Murder is the most vile crime known to man. It can be triggered by love or money or sex. Those are the three big ticket items for homicide. But people are strange. They will kill for the most obscure and ridiculous of reasons. In 30 years covering murder, I have discovered each one has its own flavour. Cops and friends can be stunned by the evil lurking within a seemingly ordinary man or woman. In this collection of some of the most memorable cases I've reported on, there are serial killers, rich kid monsters, football stars and wives in pursuit of hormone-charged hijinks... The very rich and the very poor. Successful lawyers and hotel executives. Southern belles who could melt butter with a come hither wink and a sexy drawl. Daddy's girls with gleaming smiles, good marks and possessed by the devil. These are stories of American crimes and they stretch from coast to coast. You will find cheating husbands and wives so desperate for love that they'll kill for it. When the mob kills, it's never personal. It's strictly business. With the murderers in Cold Blooded Murder, it's ALWAYS personal.

There are killers who stalk their prey, learning all they can about an intended target before striking. Some commit the act of murder out of hatred or

revenge for someone in their lives. Killers like Detlev Guenzel searched for like-minded souls who would allow them to indulge in their deepest darkest fantasies. Then of course, there are those who brutally murder for no apparent reason whatsoever. Each of the four true crime murder cases in this true crime anthology are all different from each other in many ways. The wife who was cast aside for a much younger model; the vore who sought out a willing participant in the act of consensual homicide and cannibalism; the young man who butchered his elderly neighbours; and the man whose partners either disappeared or turned up dead over the period of 54 years. For these true crime murder stories we delve into the background of each killer, the acts they committed, and the criminal investigation that brought them down. We look at why they killed, even when there seems to be no apparent motive. True murder cases like these are hard to fathom, and will leave you wondering about the horrors of humanity. True crime stories are the most frightening of all, as you discover what people have the capability of doing to others. This is a prequel to Jack Rosewood's best true crime books series, True Crime Stories.

In this true crime anthology you'll learn about some of the most shocking true crime cases that have happened in the last forty years. You will find yourself thrust into a world that is often depraved but always intriguing and fascinating, leaving you wanting to read more. These twelve cases, which span the globe, are a true testament to the idea that crime comes in all shapes and sizes. There are a number of themes in this volume, including missing persons, road trips gone wrong, and family annihilations. You will read about a case in New Zealand where two young people celebrating the

New Year vanished without a trace never to be seen again, yet a man was still put on trial for their murders. The tragic case of Denise Pikka Thiem--a woman who went on a world trip to find spiritual meaning but ended up murdered--is also profiled in this book. The unfortunate phenomenon of mass murder, particularly family annihilation, is covered in two uniquely bizarre cases in this book. In one case, a man claimed a voodoo demon drove him to murder his family, while in another a man dressed as Santa Claus attempted to murder an entire family during the holiday season. Along with those cases are several others that highlight the strange and dangerous world of the modern criminal. After reading all of the murder mysteries in this volume you will be left wanting to read more. So sit back, relax, and open the pages of this engaging true crime book to learn the secrets of some of the worst criminals to walk the earth over the last forty years!

Night falls and the rivers of blood flow forth once more. For what are murderers if not creatures of the dark? Hiding in plain sight as the average neighbor, co-worker or even employer, just waiting for the moment to unleash their murderous urges. Whether they are sadistic in their methods or not does not change the common trait that they all share: the presence of evil. These crimes shock us to the core, leading us to wonder just what is going on in their minds that leads them to take lives without any feeling of remorse...yet deep down we're actually intrigued by their crimes. Fascinated, even. In truth, these killers bring forth a dark curiosity that keeps us reading chapter after chapter, book after book, and once we're done we begin to reflect on how interesting the psychology behind these characters can be. It is precisely because of this wondrous fascination that we have compiled a fresh set of three True Crime Stories books, following the success of our first collection, this time with the bestselling volumes 4-6. 36 tales of bloodshed and terror, police investigation and the background of each and every killer await you, with each subject varying from serial killer to mass murderer, ruthless monster to seemingly harmless member of the community. No two killers are the same and no two murders are committed for the same reason - this much you are about to find out. Reader, you are about to embark on a road of horror, death and cruelty...are you ready to walk the blood-chilling path into the mind of a killer?

Kevin Ryan is a writer in the much-maligned genre of true crime who desperately needs a devious, over-the-top story for the subject of his next book. How else can he keep his wife Valerie's roots dyed and keep himself from handing out taco samples at the local supermarket? When Kevin isn't Googling himself or spot checking his books' stock at stores around the country or online, he's bringing the hazards (i.e., criminals and other crazies) of his job home to wife Val and twin daughters Taylor and Hayley. Kevin is on the hunt for the big one, the story that could break him out of the mid-list and onto the bestseller lists. And then there's a knock at the door--a story finds him...A distraught 20-year old Jett Carter shows up at the Ryan house because her mother and sister are imprisoned--perhaps if Kevin writes their story and reveals the truth, he might help exonerate them. The Carters' tale is the perfect white-trash-attempted-murder-love-triangle that Kevin's editor will love and his fans will devour. He begins to write "Love You to Death." Then on a beautiful summer day, the wheels of homicide are set in motion and Kevin's own story begins to eclipse the crime he is chronicling. When his #1 fan is murdered and another body turns up, the Ryans' life in Port Gamble and all that Kevin holds dear is in jeopardy. Somewhere in "Love You to Death" and within the "bunch of low rent losers" he's interviewing is the killer.

