From the "wonderfully talented" (Dwight
Garner, New York Times) author of
Misland and The Wallcreeper comes a
fierce and audaciously funny new novel,
dazzling in its energy and ambition: a
story of obsession, idealism, and
ownership, centered around a young
woman who inherits her bohemian
father's childhood home. Recent
business school graduate Penny Baker
has rebelled against her family her
whole life-by being the conventional one.

Her mother, Amalia, was a member of an Amazonian tribe called the Kogi; her much older father, Norm, long ago attained cult-like deity status among a certain group of aging hippies while operating a 'healing center' in New Jersey. And she's never felt particularly close to her much-older half-brothers from Norm's previous marriage-one wickedly charming and obscenely rich (but mostly just wicked), one a photographer on a distant tropical island. But all that changes when her father dies, and Penny inherits his childhood home in New Jersey. She goes to investigate the property and finds it not overgrown and abandoned, but rather occupied by a group of friendly anarchist squatters whom she finds unexpectedly charming, and who have

renamed the property Nicotine House. The residents of Nicotine House (defenders of smokers' rights) possess the type of passion and fervor Penny feels she's desperately lacking, and the other squatter houses in the neighborhood provide a sense of community Penny's never felt before, and she soon moves into a nearby residence, becoming enmeshed in the political fervor and commitment of her fellow squatters. As the Baker family's lives begin to converge around the fate of the Nicotine House, Penny grows ever bolder and more desperate to protect it-and its residents-until a fateful night when a reckless confrontation between her old family and her new one changes everything.

Das Frauen- und Mutterbild im

Nationalsozialismus und seine Auswirkungen bis heute Europa Verlag

During the last decade studies have indicated that migration has been a normal, structural element of human societies throughout history. Progress in migration and settlement studies under this new paradigm has been so substantial that a new state of the art is needed. This book presents a reconsideration of current theoretical perspectives encompassing enlightened insights in diverging specialisms in the field of migration history, such as slavery studies, ethnic history, macro-economic migration studies, and gypsy studies. The seventeen essays in this volume, written by leading scholars in the field, collectively represent a pioneering effort in migration and settlement studies.

They address the problems of ongoing specialization (and hence the need for synthesis) and the difficulties of integrating the consequences of this new paradigm into general histories.

Army Group South Duke University Press

The historic myths of a people/nation usually play an important role in the creation and consolidation of the basic concepts from which the self-image of that nation derives. These concepts include not only images of the nation itself, but also images of other peoples. Although the construction of ethnic stereotypes during the "long" nineteenth century initially had other functions than simply the homogenization of the particular culture and the exclusion of "others" from the public sphere, the

evaluation of peoples according to criteria that included "level of civilization" yielded "rankings" of ethnic groups within the Habsburg Monarchy. That provided the basis for later, more divisive ethnic characterizations of exclusive nationalism, as addressed in this volume that examines the roots and results of ethnic, nationalist, and racial conflict in the region from a variety of historical and theoretical perspectives.

A Struggle for Rome V 1 Berghahn Books

Es ist die Generation der 40- bis 65-Jährigen, es sind die Angehörigen der geburtenstarken Jahrgänge, die an den Schalthebeln der Macht in Politik, Wirtschaft und Kultur sitzen. Jahrzehntlang standen sie im Schatten ihrer Vorgänger, der 68er, und im

Gegensatz zu diesen gelang es ihnen nur schwer, ein Gefühl für ihre gesellschaftliche Rolle und ihre Aufgabe zu entwickeln. Das hat sich inzwischen gründlich geändert, denn es waren die Babyboomer, die der Vermutung nachgingen, die Erfahrungen ihrer Eltern während der NS-Zeit und im Krieg könnten etwas mit ihrem eigenen Leben zu tun haben. Ab der Jahrtausendwende begannen sie, diesen vergessenen Zusammenhang zu untersuchen. Als "Generation Kriegsenkel" drücken sie dem Deutschland von heute ihren unverwechselbaren Stempel auf. Doch was treibt sie an? Welche Ziele verfolgen sie? Wie prägen und verändern sie unser Land?

