The Spiritual Journey of the World's Greatest Seeker Harry Potter Coloring Book

Behind the magic of Harry Potter—a witty and illuminating look at the scientific principles, theories, and assumptions of the boy wizard's world, newly come to life again in Harry Potter and the Cursed Child and the upcoming film *Fantastic Beasts: The Crimes of Grindelwald* Can Fluffy the three-headed dog be explained by advances in molecular biology? Could the discovery of cosmic "gravity-shielding effects" unlock the secret to the Nimbus 2000 broomstick's ability to fly? Is the griffin really none other than the dinosaur Protoceratops? Roger Highfield, author of the critically acclaimed *The Physics of Christmas*, explores the fascinating links between magic and science to reveal that much of what strikes us as supremely strange in the Potter books can actually be explained by the conjurings of the scientific mind. This is the perfect guide for parents who want to teach their children science through their favorite adventures as well as for the millions of adult fans of the series intrigued by its marvels and mysteries. • An ALA Booklist Editors' Choice •

Following a bizarre but hilarious chain of events, Harry finds himself at Hogwarts School of Witchcraft and Wizardry, with an outrageous cast of characters, including super-smart Hermione Granger, vile Draco Malfoy, sinister Professor Snape, and the wise Headmaster Albus Dumbledore. An engaging read that documents the twists and turns of an ultimately unsuccessful book challenge to the first two Harry Potter books.... Meadors does a satisfying job of setting the scene... [He] provides surprisingly sympathetic portrayals of the primary players... He's particularly effective at explaining court procedures, taking the time to ensure that readers can fully enjoy the happy, precedent-setting ending. The title will draw in book lovers, and the narrative will keep them reading through to the gratifying conclusion."--Booklist In 2002, the Cedarville School Board in Crawford County, Arkansas, ordered the removal of J.K. Rowling's Harry Potter books from library shelves, holding that witchcraft or sorcery [should not] be available for study. The Board picked some formidable adversaries. School librarian Estella Roberts, standing on policy, had the books reviewed--and unanimously approved--by a committee of teachers and administrators that included a child and a parent. Not satisfied with the Board's half-measure permitting access to the books with parental approval, 4th-grader Dakota Counts and her father Bill Counts sued the school district in Federal court, drawing on the precedent *Pico v. Island Trees* to reaffirm that Constitutional rights apply to school libraries. Written by the lawyer who prosecuted the case, this book details the origins of the book ban and the civil procedures and legal arguments that restored the First Amendment in Cedarville.
