The Art of Waiting Anchor

Based on a real scientific event and inspired by a beloved real human in the author's life, this is a story about science and the poetry of existence; about time and chance, genetics and gender, love and death, evolution and infinity -- concepts often too abstract for the human mind to fathom, often more accessible to the young imagination; concepts made fathomable in the concrete, finite life of one tiny, unusual creature dwelling in a pile of compost amid an English garden. Emerging from this singular life is a lyrical universal invitation not to mistake difference for defect and to welcome, across the accordion scales of time and space, diversity as the wellspring of the universe's beauty and resilience.

From the trusted team of Robie H. Harris and Michael Emberley, a

classic resource for younger children receives its most ambitiously updated edition yet. How does a baby begin and how is it born? How did I begin? Why are some parts of kids' bodies different from some parts of other kids' bodies? Most younger kids have questions about reproduction, babies, love, sex, and gender, too. Some also have concerns. For over twenty years, *It's So Amazing!* has provided children age seven and up with the honest answers they're looking for through age-appropriate, reassuring words and accurate, up-to-date, inclusive art. Throughout the book, two cartoon characters, Bird and Bee, are the voices of kids. They talk together to help children feel that they are not the only ones wondering how we all began. Rigorously vetted by experts and featuring updated and new facts on pregnancy, birth, adoption, bodies, sexuality, gender identity, OK touches, not OK touches, straight and LGBTQ+ families and people, and many other topics, this comprehensive resource for kids, parents, librarians, teachers, booksellers, and

healthcare providers is the book that can help younger kids and their families talk together and find answers to their many questions.

Turning Pages Scholastic Inc.

This acclaimed post-apocalyptic novel of hope and terror from an award-winning author "pairs well with 1984 or *The Handmaid's Tale*" and includes a foreword by N. K. Jemisin (John Green, *New York Times*). When global climate change and economic crises lead to social chaos in the early 2020s, California becomes full of dangers, from pervasive water shortage to masses of vagabonds who will do anything to live to see another day. Fifteen-year-old Lauren Olamina lives inside a gated community with her preacher father, family, and neighbors, sheltered from the surrounding anarchy. In a society where any vulnerability is a risk, she suffers from hyperempathy, a debilitating sensitivity to others' emotions. Precocious and clear-eyed, Lauren must make her voice heard in order to protect her loved ones from the imminent disasters her small community stubbornly ignores. But what begins

as a fight for survival soon leads to something much more: the birth of a new faith . . . and a startling vision of human destiny.

Regulating Autonomy Oxford University Press, USA

From the winner of the Orange Award for New Writers, an epic novel of childbirth—past, present, and future The year is 1865. In Vienna, Dr. Ignasz Semmelweiss has been hounded into an asylum by his medical peers, ridiculed for his claim that doctors' unwashed hands are the root cause of childbed fever. In present-day London, Bridget Hughes juggles her young son, husband, and mother as she plans her home birth, unprepared for the trial she is about to endure. Somewhere in 2135, in a world where humans are birthed and raised in breeding farms, Prisoner 730004 is on trial for concealing a pregnancy. Through three stories spanning centuries, acclaimed novelist Joanna Kavenna explores the most basic plight of women, from the slaughterhouse of primitive medicine to a futuristic vision of technological oppression. Poised at the midpoint is Bridget, whose fervent

belief in the wisdom of nature is tested in one of the most gripping accounts of labor to appear in fiction. Original, powerful, and played out against a vast canvas, *The Birth of Love* is at once a novel about the creation of human life, science and faith, madness and compromise, and the epic journey of motherhood.

Inc. What really happened over the summer break? A curious teacher wants to know. The epic explanation? What started out as a day at the beach turned into a globe-spanning treasure hunt with high-flying hijinks, exotic detours, an outrageous cast of characters, and one very mischievous bird! Is this yet another tall tale, or is the truth just waiting to be revealed? From the team behind *I Didn't Do My Homework Because . . .* and *A Funny Thing Happened on the Way to School . . .* comes a fantastical fast-paced, detail-rich illustrated summer adventure that's so unbelievable, it just might be true! Plus, this is the fixed-format version, which looks almost identical to the print edition.

Untold Stories Farrar, Straus and Giroux Geared to readers from preschool to age eight, *What Makes a Baby* is a book for every kind of family and every kind of kid. It is a twenty-first century children's picture book about conception, gestation, and birth, which reflects the reality of our modern time by being inclusive of all kinds of kids, adults, and

families, regardless of how many people were involved, their orientation, gender and other identity, or family composition. Just as important, the story doesn't gender people or body parts, so most parents and families will find that it leaves room for them to educate their child without having to erase their own experience. Written by a certified sexuality educator, Cory Silverberg, and illustrated by award-winning Canadian artist Fiona Smyth, *What Makes a Baby* is as fun to look at as it is useful to read.

