Manual Haynes
Publishing

Written for do-it-
yourselfers. Covers light
trucks, vans, passenger
cars.

BMW 5-Series Diesel

Service and Repair Manual Haynes Publishing

A reproduction of the
Floyd Clymer Factory
Workshop Manual, as
published in Clymer's
Metropolitan Owners
Handbook, for the
1954-1962
Austin/Nash/American
Motors Metropolitan.
When Clymer published
the Metropolitan Owners

Handbook he had to
reduce the overall size of
the workshop manual to
fit his 5 x 8 inch book size.
This reduction in size
resulted in extremely
small images and text.
The VelocePress edition
has been restored to the
original print size which is
more than 200% larger
than the Clymer
publication and
consequently, much

easier to read! A profusely illustrated manual that includes all of the data you would expect from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components. There are separate sections that deal with the repair and overhaul procedures for the engine, cooling system, carburetion, exhaust system, clutch, A & B series transmission, shifting system, brakes and wheels, hubs and drums, rear axle, drive shaft, front suspension,

steering gear, weather eye system, a detailed electrical service section plus an exhaustive 62 page body section that deals with all facets of the bodywork including the correct procedure for fitting replacement panels! This is a - must have - reference for any Metropolitan enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic automobiles. Out-of-print and unavailable

for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Metropolitan enthusiasts worldwide.
