Reiki Level 2: Healing with Energy for Practitioner World Health Organization
 Guardian columnist and award-winning food writer Rachel Roddy condenses everything she has learned about Italy's favourite food in a practical, easy-to-use and mouth-watering collection of 100 essential pasta and pasta sauce recipes. Along with the recipes are short essays that weave together the history, culture and the everyday life of pasta shapes from the tip to the toe of Italy. There is pasta made with water, and pasta with egg; shapes made by hand and those rolled a by machine; the long and the short; the rolled and the stretched; the twisted and the stuffed; the fresh and the dried. The A-Z of Pasta tells you how to match pasta shapes with sauces, and how to serve them. The recipes range from the familiar - pesto, ragù and carbonara - to the unfamiliar (but thrilling). This is glorious celebration of pasta from one of the best food writers of our time. SHORTLISTED FOR THE ANDRE SIMONS FOOD & DRINK BOOK AWARDS

_____ 'I love this book. Every story is a little gem - a beautiful hymn to each curl, twist and ribbon of pasta.' Nigel Slater 'Rachel Roddy describing how to boil potatoes would inspire me. There are very, very few who possess such a supremely uncluttered culinary voice as hers, just now' Simon Hopkinson 'Rachel Roddy's writing is as absorbing as any novel' Russell Norman, author of Polpo 'Roddy is a gifted storyteller, and a masterful hand with simple ingredients' Guardian Cook

A System of Health Accounts 2011 provides a systematic description of the financial flows related to the consumption of health care goods and services. As demands for information increase and more countries implement and institutionalise health accounts according to the system, the data produced are expected to be more comparable, more detailed and more policy relevant. This publication summarises the *System of Health Accounts 2011 (SHA 2011) Manual*, which was jointly produced by OECD, the European Commission and WHO. The SHA 2011 Manual itself draws inspiration from and builds on the original manual, published in 2000, and the *Guide to Producing National Health Accounts (2003)* to create a single global framework for producing health expenditure accounts that can help track resource flows from sources to uses. The manual is the result of a four-year collaborative effort between OECD, Eurostat and WHO, and sets out in more detail the boundaries, the definitions and the concepts responding to health care systems around the globe - from the simplest to the more complicated.

PEMF - The Fifth Element of Health Amsterdam University Press Scholars in folklore and anthropology are more directly involved in various aspects of medicine—such as medical education, clinical pastoral care, and negotiation of transcultural issues—than ever before. Old models of investigation that artificially isolated "folk medicine," "complementary and alternative medicine," and "biomedicine" as mutually exclusive have proven too limited in exploring the real-life complexities of health belief systems as they observably exist and are applied by contemporary Americans. Recent research strongly suggests that individuals construct their health belief systems from diverse sources of authority, including community and ethnic tradition, education, spiritual beliefs, personal experience, the influence of popular media, and perception of the goals and means of formal medicine. *Healing Logics* explores the diversity of these belief systems and how they interact—in competing, conflicting, and sometimes remarkably congruent ways. This book contains

essays by leading scholars in the field and a comprehensive bibliography of folklore and medicine.

A Death on Diamond Mountain Springer Science & Business Media

An investigative reporter explores an infamous case where an obsessive and unorthodox search for enlightenment went terribly wrong. When thirty-eight-year-old Ian Thorson died from dehydration and dysentery on a remote Arizona mountaintop in 2012, The New York Times reported the story under the headline: "Mysterious Buddhist Retreat in the Desert Ends in a Grisly Death." Scott Carney, a journalist and anthropologist who lived in India for six years, was struck by how Thorson's death echoed other incidents that reflected the little-talked-about connection between intensive meditation and mental instability. Using these tragedies as a springboard, Carney explores how those who go to extremes to achieve divine revelations—and undertake it in illusory ways—can tangle with madness. He also delves into the unorthodox interpretation of Tibetan Buddhism that attracted Thorson and the bizarre teachings of its chief evangelists: Thorson's wife, Lama Christie McNally, and her previous husband, Geshe Michael Roach, the supreme spiritual leader of Diamond Mountain University, where Thorson died. Carney unravels how the cultlike practices of McNally and Roach and the questionable circumstances surrounding Thorson's death illuminate a uniquely American tendency to mix and match eastern religious traditions like LEGO pieces in a quest to reach an enlightened, perfected state, no matter the cost. Aided by Thorson's private papers, along with cutting-edge neurological research that reveals the profound impact of intensive meditation on the brain and stories of miracles and black magic, sexualized rituals, and tantric rites from former Diamond Mountain acolytes, *A Death on Diamond Mountain* is a gripping work of investigative journalism that reveals how the path to enlightenment can be riddled with danger.

Where does true wellness start? For thousands of years, traditional healers have been able to detect and correct imbalances at the energetic level in order to heal our physical ailments. Today, these traditions are expanding the medical understanding of our subtle anatomy and its role in our overall well-being. With *Energy Healing*, integrative physician Ann Marie Chiasson offers a complete guidebook of easy-to-use energy practices to enhance your health and vitality. Drawing from the material she teaches at Dr. Andrew Weil's Arizona Center for Integrative Medicine, Dr. Chiasson explores: Our subtle anatomy—understanding the chakras, meridians, and the key principles of energy healing
Self-diagnosis techniques for detecting the movement of energy in our bodies—even if you've never sensed energy before
Practices for daily self-care and specific techniques to address energy blocks often seen in common illnesses and health issues
Why our energy wanes as we age, and how we can replenish our vitality from sources in the world around us
Your body as your teacher—insights for adapting and developing your own energy healing techniques
In creating this book Dr. Chiasson has selected the methods she has found to be most accessible, effective, and beneficial in the long-term—informed by the latest research, healing traditions from around the world, and her own practice. With *Energy Healing*, she presents an indispensable guide for understanding the energetic

dimension of your well-being and essential tools to help you take charge of your own health. "This book is an excellent guide for anyone interested in exploring energy as a means of maintaining healthy, dynamic living." —from the foreword by Andrew Weil, MD "Dr. Ann Marie Chiasson does the impossible: she demystifies energy medicine without eradicating the mystery. Using her own personal stories as well as those of the patients she has cared for, she makes visible the unifying principles shared by systems as diverse as the chakras, qi, and the matrix. In so doing, she puts centuries of wisdom at our fingertips. If you want to learn energy medicine, this is the book to read." —Victoria Maizes, MD, executive director, Arizona Center for Integrative Medicine and professor of clinical medicine, family medicine, and public health at the University of Arizona "Dr. Ann Marie Chiasson shares a powerful and practical manual on how to harness the innate life force that surrounds and interpenetrates our very lives. It allows everyone access to energetic techniques once kept secret in many healing traditions." —Master Stephen Co, founder of Pranic Healing and author of *The Power of Prana*

Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

The modern pilgrimage—to sites ranging from Graceland to the veterans' annual ride to the Vietnam Veterans Memorial to Jim Morrison's Paris grave—is intertwined with man's existential uncertainties in the face of a rapidly changing world. In a climate that reproduces the religious quest in seemingly secular places, it's no longer clear exactly what the term pilgrimage infers—and Shrines and Pilgrimage in the Modern World critiques our notions of the secular and the sacred, while commenting on the modern media's multiplication of images that renders the modern pilgrimage a quest without an object. Using new ethnographical and theoretical approaches, this volume offers a surprising new vision on the non-secularity of the "secular" pilgrimage. "This book will be sure to stoke our intellectual fire and heat up the discussion over the highly charged topic of secular pilgrimage."—Simon Bronner, Penn State University