[Elementary Stories for Reproduction](#) Penguin This pathbreaking book documents the transformation of reproductive practices and politics on Indian reservations from the late nineteenth century to the present, integrating a localized history of childbearing, motherhood, and activism on the Crow Reservation in Montana with an analysis of trends affecting Indigenous women more broadly. As Brianna Theobald illustrates, the federal government and local authorities have long sought to control Indigenous families and women's reproduction, using tactics such as

coercive sterilization and removal of Indigenous children into the white foster care system. But Theobald examines women's resistance, showing how they have worked within families, tribal networks, and activist groups to confront these issues. Blending local and intimate family histories with the histories of broader movements such as WARN (Women of All Red Nations), Theobald links the federal government's intrusion into Indigenous women's reproductive and familial decisions to the wider history of eugenics and the reproductive rights movement. She argues convincingly that colonial politics have always been--and remain--reproductive politics. By looking deeply at one tribal nation over more than a century, Theobald offers an especially rich analysis of how Indigenous women experienced pregnancy and motherhood under evolving federal Indian policy. At the heart of this history are the Crow women who displayed creativity and fortitude in struggling for reproductive self-determination.

The Lost Books of the Odyssey Chronicle Books *Killing the Black Body*

remains a rallying cry for education, awareness, and action on extending reproductive justice to all women. It is as crucial as ever, even two decades after its original publication. "A must-read for all those who claim to care about racial and gender justice in America." —Michelle Alexander, author of *The New Jim Crow* In 1997, this groundbreaking book made a powerful entrance into the national conversation on race. In a media landscape dominated by racially biased images of welfare queens and crack babies, *Killing the Black Body* exposed America's systemic abuse of Black women's bodies. From slave masters' economic stake in bonded women's fertility to government programs that coerced thousands of poor Black women into being sterilized as late as the 1970s, these abuses pointed to the degradation of Black motherhood—and the exclusion of Black women's reproductive needs in mainstream feminist and civil rights agendas. "Compelling. . . . Deftly shows how distorted and racist constructions of black motherhood have affected

politics, law, and policy in the United States." —Ms. [A Funny Thing Happened on the Way to School...](#) Oxford University Press, USA
 A brilliant exploration of the natural, medical, psychological, and political facets of fertility When Belle Boggs's "The Art of Waiting" was published in *Orion* in 2012, it went viral, leading to republication in *Harper's Magazine*, an interview on NPR's *The Diane Rehm Show*, and a spot at the intersection of "highbrow" and "brilliant" in *New York* magazine's "Approval Matrix." In that heartbreaking essay, Boggs eloquently recounts her realization that she might never be able to conceive. She searches the apparently fertile world around her--the emergence of thirteen-year cicadas, the birth of eaglets near her rural home, and an unusual gorilla pregnancy at a local zoo--for signs that she is not alone. Boggs also explores other aspects of fertility and infertility: the way longing for a child plays out in the classic Coen brothers film *Raising Arizona*; the depiction of childlessness in literature, from *Macbeth* to *Who's Afraid of Virginia Woolf?*; the

financial and legal complications that accompany alternative means of family making; the private and public expressions of iconic writers grappling with motherhood and fertility. She reports, with great empathy, complex stories of couples who adopted domestically and from overseas, LGBT couples considering assisted reproduction and surrogacy, and women and men reflecting on childless or child-free lives. In *The Art of Waiting*, Boggs deftly distills her time of waiting into an expansive contemplation of fertility, choice, and the many possible roads to making a life and making a family. Supreme Court Justice Sonia Sotomayor tells her own story for young readers for the very first time! As the first Latina Supreme Court Justice, Sonia Sotomayor has inspired young people around the world to reach for their dreams. But what inspired her? For young Sonia, the answer was books! They were her mirrors, her maps, her friends, and her teachers. They helped her to connect with her family in New York and in Puerto Rico, to deal with her diabetes diagnosis, to cope with her father's death, to uncover the secrets of the world, and to dream of a future for herself in which anything was possible. In *Turning Pages*, Justice Sotomayor shares that love of books with a new generation of readers, and inspires them to read and puzzle and dream for themselves. Accompanied by Lulu Delacre's vibrant art, this story of the

Justice's life shows readers that the world is full of promise and possibility--all they need to do is turn the page.

An upbeat, empowering, important picture book from the team that created the award-winning Crown: An Ode to

the Fresh Cut. A perfect gift for any special occasion! I am a nonstop ball of energy. Powerful and full of light. I am a go-getter. A difference maker. A leader. The confident Black narrator of this book is proud of everything that makes him who he is. He's got big plans, and no doubt he'll see them through--as he's creative, adventurous, smart, funny, and a good friend. Sometimes he falls, but he always gets back up. And other times he's afraid, because he's so often misunderstood and called what he is not. So slow down and really look and listen, when somebody tells you--and shows you--who they are. There are superheroes in our midst!
