celebration and memory of his life and love. Those who read the poems agree that they have a vision about them, as if from a perspective much greater than ours and offer an expanded appreciation of all we are. Rafael Gonzalez, Poet Laureate of Berkeley, Ca, writes, "And whose poems are they? Lisa's? Her father Morton's from beyond the threshold? It matters not. What matters are the poems themselves, celebrations of life and of love, lyrical, tender and passionate..."

Thresholds is both a doorway and an absence, a roadmap and a remembering. In this almanac of place and memory, Lara Mimoso Montes writes of her family's past, returning to the Bronx of the 70s and 80s and the artistry that flourished there. What is the threshold between now and then, and how can the poet be the bridge between the two?

"Native Pacific Islander writer Craig Santos Perez has crafted a timely collection of eco-poetry comprised of free verse, prose, haiku, sonnets, satire, and a form he calls "recycling." *Habitat Threshold* begins with the birth and growth of the author's daughter and captures her childlike awe at the wondrous planet. As the book progresses, however, Perez confronts the impacts of environmental injustice, global capitalism, toxic waste, animal extinctions, water struggles, human violence, mass migration, and climate change. Throughout, Perez mourns lost habitats and species and faces his fears about the world his daughter will inherit. Yet this work does not end at the threshold of elegy; instead, the poet envisions a sustainable future in which our ethics are shaped by the indigenous belief that the earth is sacred and all beings are interconnected—a future in which we cultivate love and "carry each other towards the horizon of care.""

Excerpt from *The Threshold of Manhood: A Young Man's Words to Young Men* The two things most needed at such a time are the friendly aid of a

thoroughly honest and manly piety, and, if possible, the social rallying-point of Christian club or home life. It is a question which religious households in great cities should discuss, whether it is not their bounden duty to open their doors freely to this crowd of young strangers who surround them; for to be cut off from the society of good women in the early stage of manhood is an unspeakable mis fortune. It is a yet more urgent question whether the Churches Should not provide in every city social centres for young manhood. I do not mean one or two huge institutions such as we now possess. I mean numerous homes and clubs, where young men coming up in search of Situations could find help, welcome, and accommodation, and where after business hours they could gather in genial social intercourse. Some social stimulant the young nature craves, and must have. If the Churches do not provide it, the music-hall will. I make no apology for the nature of these addresses. They retain the form of spoken counsels and appeals. Except by the occasional alteration of a phrase I have not attempted to recast them into a more literary mould. I simply seek by their publication a yet larger congregation than any I have talked with face to face. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. "Her words will inspire and initiate you" Julie Tallard Johnson, Author of *Wheel of Initiation*. In *Love at the Threshold*, first time author Dina Gregory has written a very moving account of her intimate journey of self-discovery. Written in the wake of a sobering and heartrending divorce, this raw, revealing, and lyrical memoir is at once deeply personal and absolutely universal, illustrating the spiritual pattern of transformation: order, disorder, and reorder. Divided into the sacred cardinal directions as articulated by Dina's mentor, Julie Tallard Johnson, in her book *Wheel of Initiation*, *Love at the Threshold* serves as a compass for the heroine's journey home and is a reminder that in a world divided, the most revolutionary act is remembering that you are whole. For all who yearn to love and be loved, this book gives readers a front-row seat to the crucifixion of a woman's heart as the delusions of romantic love crumble and her faith is put to the test.

"In the beginning" so goes many a great story. These familiar words beckon us across a threshold, often transporting us into unknown worlds and novel experiences. So too our lives are filled with many such "beginnings" – new jobs, relationships, adventures, and even the inception of life itself. Each of these "threshold experiences" not only introduces us to new domains, but also draws us into the realities of archetypal fields. Learning to creatively interact with these prefigured, a priori fields can allow us rich access to sources of eternal wisdom. Jungian analyst Michael Conforti's examination of the initial clinical interview as a "threshold experience" shows that the same archetypal processes responsible for the generation of life itself also shape patient- therapist relationships, creating fascinating, highly patterned dynamics. These powerful fields structure events so that core issues in clients', and often even therapists', lives are re-enacted in the therapeutic setting, with remarkable fidelity to the archetypal field within which each is embedded. Conforti's deft weaving together of psychological and scientific theory, dream analysis, and clinical vignettes elucidates the ways that the psyche entrains both client and therapist into a synchronized pattern. An understanding of the role of the Self in this process reveals the profound meaning and purpose that can be gleaned from careful attention to the communications occurring during the early phase of the therapeutic dialogue. Drawing from the fields of Jungian psychology, biology, quantum physics, and the new sciences, the author provides a unique

lens for viewing the central archetypal dynamics operating within an individual life. His findings demonstrate how past experiences not only shape the initial stages of therapy, but also allow us to understand the future trajectory of treatment. This important study confirms C.G. Jung's assertion of the need for an interdisciplinary perspective if we are to truly comprehend the workings of the psyche.

**Naming What We Know** examines the core principles of knowledge in the discipline of writing studies using the lens of "threshold concepts"—concepts that are critical for epistemological participation in a discipline. The first part of the book defines and describes thirty-seven threshold concepts of the discipline in entries written by some of the field's most active researchers and teachers, all of whom participated in a collaborative wiki discussion guided by the editors. These entries are clear and accessible, written for an audience of writing scholars, students, and colleagues in other disciplines and policy makers outside the academy. Contributors describe the conceptual background of the field and the principles that run throughout practice, whether in research, teaching, assessment, or public work around writing. Chapters in the second part of the book describe the benefits and challenges of using threshold concepts in specific sites—first-year writing programs, WAC/WID programs, writing centers, writing majors—and for professional development to present this framework in action. **Naming What We Know** opens a dialogue about the concepts that writing scholars and teachers agree are critical and about why those concepts should and do matter to people outside the field.
