This book, written by a team of experts from many countries, provides a comprehensive account of the ways in which translation has brought the major literatures of the world into English-speaking culture. Part I discusses theoretical

issues and gives an overview of the history of translation into English. Part II, the bulk of the work, arranged by language of origin, offers critical discussions, with bibliographies, of the translation history of specific texts (e.g. the Koran, the Kalevala), authors (e.g. Lucretius, Dostoevsky), genres (e.g. Chinese poetry, twentieth-century Italian prose) and national literatures (e.g.

Hungarian, Afrikaans).

The Poems Canti of Leopardi - Scholar's Choice Edition Taylor & Francis

The most comprehensive collection in English of the founder of modern Italian

poetry Giovanni Pascoli (1855–1912)—the founder of modern Italian poetry and one of Italy's most beloved poets—has been compared to Robert Frost for his evocation of natural speech, his bucolic settings, and the way he bridges poetic tradition and the beginnings of modernism. Featuring verse from throughout his career, and with the original Italian on facing pages, Selected Poems of Giovanni Pascoli is a comprehensive and authoritative collection of

a fascinating and major literary figure. Reading this poet of nature, grief, and small-town life is like traveling through Italy's landscapes in his footsteps—from Romagna and Bologna to Rome, Sicily, and Tuscany—as the country transformed from an agrarian society into an industrial one. Mixing the elevated diction of Virgil with local slang and the sounds of the natural world, these poems capture sense-laden moments: a train's departure, a wren's winter foraging, and the lit

windows of a town at dusk. Incorporating revolutionary language into classical scenes, Pascoli's poems describe ancient rural dramas—both large and small—that remain contemporary. Framed by an introduction, annotations, and a substantial chronology, Taije Silverman and Marina Della Putta Johnston's translations render the variety, precision, and beauty of Pascoli's poetry with a profoundly current vision. *Giacomo Leopardi. The Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual,

literary, philosophical, and political elements of European Romanticism. The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848. It begins with a series of chapters examining key texts written by major writers in languages including: French; German; Italian; Spanish; Russian; Hungarian; Greek; and Polish amongst others. A second section then explores the naturally inter-disciplinary quality of Romanticism,

exemplified by the different discourses with which writers of the time set up an internal, comparative dynamic. These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self-understanding of the time. Discourses typically advance their own claims to resume European culture, collaborating with and at the same time trying to assimilate each other in the process. The

main examples featured here are: history; geography; drama; theology; language; philosophy; political theory; the sciences; and the media. Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject. Together the forty-one chapters provide a comprehensive and provocative overview of European Romanticism. Giacomo Leopardi's

Search for a Common Life Through Poetry DigiCat
This book traces the life of Giacomo Leopardi by examining four different yet interrelated aspects: his social origins and class in relation to his evolving conception of nobility; the mixture of idealism and misogyny in his attitude toward women and in his conception of love; his poems and prose on the theme of Italian independence; and his philosophical materialism as expressed in his poetry, intellectual diary, and essays. Frank

Rosengarten pays particular attention to the ways in which the thought of Arthur Schopenhauer and Friedrich Nietzsche illuminates Leopardi's world view. He also devotes a section of the book to the different personal, moral, and philological components of Leopardi's humanism. Throughout, he maintains a sharp focus on the connections between Leopardi's life and the historical period in which he lived. The major themes and human concerns expressed in

Leopardi's writings relate to his life experiences and to the historical period in which he lived. Of central interest are nobility and love, since Leopardi's perception of these two themes evolved and changed as he acquired a more general and universal conception of life. This fascinating combination of classical and modern perspectives on life and literature is highlighted throughout the book.

This new translation

brings to English-speaking readers an intense and brooding work by the greatest poet of the Italian Renaissance, Ludovico Ariosto. Begun as a sequel to his epic masterpiece Orlando Furioso (1516), the unfinished Cinque Canti are a powerful poem in their own right. Tragic in tone, they depict the disintegration of the chivalric world of Charlemagne and his knights and give poetic expression to a sense of cultural, political, and religious crisis felt in

Ariosto's Italy and in early sixteenth-century Europe more generally. David Quint's introduction freshly examines the literary sources and models of the Cinque Canti and discusses the cultural contexts and historical occasions of the poem. Printed with facing Italian text, this volume allows the modern reader to experience a work of Renaissance literature whose savage beauty still has the power to chill and fascinate.