Imperfect Justice Amsterdam University Press

When a popular high-school student goes missing from her small Midwestern community, her loving parents, introverted sister, friends, and boyfriend devote themselves to finding her, an effort that gives way to pleading television appearances, private investigations, and intimate struggles to cling to hope. 60,000 first printing. *Architects of Annihilation* Berg Publishers

The study of migration is and always has been an interdisciplinary field of study, vast and vibrant in nature. This short introduction to the field, written by leading historians of migration for student readers, offers an acute analysis of key issues across several disciplines. It takes in its scope an overview of migrations through history, how classic theories have interpreted such

movements, and contemporary topics and debates including transnational and transcultural lives, access to citizenship, and migrant entrepreneurship. Historical perspectives reveal how the scholarly field emerged and developed over time and across cultures and how historians of migration have recently begun to rewrite the story of human life on earth. Throughout, the authors suggest how the movements of millions of mobile men and women persistently challenge changing scholarly paradigms for understanding their lives. Key concepts and theories, such as systems, networks, and gender, are explained and historicized to produce a complex picture of the interaction of migrants, scholars, and disciplinary cultures in a globalized world.

Learning in Places Public Affairs

After long years of studying sources and literature, Werner Haupt presents the military history of one of the larger theaters of World War II. The completion of the history of "Army Group South" is the result of the author's utilization of all available German and Russian literature, as well as those combat diaries and documents of the committed troop units that are available in German archives. In addition, the author was assisted in clearing up several questions by the advice of former members of the army group - from commanders to drivers. This third and final volume of a three volume set by Werner Haupt includes a volume each on Army Group North, Army Group Center, and now Army Group South. The author served in the

German Army as a soldier and officer in the northern sector of the Eastern Front during the Second World War. He is also the author of *Assault on Moscow 1941* (available from Schiffer Publishing Ltd.).

The Politics of Cultural Performance

Burns & Oates

Combines socioeconomic labor market analysis with a cultural historical study of the impact of migration.

Nicht willkommen. Die Vertriebenen nach 1945 in Deutschland Mit diesem Buch erschüttert Andreas Kossert den Mythos von der rundum geglückten Integration der Vertriebenen nach 1945. Erstmals erhalten wir ein wirklichkeitsgetreues Bild von ihrer Ankunft in der Bundesrepublik - dem Land, das ihnen zur neuen, kalten

Heimat wurde. Wir erfahren von ihrem Kampf um den schwierigen Neuanfang und von den Lebensumständen der Menschen im »Wirtschaftswunderland«. Aktualisierte Ausgabe

The Austrian Resistance 1938-1945

Brill Schoningh

Ausgezeichnet mit dem NDR Kultur Sachbuchpreis als bestes Sachbuch des Jahres 2020, nominiert für den Deutschen Sachbuchpreis 2021, prämiert mit dem Preis für „Das politische Buch“ 2021 der Friedrich-Ebert-Stiftung Andreas Kossert, renommiertes Experte zum Thema Flucht und Vertreibung im 20. Jahrhundert und Autor des Bestsellers »Kalte Heimat«, stellt in diesem Buch die Flüchtlingsbewegung des frühen 21. Jahrhunderts in einen großen

geschichtlichen Zusammenhang. Immer nah an den Einzelschicksalen und auf bewegende Weise zeigt Kossert, welche existenziellen Erfahrungen von Entwurzelung und Anfeindung mit dem Verlust der Heimat einhergehen - und warum es für Flüchtlinge und Vertriebene zu allen Zeiten so schwer ist, in der Fremde neue Wurzeln zu schlagen. Ob sie aus Ostpreußen, Syrien oder Indien flohen: Flüchtlinge sind Akteure der Weltgeschichte - Andreas Kossert gibt ihnen mit diesem Buch eine Stimme. »Flucht« wurde mit dem NDR Kultur Sachbuchpreis 2020 und mit dem Preis für »Das politische Buch« 2021 der Friedrich-Ebert-Stiftung ausgezeichnet. »Kossert zeigt auf, dass Flucht und Vertreibung nicht das Problem der anderen ist, sondern gerade auch in