12 Disturbing True Crime Stories of Murder and Mayhem Volume 10 of the True Crime Case Histories Series (2022) Readers Love This Series - Over 7,000 Five-Star Ratings on Amazon & Goodreads True crime is not for everyone. But chances are, if you've picked up this book, you already know that. Actual true crime is not like watching an episode of CSI. Even television true crime documentaries can skim over the sticky details. Real true crime can be unsettling for many people. However, I do my best not to leave out any details in my books. My intention isn't to shock but rather to give the reader a glimpse into the killer's mind. I don't begin to think that I can understand the mind of a diabolical monster, but I can guarantee that curiosity will keep us turning pages and endlessly searching for answers. Each story in my books requires hours of tedious research. I search through court records, old newspaper articles, police records, autopsy reports, and first-hand accounts. Although I may occasionally change a character's name or fictionalize bits of dialogue, these crimes really happened to real people. Sadly, this is the world in which we live. A sampling of the stories includes: A Sad Holiday Season - In the north of England, a sixteen-year-old girl disappeared after Christmas shopping with her friend. A massive manhunt led police to a serial killer who lived just blocks away from her home. Pretty in Pink - A teenage girl showed up at the door of a farmhouse bruised, bloody, and unable to remember how she got there. Investigators dug through the clues to uncover a bizarre love triangle and a gruesome murder. A Perfect Holiday - After her partner is sent to prison for molesting her eldest daughter, a mother will do anything to keep her two youngest children from being taken by social services. The Christmas Tree Farm Murders - An elderly couple in southwest Washington disappeared hours before they were due to host a Christmas party at their home. It took detectives twenty-seven years to bring the killer to justice. They Got in the Way - A single mother of two young children would do absolutely anything to spend more time meeting sex partners online. Even the unthinkable. The Girl Scout - When a seven-year-old girl disappears from her upstairs bedroom in the middle of the night, a small community realizes they have a devious predator in their midst. Plus many more disturbing stories. We may never really understand what goes on inside the mind of a killer, but at least by studying the case histories and knowing their backstory, we might gain insight into what makes them tick. With any luck, we can learn from the past. [Murder!](#) Independently Published

