Zora Neale Hurston brings us Black America's folklore as only she can, putting the oral history on the written page with grace and understanding. This new edition of *Mules and Men* features a new cover and a P.S. section which includes insights, interviews, and more. For the student of cultural

history, *Mules and Men* is a treasury of Black America's folklore as collected by Zora Neale Hurston, the storyteller and anthropologist who grew up hearing the songs and sermons, sayings and tall tales that have formed and oral history of the South since the time of slavery. Set intimately within the social context of Black life, the stories, "big old lies," songs, voodoo customs, and superstitions recorded in these pages capture the imagination and bring back to life the humor and wisdom that is the unique heritage of Black Americans.

Explosive, revealing, and intelligent, *The Red Circle* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from *The Killing School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF*. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the

eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell's Angels, that is—in this short work of nonfiction. "California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from

damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again." Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as The New Yorker pointed out, "For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work." As illuminating now as when originally published in 1967, Hell's Angels is a gripping portrait, and the best account we have of the truth behind an American legend.

"In this magnificent book, Oliver Schuchard provides more than sixty-five exquisite black-and-white photographs spanning his thirty-eight years of photography. In addition, he explains the aesthetic rationale and techniques he used in order to produce these photographs, emphasizing the profound differences between, yet necessary interdependence of, craft and content. Although Schuchard believes that craft is important, he maintains that the idea behind the photograph and the emotional content of the image are equally vital and are, in fact, functions of one another. The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher. He chose the splendid photographs included in this book from among nearly 5,000 negatives that had been exposed all over the world, from Missouri to Maine, California, Alaska, Colorado, France, Newfoundland, and Hawaii, among many other locations. Approximately 250 negatives survived the initial review, and each of those was printed before a final decision was made on which photographs were to be featured in the book. The final choices are representative of Schuchard's work and serve to substantiate his belief that craft, concept, and self must be fully understood and carefully melded for a good photograph to occur. This amazing work by award-winning photographer Oliver Schuchard will be treasured by professional and amateur photographers alike, as well as by anyone who simply enjoys superb photography."--Publishers website.

A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events

that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only

adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of The Passenger A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, The Passenger and Stella Maris.

" West Virginia boasts an unusually rich heritage of ghost tales. Originally West Virginians told these hundred stories not for idle amusement but to report supernatural experiences that defied ordinary human explanation. From jealous rivals and ghostly children to murdered kinsmen and omens of death, these tales reflect the inner lives—the hopes, beliefs, and fears—of a people. Like all folklore, these tales reveal much of the history of the region: its isolation and violence, the passions and bloodshed of the Civil War era, the hardships of miners and railroad laborers, and the lingering vitality of Old World traditions.

Part of the regionalist movement that included Grant Wood, Paul Engle, Hamlin Garland, and Jay G. Sigmund, James Hearst helped create what Iowa novelist Ruth Suckow called a poetry of place. A lifelong Iowa farmer, Hearst began writing poetry at age nineteen and eventually wrote thirteen books of poems, a novel, short stories, cantatas, and essays, which gained him a devoted following. Many of his poems were published in the regionalist periodicals of the time, including the Midland, and by the great regional presses, including Carroll Coleman's Prairie Press. Drawing on his experiences as a farmer, Hearst wrote with a distinct voice of rural life and its joys and conflicts, of his own battles with physical and emotional pain (he was partially paralyzed in a farm accident), and of his own place in the world. His clear eye offered a vision of the midwestern agrarian life that was sympathetic but not sentimental - a people and an art rooted in place.