Deutschland tief verwoben ist mit der eigenen Familiengeschichte.« (Aus der Begründung der NDR-Sachbuchpreis-Jury) »In diesem wichtigen, brillant erzählten Buch zeichnet Andreas Kossert das bedrückende Panorama eines jahrhundertealten und zugleich höchst aktuellen Menschheitsdramas. Er beleuchtet die Anatomie eines Massenphänomens. Doch im Zentrum stehen die einzelnen Flüchtlinge, ihre Schicksale und Zeugnisse. Das Buch für unsere Zeit!« (Christopher Clark) »Ein Buch, das einen nicht kalt lässt...Ebenso brillant geschrieben wie komponiert.« (rbb kulturradio)

2022/2023 Walter de Gruyter GmbH & Co KG

A Pulitzer Prize-winning historian's return to memoir, a tale of intellectual coming-

of-age on three continents, published in tandem with his classic work of Holocaust literature, *When Memory Comes* Forty years after his acclaimed, poignant first memoir, Friedländer returns with *WHEN MEMORY COMES: THE LATER YEARS*, bridging the gap between the ordeals of his childhood and his present-day towering reputation in the field of Holocaust studies. After abandoning his youthful conversion to Catholicism, he rediscovers his Jewish roots as a teenager and builds a new life in Israeli politics. Friedländer's initial loyalty to Israel turns into a lifelong fascination with Jewish life and history. He struggles to process the ubiquitous effects of European anti-Semitism while searching for a more measured approach to the Zionism that surrounds

him. Friedländer goes on to spend his adulthood shuttling between Israel, Europe, and the United States, armed with his talent for language and an expansive intellect. His prestige inevitably throws him up against other intellectual heavyweights. In his early years in Israel, he rubs shoulders with the architects of the fledgling state and brilliant minds such as Gershom Scholem and Carlo Ginzburg, among others. Most importantly, this memoir led Friedländer to reflect on the wrenching events that induced him to devote sixteen years of his life to writing his Pulitzer Prize-winning masterpiece, *The Years of Extermination: Nazi Germany and the Jews, 1939-1945*.

This book analyses how France, Belgium

and the Netherlands emerged from the Second World War.

What is Migration History? Berghahn Books

A landmark work on human migration around the globe, *Cultures in Contact* provides a history of the world told through the movements of its people. It is a broad, pioneering interpretation of the scope, patterns, and consequences of human migrations over the past ten centuries. In this magnum opus thirty years in the making, Dirk Hoerder reconceptualizes the history of migration and immigration, establishing that societal transformation cannot be understood without taking into account the impact of migrations and, indeed, that mobility is more characteristic of human behavior than is stasis. Signaling

a major paradigm shift, *Cultures in Contact* creates an English-language map of human movement that is not Atlantic Ocean-based. Hoerder describes the origins, causes, and extent of migrations around the globe and analyzes the cultural interactions they have triggered. He pays particular attention to the consequences of immigration within the receiving countries. His work sweeps from the eleventh century forward through the end of the twentieth, when migration patterns shifted to include transpacific migration, return migrations from former colonies, refugee migrations, and distinct regional labor migrations in the developing world. Hoerder demonstrates that as we enter the third millennium, regional and intercontinental migration

patterns no longer resemble those of previous centuries. They have been transformed by new communications systems and other forces of globalization and transnationalism.

Europe on the Move Other Press, LLC
 Wie hat der Nationalsozialismus unsere heutigen Vorstellungen von Frauen und Mutterschaft geprägt? Anhand von Gruppendiskussionen und des Rückgriffs auf Auswertungskonzepte der Psychoanalyse zeichnet die Autorin nach, wie Geschlechterbilder über drei Generationen fortgeführt werden. Die Studie beschäftigt sich eingehend mit Geschlechterkonstruktionen im Nationalsozialismus und zeigt dabei auf, dass auch Männer- und Väterbilder aus der NS-Zeit das Leben und die Einstellungen der lebenden

Generationen beeinflussen.

Publik-Forum Walter de Gruyter

Learning in Places is a concerted effort undertaken by an outstanding group of international researchers to create a resource book that can introduce academic, professional and lay readers to the field of informal learning/education and its potential to transform present educational thinking. The book presents a wealth of ideas from a wide variety of disciplinary fields and methodological approaches covering multiple learning landscapes - in museums, workplaces, classrooms, places of recreation - in a variety of political, social and cultural contexts around the world. Learning in Places presents the most recent theoretical advances in the field; analyzing the

social, cultural, political, historical and economical contexts within which informal learning develops and must be critiqued. It also looks into the epistemology that nourishes its development and into the practices that characterize its implementation; and finally reflects on the variety of educational contexts in which it is practiced.