12 True Crime Stories of Murder & Mayhem Fourth Book of the True Crime Case Histories Series (2020) If you've read the previous volumes of the True Crime Case Histories series, you know that I like to start with a brief word of warning. The stories included in this book are truly depraved and shocking. They are not for the squeamish. Many true crime television shows and news articles often leave out the gruesome details, simply because they may be too much for the average viewer or reader. With my books, I try not to leave out the details no matter how vicious they may have been. My intention is not to shock, but to provide a clear and accurate description of some of the most evil minds of the world. Though the stories are brief, I do my best to include enough detail so that the reader can get a better look into the demented mind of the killer. This volume features twelve of the most incomprehensible stories of the last sixty years. Trying to understand the motivation behind murders like these can be an exercise in futility. But one thing is for sure, -- the stories in this volume will keep you turning pages. Volume 4 features: longer stories, more photos, three bonus chapters, and an online appendix with additional photos, videos, and documents. In this book you'll learn about a story that has haunted me since I was a little kid growing up in southwest Washington. I lived a normal American life where I could ride my bike around my small town from dusk till dawn without a care in the world. When I was twelve years old, a boy in my neighborhood just a year older than myself disappeared and was later found murdered. At the time I didn't know many of the details, but after researching the story all these years later and realizing that monsters like Tommy Ragan A sampling of the additional stories include: The Broomstick Killer: The Texas Penal System failed to protect the people of Texas by releasing a brutal killer of three teenagers. As a result he killed as many as eleven more women. Body in the Bag: A young man obsessed with the macabre listened to the voices in his head when his teenage girlfriend dumped him. Authorities found her eight weeks later stuffed inside a duffel bag. The Copper Gulch Killer: A sixteen-year-old prodigy child is found with five gunshots from three different guns, but police are convinced there was only one killer. Ten years later crime scene evidence is found in an abandoned storage locker. Zack and Addie: A young New Orleans couple are featured in the New York Times when they refused to leave their French Quarter home during Hurricane Katrina. One year later they're both dead with body parts found on the stove and in the fridge. The Incest Killer: Katie Fusco learned she she was adopted when she was eighteen. Within a year she was married to her biological father and pregnant with his child. When authorities force them apart, everybody dies. The Kicevo Monster: The story of the newspaper reporter that kidnapped, tortured, and butchered women that resembled his mother, then wrote stories of the killings in his newspaper articles. Plus five more disturbing stories. The stories in this volume are revolting and disconcerting, but they're true. These things really happen in the world. Though we will never fully understand the criminal mind, at least we can be better informed. 12 True Crime Stories of Murder & Mayhem Fifth Book of the True Crime Case Histories Series (2020) Those of you familiar with my previous books in the True Crime Case Histories series know that I always start off with a quick word of warning: real true crime isn't for everyone. Television shows and newspaper articles often gloss over the shocking details because it may be too grisly for the average viewer or reader. When researching these stories, I commonly use actual police reports, court documents, and first-hand descriptions. Some of the details can be disconcerting. I do my best to not leave out any of the details in my books, no matter how depraved they may be. My intent is not to shock, but to show precisely how twisted the mind of a killer can be. That being said, if you are overly squeamish, this may not be the book for you. If you're okay with it, then let's proceed. Volume 5 features: longer stories, more photos, a bonus chapter, and an online appendix with additional photos, videos, and documents. Volume Five features twelve of the most incomprehensible stories of the last fifty years. A sampling of the stories include: In this book, you'll read about a young, intelligent man that would rather kill his entire family with a crossbow than tell his girlfriend that he had been lying to her. You'll also read of the suburban housewife that endured thirty years of an abusive relationship before smashing her husband's skull with a hammer. There's the story of the Amish man, tormented by the threat of Hell, that killed his wife because he thought she was the devil. There's also the Roman Catholic priest that ritualistically butchered a nun, stabbed an upside-down cross into her chest, and anointed her with her own blood. Three stories in this volume take place in Washington State, one of which is of a young girl that ran away from her Seattle home in the 1970s. For thirty years, her parents believed she was a victim of Ted Bundy, until the real killer was finally caught. In another, a sexual sadist fancied himself a werewolf while he stalked and butchered his prey in unspeakable ways. Plus many more disturbing stories. The stories in this volume are revolting and disconcerting, but they're true. These things really happen in the world. Though we will never fully understand the criminal mind, at least we can be better informed. You will learn about tragic cases of family annihilation and relationships gone horribly wrong. Among the most shocking of these cases is the murder of the Westerhuis family in South Dakota, who on the outside appeared to be an all-American family, but inside they harbored a felonious secret. A trio of politically motivated murder stories will also keep you intrigued and glued to the pages of this book. Two of the cases involve hate crimes committed in the United States, while the other was the first major act of Islamic terrorism in the U.S. The three cases were also examples of organized crime, much like the murder of Australian biker Wayne Rodney Schneider. You may be shocked when you learn that the criminal investigation of Schneider's murder has uncovered suspects from two different continents and that the actual crime took place on a third continent. Unfortunately, many of the cases profiled in this book involve innocent victims, such as nine-year-old Amber Lucius who was murdered by her own mother. Now that you have been warned, open the pages of this book and learn about twelve more high-profile true crime murder cases. In my books, I don't skip over the details no matter how disturbing they may be. My intent is to give the reader a better glimpse into the mind of the killer. There are twelve stories in this volume of True Crime Case Histories. One particular story in this volume was sent to me by several readers in the Michigan area. 12 True Crime Stories of Murder & Mayhem Seventh Book of the True Crime Case Histories Series (2021) If you're familiar with the previous books in the True Crime Case Histories series, you already know that I start each book with a brief warning. Real true crime is not for everyone. The stories in this book represent humanity at its absolute worst. Pure evil. Television crime shows and news articles often skip the gruesome parts of true crime stories. The real details are just too grisly for the average viewer or reader. In my books, however, I do my best to include the details, regardless of how unsettling they may be. Each story requires hours of research. I search through old newspaper articles, court documents, police reports, autopsy results, and first-hand descriptions. Some of the specifics can be disconcerting. I choose to include the details not to shock, but to give the reader a deeper view into the mind of the killer. Although it's unlikely any of us will understand the motives of a diabolical monster, the level of depravity will keep you turning pages. That being said, if you are overly squeamish about the details of true crime, this book may not be for you. If you're okay with it... then let's begin. Volume 7 features: Longer stories, more photos, a bonus chapter, and an online appendix with additional photos, videos, and documents. Volume 7 of True Crime Case Histories features twelve new stories from the past fifty years. A sampling of the stories include: You'll read about a law enforcement officer that took advantage of the trust associated with his uniform. His brutal reign of terror lasted eight years. It took the bravery of two young women that escaped his grasp to bring him down. There's the story of the recent law school graduate with a crush on his neighbor. Rather than asking her out on a date, he stalked and spied on his classmate, eventually taking her life. There's also the heartbreaking story of a single mom, drowning in debt, that did the unthinkable for insurance money. Seven of the stories in this book feature women killers, two of which took the time to meticulously dismember their victims-a task that can take great strength. Another woman manipulated her two teenage boys into killing for her. Yet another woman staged an elaborate hoax to get rid of her loving husband rather than go through the agony of a messy divorce. You'll also read of a sadistic group of up to twelve killers that took joy in abducting and torturing young men in Australia. Sadly, only one of the

mysterious group has been brought to justice. Plus many more disturbing stories. The twelve stories in this volume are shocking and disturbing, but they're true. These things really happen in the world. We may never understand why killers do what they do, but at least we can be better informed. You may have heard of a few of the stories in this volume, but there are several I'm almost certain you haven't.