This collection of lyric poetry is considered one of the most significant works of Italian literature. Giacomo Leopardi, (born June 29, 1798, Recanati, Papal States-died June 14, 1837, Naples), Italian poet, scholar, and philosopher whose outstanding scholarly and philosophical works and superb lyric poetry place him among the great writers of the 19th century. Leopardi has aestheticized the theme of metaphysical contemplation and placed emphasis on 'hope' as a fulcrum for all art, the fall

of which is anathema to the ego and for the World. *Leopardi's Canti* Carcanet Press

Canti Orfici / Orphic Songs

Princeton University Press
These translations of the major poems of Giacomo Leopardi (1798--1837) render into modern English verse the work of a writer who is widely regarded as the greatest lyric poet in the Italian literary tradition. In spite of this reputation, and in spite of a number of nineteenth-and twentieth-century translations, Leopardi's poems have never "come over" into English in such a way as to guarantee their author a recognition comparable to that of other great

European Romantic poets. By catching something of Leopardi's cadences and tonality in a version that still reads as idiomatic modern English (with an occasional Irish or American accent), Leopardi: Selected Poems should win for the Italian poet the wider appreciative audience he deserves. His themes are mutability, landscape, love; his attitude, one of unflinching realism in the face of unavoidable human loss. But the manners of the poems are a unique amalgam of

philosophical toughness and the lyrically bittersweet. In a way more pure and distilled than most others in the Western tradition, these poems are truly what Matthew Arnold asked all poetry to be, a "criticism of life." The translator's aim is to convey something of the profundity and something of the sheer poetic achievement of Leopardi's inestimable Canti.

Translating these poems

with Antonia Dalpiaz has been one of the highlights of my writing career. They are so beautiful that it sometimes seemed to me that they were translating themselves! You will find within: poems of nature, poems of love, and many which defy genre classification. Dalpiaz wrote them in the dialect of her home town of Trento, Italy (trentino), and if you know some Italian you should be able to appreciate the wonderful charm of this dialect. This is why we wanted to publish this

book in bilingual form, each poem in the original followed by the English. Enjoy!

Giacomo Leopardi is Italy's greatest modern poet, the first European writer to portray and examine the self in a way

that feels familiar to us today. A great classical scholar and patriot, he explored metaphysical loneliness in entirely original ways. Though he died young, his influence was enormous, and it is no exaggeration to say that all modern poetry, not only in Italian, derives in some way from his work. Galassi, whose translations of Eugenio Montale have been widely acclaimed, has produced a strong, fresh, direct version of this great poet that offers English-language readers a new

approach to Leopardi.

This is a charming collection of English translations of the most beloved poems by Italian poet, scholar, and philosopher, Giacomo Leopardi. His remarkable philosophical works and great lyric poetry place him among the renowned

writers of the 19th century. His verses are flooded with magnificence and melody, complemented by his quality of depth. Leopardi leads his readers to the brink of chasms and shows them their unimaginable depth. The most profound suffering of Leopardi's heart inspired the most beautiful passages in his poems. His frustrated hopes and despair found their best outlet in his poetry, which is loved for its passion, and effortless musicality. This translation presents

the poet's thoughts as accurately as possible. It contains some of his best-known works, including *To Silvia*, *Solitude*, *The Lonely Bird*, etc.

Oxford University Press Poetry. Translation. Dino Campana is without a doubt one of the most striking, dramatic, and exciting figures in Italian literature, and certainly one of the most disputed and controversial.

Because this brilliant masterpiece, *CANTI ORFICI*, occupies such a

unique and powerful place in Italian poetry, it is of fundamental importance for twentieth-century Italian literature. Interest in Campana has been growing steadily in the last twenty years, as witnessed by the proliferation of critical and biographical studies, and while translator of this book, Mario Luzi, has defined *CANTI ORFICI* as "il libro piu libro, piu 'oeuvre' del nostro Novecento" [the book more book, more "oeuvre" of our twentieth century], there are those who are

now unabashedly calling Campana one of the greatest poets of the century.