Music in the Third Reich University of Wisconsin Pres

In the spring of 1945, Fuhrer and Reich Chancellor Adolf Hitler, President Edvard Benes, and Marshal Josip Broz Tito stood as examples of the complete rupture between the Germans and Austrians on the one hand, and the Czechs, Slovaks, Slovenes, Croats, Serbs, and Bosniaks on the other. The total break that occurred

in World War II with war crimes, crimes against humanity, and even genocides (particularly against the Jews and "Gypsies") had a long pre-history, beginning with violent nationalist clashes in the Habsburg Monarchy during the revolutions of 1848/49. Therefore, this monograph - based on a broad range of international primary and secondary sources - explores the development of the political, legal, economic, social, and cultural "communities of conflict" within Austria-Hungary, especially in the Bohemian and South Slavic countries, the making of the Paris Peace Treaties in 1919/20 by violating President Wilson's principle of self-determination, particularly in drawing new borders and creating new economic units, and the perpetuated ethnic-national conflicts

between Czechs and Germans, Slovaks and Magyars, Slovenes and Germans, Croats and Serbs as well as Serbs and Germans in the successor states, deepening the differences between the nations of East-Central Europe. Although many kings, presidents, chancellors, ministers, governors, diplomats, business tycoons, generals, Nazi-Gauleiter, higher SS and police leaders, and Communist functionaries have appeared as historical actors in the 170 years of East-Central and Southeastern European history, Hitler, Benes, and Tito remain especially present in historical memory at the beginning of the twenty-first century.

The Fascist Revolution Austrian Academy of Sciences Press

Why do some migrants integrate quickly,

while others become long-term minorities? What is the role of the state in the settlement process? To what extent are experiences in the past different from the present? Are the recent migrants really integrating in another way than those in the past? Is Islam indeed an obstacle to integration? These are some of the burning questions, which dominate the current politicized debate on immigration in Western Europe. In this book, leading historians and social scientists analyze and compare a variety of settlement processes in past and present migration to Western Europe. Identifying general factors in the process of adaptation of new immigrants, the contributors trace social changes effected by recent European immigration, and the parallels

with the great American migration of the 1880s-1920s. The history of migration to Western Europe and the way these migrants found their place in the receiving societies, is not only essential to understand the way nations deal with newcomers in the present, but also constitutes a highly interesting laboratory for different paths of integration now and then. By analyzing and comparing a wealth of settlement processes both in the past and in the present this book is both a bold interdisciplinary endeavor, and at the same time the first attempt to identify general factors underlying the way migrants adapt to their new surroundings, as well as how societies change under the influence of immigration. The chapters in the book

both look at specific groups in various periods, but also analyses the structure of the state, churches unions and other important organized actors in Western European nation states. Moreover, the results are embedded in the more theoretical American literature on the comparison of old and new migrants. All chapters have an explicit comparative perspective, either by comparing different groups or different periods, whereas the general conclusion ties together the various outcomes in a systematic way, highlighting the main answers to the central questions about the various outcomes of settlement processes. --Publisher.

The Legacy of Nazi Occupation

Schiffer Military History

For beginning students and lay readers, introduces the basics of psychoanalytic and behaviorist psychology by examining the systems of eight major practitioners and theorists. Highlights how the psychodynamic and behavioristic schools complement each other in psychological paradigms, experimental perspectives, and mental structures. The last, posthumously published, book by Keehn (psychology, York University, Canada). Annotation copyright by Book News, Inc., Portland, OR

Class Reunion Verlag Barbara Budrich

In this authoritative study, one of the first to appear in English, Erik Levi

explores the ambiguous relationship between music and politics during one of the darkest periods of recent cultural history. Utilising material drawn from contemporary documents, journals and newspapers, he traces the evolution of reactionary musical attitudes which were exploited by the Nazis in the final years of the Weimar Republic, chronicles the

mechanisms that were established after 1933 to regiment musical life throughout Germany and the occupied territories, and examines the degree to which the climate of xenophobia, racism and anti-modernism affected the dissemination of music either in the opera house and concert hall, or on the radio and in the media.
