## **DOWN HAYNES**

### Hecate and Her Dogs

Pushkin Press  
Drawing on a  
great wealth  
of newly  
available  
sources, this  
definitive  
biography  
recounts the  
eventful life of  
a great writer  
spoilt by  
success—a life  
lived in the  
shadow of two  
world wars,  
and which  
ended  
tragically in a  
suicide pact.  
Matuschek  
examines  
three major  
phases in the

life of the  
world-famous  
Austrian  
author—his  
years of  
apprenticeship  
, his years of  
success as a  
professional  
working writer  
in Salzburg,  
and finally his  
years of exile  
in Britain, the  
USA and  
Brazil.  
Including the  
sort of  
personal detail  
conspicuously  
absent from  
Zweig's  
memoir, and  
incorporating  
newly  
discovered  
documents,  
Matuschek's  
biography  
offers us a  
privileged  
view into the

private world  
of the master  
of  
psychological  
insight.  
**How to Live**  
Pushkin  
Collection  
A definitive  
biography of  
the great  
French  
essayist and  
thinker One of  
the most  
important  
writers and  
thinkers of the  
Renaissance,  
Michel de  
Montaigne  
(1533–92)  
helped invent  
a literary  
genre that  
seemed more  
modern than  
anything that  
had come  
before. But  
did he do it, as  
he suggests in

his Essays, by retreating to his chateau and stoically detaching himself from his violent times?

Philippe Desan overturns this long standing myth by showing that Montaigne was constantly connected to and concerned with realizing his political ambitions—and that the literary and philosophical character of the Essays largely depends on them. Desan shows how Montaigne

conceived of each edition of the Essays as an indispensable prerequisite to the next stage of his public career. It was only after his political failure that Montaigne took refuge in literature, and even then it was his political experience that enabled him to find the right tone for his genre. The most comprehensive and authoritative biography of Montaigne yet written, this sweeping narrative

offers a fascinating new picture of his life and work.

**The essays of Michael de Montaigne, translated into English ... Ninth edition. The translator identified in the preface as Charles Cotton.**

Everyman's Library  
A scintillating biographical study of the one of the greatest philosophers of the nineteenth century, by one of the bestselling writers of the

twentieth. In this vivid biography, Zweig eschews traditional academic discussion and focuses on Nietzsche's habits, passions and obsessions. This work, concentrating on the man rather than the work, on the tragedy of his existence and his apartness from the world in which he moved in enforced isolation, is a tour de force, drawing the reader inexorably into

Nietzsche's tragic trajectory. Illustrated with numerous photographs relating to Nietzsche and his European locations, this superb translation by Will Stone is essential reading for anyone interested in Nietzsche, Zweig, first-class biographies and philosophy. **Magellan** Pushkin Press Humanist, skeptic, acute observer of himself and others, Michel de Montaigne

(1533—92) was the first to use the term “essay” to refer to the form he pioneered, and he has remained one of its most famous practitioners. He reflected on the great themes of existence in his wise and engaging writings, his subjects ranging from proper conversation and good reading, to the raising of children and the endurance of pain, from solitude, destiny, time, and custom,

to truth, consciousness, and death. Having stood the test of time, his essays continue to influence writers nearly five hundred years later. Also included in this complete edition of his works are Montaigne's letters and his travel journal, fascinating records of the experiences and contemplations that would shape and infuse his essays. Montaigne speaks to us always in a personal voice in which his virtues of tolerance, moderation, and understanding are dazzlingly manifest. Donald M. Frame's masterful translation is widely acknowledged to be the classic English version. *The Impossible Exile* Gale Ecco, Print Editions From the award-winning translators: the complete prose narratives of the most acclaimed Russian writer of the Romantic era and one of the world's greatest storytellers. The father of Russian literature, Pushkin is beloved not only for his poetry but also for his brilliant stories, which range from dramatic tales of love, obsession, and betrayal to dark fables and sparkling comic masterpieces, from satirical epistolary tales and romantic adventures in the manner of Sir Walter

Scott to imaginative historical fiction and the haunting dreamworld of "The Queen of Spades." The five short stories of The Late Tales of Ivan Petrovich Belkin are lightly humorous and yet reveal astonishing human depths, and his short novel, The Captain's Daughter, has been called the most perfect book in Russian literature. Three Lives Good Press The Portuguese

explorer Ferdinand Magellan (1480–1521) is one of the most famous navigators in history – he was the first man to sail from the Atlantic to the Pacific Ocean, and led the first voyage to circumnavigate the globe, although he was killed en route in a battle in the Philippines. In this biography, Zweig brings to life the Age of Discovery by telling the tale of one of the era's most daring adventurers.

