The purpose and mission of Scientific GOD Journal (<http://www.scigod.com>) are to conduct scientific inquiries on the nature and origins of life, mind, physical laws and mathematics and their possible connections to a scientifically approachable transcendental ground of existence - we call "Scientific GOD." We believe that in this Golden Age of Science the GOD in whom we trust should be

spiritual as well as scientific. Indeed, since we are all made out of the same subatomic, atomic and genetic alphabets, the scientific GOD each of us seeks should be one and the same whatever our race, religion and other differences. This is Scientific GOD Journal Volume 4 Issue 4 first published in May, 2013. It is entitled "Concealment-Revelation of God by Experience & Towards a Meaningful Unfolding Universe" and contains the following Articles: (1) The Experiential Basis of Maya: How God Uses Experience to Both Conceal and Reveal Itself (Part I); (2) The Experiential Basis of Maya: How

God Uses Experience to Both Conceal and Reveal Itself (Part II); (3) Towards a Meaningful Unfolding Universe (Part I); (4) Towards a Meaningful Unfolding Universe (Part II); and (5) On Bernard Haisch's God Theory.

comics, and the second volume is maybe a little bit better." -- The Fourth Rail for Flight, Volume Two "The quality is simply outstanding. Since the time of Columbus, explorers dreamed of a water passage across the North American continent. President Thomas Jefferson shared this dream. He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean.

Meriwether Lewis and William Clark led this expedition of 1804-6. Along the way they filled hundreds of notebook pages with observations of the geography, Indian tribes, and natural history of the trans-Mississippi West. This volume includes Lewis's and Clark's journals beginning in August 1803, when Lewis left Pittsburgh to join Clark farther down the Ohio River. The two men and several recruits camped near the mouth of the Missouri River for five months of training, acquiring supplies and equipment, and gathering information

from travelers about the trip upriver. They started up the Missouri in May 1804. This volume ends in August, when the Corps of Discovery camped near the Vermillion River in present-day South Dakota.
