Geometric Animals! Rockport Publishers  
What is an animal? A name? A noise? A  
collections of shapes? All of these  
simultaneously? Geometric Animals!  
shows young children the unique  
features of different animals, playfully  
bringing them closer to the universe of  
both simple and more complex  
geometric shapes. The aim of this book  
is to increase and stimulate the

children's abilities to decompose things,  
people and animals into basic shapes via  
a pleasant journey into the world of  
geometry!

*Adult Coloring Book Geometric Shapes -  
Animals - Cat* Drawing Animals  
Artists use shapes to draw pictures of all  
different kinds of things. Readers learn  
how to use this technique to draw a  
variety of animals with this fun-filled  
book. Step-by-step instructions help  
readers follow along with accessible  
activities to create unique artwork of  
their own. Some of the activities include

how to draw a lion, a snake, a zebra, and a fish. Engaging illustrations help readers visualize every step along the way and show them examples of the finished products. By combining geometry and art, this cross-curricular approach to learning is both educational and enjoyable.

activities-glossy cover design

### **Geometric Animals Coloring Book**

Austin MacAuley

Shapes are an essential part of the elementary mathematics curriculum, a standard upon which students build their knowledge of geometry. It's important to recognize both two-dimensional and three-dimensional shapes and their attributes. This beneficial and entertaining volume uses a high-interest animal, sheep, to introduce and review shape concepts, with the help of questions and an answer key. It encourages readers to see shapes in the world around them, so they will continuously reinforce what they learn in their everyday lives.

Children's Books

Ronny Gazzola is an illustrator with a rare sensitivity, capable of mingling amusing drawings for small children with an absolutely contemporary taste for shape and colour. His characters accompany young readers in discovering the most important geometric shapes: circle, triangle, and square, each of which is linked to a character looking for his 'own place' in the world. Children will love the adventures of the round armadillo, the flying squirrel and the little hermit crab, who hide their surprises under removable cardboard windows, one in each spread. AGES: 3 and up AUTHOR: Ronny Gazzola was born in a little town near Venice. After the diploma at the artistic high school and through workshops and several

international competitions he approached illustration. He has worked as freelancer with several companies. He realises editorial illustrations, illustrations for children and graphic projects

SUITABLE FOR ALL SKILL LEVELS

Animal Shapes Independently Published

coloring book for toddlers - enjoy coloring letters and animals This book is designed for young children, who love coloring and love animals in particular, where children will learn and recognize the alphabet and numbers while enjoying the coloring of letters, numbers and many animals, which will make children learn letters and numbers in a fun way. This will be done through the pages of this book, which are specifically designed for this purpose, and these points will be made more clear: We have designed numbers (from zero to ten) without colors with a group of animals, where the number of animals corresponds to the number drawn on one page. We designed the shapes of all the letters, without colors of course, and attached each letter to the name of an

animal that begins with that letter, with a drawing of that animal on the same page. We also added a special part of the geometric shapes with their names, we designed these pages without colors, so we made the words of animal names and shapes without colors as well, allowing the child to take his freedom to choose the right colors, and at the same time the child will recognize the letters and numbers automatically, especially with the instructions of the parents according to this point of view. Book details: Dimensions: (8.5 X 11) inch. Number of pages: 68 pages. The general content of the book: This book contains drawings of letters, numbers, animals and some shapes, these drawings are color-free, designed specifically for young children coming to school for the

first time.

### **The Weatherly Guide to Drawing Animals**

Independently Published While colorful birds perch in the trees, heart-shaped leaves flutter in the breeze. This innovative board book uses a series of colorful spreads with sliding discs to introduce young children to basic shapes. Children can look at the animals in each scene, listen to the gently rhyming text, and trace their fingers over the nature-inspired shapes. The books are robust and fun, perfect for encouraging a lively, interactive reading experience for children and adults, and developing young childrens' motor skills, a key element in Montessori learning. In addition, the books encourage further learning with discussion of the habitat of each animal.

Color Zoo Houghton Mifflin Harcourt  
The unique and beautiful animals depicted in this board book will help kids learn basic shapes. The final page shows all the animals aboard the "shape train" as they sit in various train cars.

**Circus Shapes** little bee books  
The fourth book in Nikolas Illic's first concepts series, this time introducing simple shapes.

GREAT FOR ALL SKILL LEVELS  
*Animal Shapes* Independently Published

A series of six titles which aims to teach children how to transform simple circles, squares and triangles into works of art with easy drawing methods. This features children's favourite subjects, such as dinosaurs, fairy tales and animals, with each book showing how to draw nine pictures, described in rhymes that relate to simple geometric shapes.

Geometric Shapes Animals Coloring Book

A heart can be hopeful, or silly, or happy.  
A heart can be rugged, or snappy, or

lonely. A heart holds every different feeling, and debut author-artist Michael Hall captures each one with a delicate touch. For each feeling, the bold, graphic artwork creates an animal out of heart shapes, from "eager as a beaver" to "angry as a bear" to "thoughtful as an owl." An accessible and beautiful debut, *My Heart Is Like a Zoo* is everything a classic picture book should be: honest, sincere, and speaking directly to even the very youngest child. Ages: 0 - 5