In typically flowing and elegant prose he takes us on a fascinating journey of discovery ourselves. *The Complete Works of Michel de Montaigne* Pushkin Collection The great Austrian writer Stefan Zweig was a master anatomist of the deceitful heart, and *Impatience of the Heart*, the only novel he published during his lifetime, uncovers the seed of selfishness within even the finest of

feelings. Hofmiller, an Austro-Hungarian cavalry officer stationed at the edge of the empire, is invited to a party at the home of a rich local landowner, a world away from the dreary routine of the barracks. The surroundings are glamorous, wine flows freely, and the exhilarated young Hofmiller asks his host's lovely daughter for a dance, only to discover that sickness has

left her painfully crippled. It is a minor blunder that will destroy his life, as pity and guilt gradually implicate him in a well-meaning but tragically wrongheaded plot to restore the unhappy invalid to health.

### **Nietzsche**

Pushkin Press  
 "The fox knows many things, but the hedgehog knows one big thing." This ancient Greek aphorism, preserved in a fragment from the poet Archilochus,

describes the central thesis of Isaiah Berlin's masterly essay on Leo Tolstoy and the philosophy of history, the subject of the epilogue to *War and Peace*.

Although there have been many interpretations of the adage, Berlin uses it to mark a fundamental distinction between human beings who are fascinated by the infinite variety of things and those who relate everything to

a central, all-embracing system. Applied to Tolstoy, the saying illuminates a paradox that helps explain his philosophy of history: Tolstoy was a fox, but believed in being a hedgehog. One of Berlin's most celebrated works, this extraordinary essay offers profound insights about Tolstoy, historical understanding, and human psychology. This new edition features a

revised text that supplants all previous versions, English translations of the many passages in foreign languages, a new foreword in which Berlin biographer Michael Ignatieff explains the enduring appeal of Berlin's essay, and a new appendix that provides rich context, including excerpts from reviews and Berlin's letters, as well as a startling new interpretation of

Archilochus's epigram. The Specter of Alexander Wolf Pushkin Press Selections from one of the greatest essayists of the Graeco-Roman world Plutarch used an encyclopedic knowledge of the Roman Empire to produce a compelling and individual voice. In this superb selection from his writings, he offers personal insights into moral subjects that include the virtue of listening, the

danger of flattery and the avoidance of anger, alongside more speculative essays on themes as diverse as God's slowness to punish man, the use of reason by supposedly "irrational" animals and the death of his own daughter. Brilliantly informed, these essays offer a treasure-trove of ancient wisdom, myth and philosophy, and a powerful

insight into a deeply intelligent man. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts

enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. **Essays** Other Press, LLC A brilliant and impassioned biography of one of the founding fathers of humanism, from one of its greatest defenders in the 20th century. Written during the Second World War, Zweig's typically passionate

and readable biography of Michel de Montaigne, is also a heartfelt argument for the importance of intellectual freedom, tolerance and humanism. Zweig draws strong parallels between Montaigne's age, when Europe was torn in two by conflict between Catholicism and Protestantism, and his own, in which the twin fanaticisms of Fascism and Communism

were on the verge of destroying the pan-continental liberal culture he was born into, and loved dearly. Just as Montaigne sought to remain aloof from the factionalism of his day, so Zweig tried to defend his freedom of thought, and argue for peace and compromise. One of the final works Zweig wrote before his suicide, this is both a brilliantly impassioned

portrait of a great mind, and a moving plea for tolerance in a world ruled by cruelty. *The Hedgehog and the Fox* Pushkin Press In this new monograph, part of Phaidon's Art & Ideas series, Simon Lee, Senior Lecturer in the History of Art the University of Reading, examines the work of Delacroix within the framework of his turbulent times, as France experienced the upheavals of the

Napoleonic era. Written in a lively and accessible style, and incorporating the latest scholarship on the artist, Lee provides fresh analyses into the life and times of Delacroix and uncovers the creative process behind his most famous works.

