Your Subconscious Brain Can Change Your Life Penguin
 Most people consider life a battle, but it is not a battle, it is a game. It is a game, however, which cannot be played successfully without the knowledge of spiritual law, and the Old and the New Testaments give the rules of the game with wonderful clearness. Jesus the Christ taught that it was a great game of Giving and Receiving. If we give hate, we will receive hate; if we give love, we will receive love; if we give criticism, we will receive criticism; if we lie we will be lied to; if we cheat we will be cheated. We are taught also, that the imaging faculty plays a leading part in the game of life. Keep thy heart (or imagination) with all diligence, for out of it are the issues of life." (Prov. 4:23.)

As edgy as this book was for its time, it is the single best explanation of how to use the subconscious mind that I have ever seen. I do not say it lightly that this book is a must read for every student of the personal and spiritual journey. It is that good. It is short, to the point, incredibly practical, and yet handles the discussion of the divine aspects with reverence. Although the subconscious is more a Stage 6-9 subject (See the *Cycle of Human Development* in the book, *Purna Asatti*), it is a great read for anyone at any stage of their personal journey. I have added notes to the end of each chapter to explain certain ideas in more depth and to compare the ideas here to ideas you may have seen in other works from Joe Dispenza to Esther Hicks, and even the ancient philosopher Hermes. I am excited to share this book with you, and to have it be a part of your journey. May you find the answers you have been seeking.

• Shares 159 short exercises and practices to tap instantly into your subconscious mind and receive answers to your most important questions

- Explains how to dialogue with and understand the imagery and metaphors that arise during these practices
- Offers powerful practices to discover your areas of "stuckness" and quickly clear them, thus releasing past traumas and ancestral patterns and freeing the flow of the imagination for enhanced creativity and joy in life

 In this step-by-step guide to kabbalistic practices to connect with your natural inner genius and liberate the light within you, Catherine Shainberg reveals how to tap instantly into the subconscious and receive answers to urgent questions. This method, called the Kabbalah of Light, originated with Rabbi Isaac the Blind of Posquieres (1160-1235) and has been passed down by an ancient kabbalistic family, the Sheshet of Gerona, in an unbroken transmission spanning more than 800 years. The modern lineage holder of the Kabbalah of Light, Shainberg shares 159 short experiential exercises and practices to help you begin dialoguing with your subconscious through images. The images that pop up during these practices are unexpected and revelatory, and she discusses how to open them to greater understanding. At first, they may show you aspects of yourself you don't like. But seeing them serves as both a diagnosis and a direct path to transformation. Fast and simple, the practices can help you discover your areas of "stuckness," release past traumas and ancestral patterns, free the imagination, and open the way to the bliss promised us in the Garden of Eden. Beginning this fertile dialogue with your inner world leads you to uncover your soul's purpose and manifest your dreams in this world. Once your inner dream world and outer reality have merged, you will be able to see your superconscious--your soul's blueprint--and experience the ecstatic illumination of a heart-centered life.

"A wonderful way to begin getting to know the two functions of your mind is to think of it as a garden. You are the gardener. You are planting seeds of thought in your subconscious mind all day long. Much of the time you are not even aware of doing so, because the seeds are based on your habitual thinking. As you sow in your subconscious mind, so shall you reap in your body and environment." Dr Joseph Murphy has written over 30 books that include *The Miracle of Mind Dynamics*, *Your Infinite Power to Be Rich*, *The Amazing Laws of Cosmic Mind* and *Secrets of the I-Ching*. Ordained into Religious Science by Ernest Holmes in the

mid-1940s, Dr Murphy became the minister of the Los Angeles Divine Science Church in 1949 and served for 28 years. He devoted a considerable part of his life understanding the nuances of Eastern religions. Dr Murphy was also an Andhra Research Fellow at the University of India during his stay in India. Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear - Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Bestselling author David Shields analyzed over a decade's worth of front-page war photographs from The New York Times and came to a shocking conclusion: the photo-editing process of the "paper of record," by way of pretty, heroic, and lavishly aesthetic image selection, pulls the wool over the eyes of its readers; Shields forces us to face not only the media's complicity in dubious and catastrophic military campaigns but our own as well. This powerful media mouthpiece, the mighty Times, far from being a check on governmental power, is in reality a massive amplifier for its dark forces by virtue of the way it aestheticizes warfare. Anyone baffled by the willful American involvement in Iraq and Afghanistan can't help but see in this book how eagerly and invariably the Times led the way in making the case for these wars through the manipulation of its visuals. Shields forces the reader to weigh the consequences of our own passivity in the face of these images' opiate numbing. The photographs gathered in War Is Beautiful, often beautiful and always artful, are filters of reality rather than the documentary journalism they purport to be.

INTERNATIONAL BESTSELLER A Best Book of 2021—Bloomberg Businessweek; A Best Science Book of 2021—The Guardian; A Best Science Book of 2021—Financial Times; A Best Philosophy Book of 2021—Five Books; A Best Book of 2021—The Economist Anil Seth's quest to understand the biological basis of conscious experience is one of the most exciting contributions to twenty-first-century science. What does it mean to "be you"—that is, to have a specific, conscious experience of the world around you and yourself within it? There may be no more elusive or fascinating question. Historically, humanity has considered the nature of consciousness to be a primarily spiritual or philosophical inquiry, but scientific research is now mapping out compelling biological theories and explanations for consciousness and selfhood. Now, internationally renowned neuroscience professor, researcher, and author Anil Seth is offers a window into our consciousness in BEING YOU: A New Science of Consciousness. Anil Seth is both a leading expert on the neuroscience of consciousness and one of most prominent spokespeople for this relatively new field of science. His radical argument is that we do not perceive the world as it objectively is, but rather that we are prediction machines, constantly inventing our world and correcting our mistakes by the microsecond, and that we can now observe the biological mechanisms in the brain that accomplish this process of consciousness. Seth has been interviewed for documentaries aired on the BBC, Netflix, and Amazon and podcasts by Sam Harris, Russell Brand, and Chris Anderson, and his 2017 TED Talk on the topic has been viewed over 11 million times, a testament to his uncanny ability to make unimaginably complex science accessible and entertaining.