but mystery is a spur to creative imagination. Always, therefore, figures and events that are shrouded in mystery demand elucidation and stimulate the ingenuity of the artistic mind Among historical problems that call unceasingly for solution, the tragedy of Mary Stuart ranks as a crucial instance. Surely of all the women who have made their mark in the world, no

other has been the theme of so many dramas, novels, biographies, and discussions. Throughout four centuries she has allured poets and tormented the fancy of men of learning. Still, today, her story has again and again to be retold. Because that which is confused craves for clarity, that which is in darkness strains towards the light. The answers to the

riddle of Mary's life and character are almost as contradictory as they are manifold. Some regard her as a murderess, others as a martyr some as an intriguer, others as a saint. The diversity of opinions about this woman is due, not to a shortage of material but to the perplexing superabundance of contemporary records. In the thousands upon thousands of documents,

reports, records of trials, letters, etc., relating to her, the question of her guilt or innocence is continually being re-examined, and the re-trial has continued for three centuries. The more meticulously we scrutinize the documents, the more painfully do we become aware how dubious is the authenticity of historical evidence, and how untrustworthy therefore the

con elusions of historians. For no matter how uncontestably genuine an ancient document may be, this genuineness does not provide any guarantee as to the human validity of its contents. In the of Mary Queen of Scots more plainly perhaps than in any other do we become aware how diversely two or more observers may describe an incident which they have witnessed simultaneousl

G. Strahan, S. Ballard, D. Browne, C. Hitch [and 12 others in London], 1743. 3v.; 8° *The Collected Novellas of Stefan Zweig* Read Books

An original study of exile, told through the biography of Austrian writer Stefan Zweig By the 1930s, Stefan Zweig had become the most widely translated living author in the world. His novels, short stories, and biographies were so compelling that they became instant best sellers. Zweig was also an intellectual and a lover of all the arts, high and low. Yet after Hitler's rise to power, this celebrated writer who had dedicated so much energy to promoting international humanism plummeted, in a matter of a few years, into an increasingly isolated exile—from London to Bath to New York City, then Ossining, Rio, and finally Petrópolis—where, in 1942, in a cramped bungalow, he killed himself. The Impossible Exile tells the tragic story of Zweig's extraordinary rise and fall while it also depicts, with great acumen, the gulf between the world of ideas in Europe and in America, and the consuming struggle of those forced to forsake one for the other. It also reveals how Zweig embodied, through his work, thoughts, and behavior, the

end of an era—the implosion of Europe as an ideal of Western civilization.

### **City of Lions**

Legare Street Press

Stefan Zweig was a leading talisman of a united Europe of unfettered movement, of pro-active cultural exchange, humane decency and tolerance, all polar opposites of the Nationalist regimes he loathed, and which came to power in the 1930s. In these poignant

essays and addresses, forged in the last years or even months of his life, he shows his profound concern for and dedication to the survival of Europe's spiritual integrity. These essays form the natural accompaniment to Zweig's renowned memoir *The World of Yesterday*, registering the same themes and evoking the same nostalgia for a world brutally consigned to history. They can be seen

as a vital addendum to that major work or as a prefiguration. But perhaps even more so than the prose of the memoir, these essays, few in number but rich in content, reveal the essence of Zweig's thought.

### **Montaigne**

Pushkin Press

This international bestseller from a prominent 20th-century writer inspired Antonia Fraser's *Mary Queen of Scots*. A classic royal biography that

offers an in-depth look at one of the most fascinating—and misunderstood—figures in British history. From the moment of her birth to her death on the scaffold, Mary Stuart spent her life embroiled in power struggles that shook the foundations of Renaissance Europe. Revered by some as the rightful Queen of England, reviled by others as a murderous adulteress, her long and

fascinating rivalry with her cousin Elizabeth I led ultimately to her downfall. Zweig, one of the most popular writers of the twentieth century, brings Mary to life and turns her tale into a story of passion and plotting as gripping as any novel. The Invisible Collection Princeton University Press This classic collection of essays by Michel de Montaigne is one of the most

important works of philosophy and literature of the Renaissance period. Covering a wide range of topics from friendship and love to education and ethics, this book is a must-read for anyone with an interest in the history of ideas. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in

the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or

corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally

available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
