well done is better than well said: This is a lined notebook (lined front and back). Simple and elegant. 120 pages and (6 x 9) inches in size. Lined Notebook / Notepad Gift. 120 pages. 6x9 Soft cover. Matte Finish.

Social Ecology Council of Europe
The present volume is an excellent introduction to the study of human nonverbal communication, including interaction and gesture, for students and specialists in other disciplines, as well as a convenient compilation of significant contributions to the field for experts. Part I includes four articles, the import of which is primarily theoretical or methodological. Part II comprises eight articles in which instances of interaction are examined and attempts are made to explain how the behavior that can be observed in them functions in the interaction process. Part III presents six articles on what may broadly be referred to as 'gesture'. These articles deal with specific actions, mostly of the forelimbs, which are usually deemed to have specific communicational significance. In an introductory chapter, the volume editor, Adam Kendon, not only examines the various issues raised by the eighteen papers but also shows the relevance of each article as a contribution to the development of an understanding of how human visible behavior functions communicatively.

The Patriarchate of Peć Trafalgar Square Publishing
This four-volume comparative grammar of the Slavonic languages (originally published 1852-74) was among Franz

Miklosich's most influential works.

Imagining Creation (paperback)

Cambridge University Press

Disc characteristics : DVD Region 4.

Russia in the Twentieth Century Council of Europe

The story of two Germans, a Jew whose life was stolen and the onetime Nazi who stole it. The narrator is an ethnographer famous for his work on the Indians of Brazil. The story opens as he receives a letter from the Jew whom he thought dead and whose book he plagiarized during World War II. At the age of 80, the professor's life is about to be exposed as a big lie. By the author of *The Man in the Tower*.

Forging Peace Springer

"Functionally speaking, the kitchen and the bathroom are the most important-- and most often remodeled-- rooms in the house. That's why accessibility to all users-- including children, people with disabilities, and aging residents-- is so crucial"--Page 4 of cover.

Leica Format M. Sutkiewicz Pub.

This field guide contains a collection of photographs of everything you need to identify a tree - whether in winter, spring, summer or autumn. Every species has a photograph of a whole tree, plus close-ups of its bark, buds, leaves, male or female flowers, and fruit. The photographs are backed up with text describing what to look for to differentiate one similar looking species from another. It covers over 800 species of tree - every species that is native to Europe, plus all the species that are commonly planted in parks and gardens. *Gesture, Race and Culture* Northwestern University Press

In myth, author Puhvel argues, a human group expresses the thought patterns by which it formulates self-cognition and self-realization, attains self-knowledge

and self-confidence, explains its own sources and sometimes tries to chart its destinies. Here, Puhvel unravels the prehistoric origins of the traditions of India and Iran, Greece and Rome, of the Celts, Germans, Balts, and Slavs. Utilizing the methodologies of historical linguistics and archaeology, he reconstructs a shared prehistorical religious, mythological, and cultural heritage. Separate chapters on individual traditions as well as on recurrent themes give life to the book as both a general introduction and a detailed reference.--From publisher description.

Finds of the Roman military equipment in Croatia Walter de Gruyter

Special interest tourism is one of the fastest growing segments within the tourism industry. A more mature travelling public is increasingly seeking experiences which satisfy a whole spectrum of interests. Accordingly, there is a need for new tourism products, services and experiences that cater to these markets. Special interest tourism incorporates various sectors such as regional, urban, community, environmental, cruise, heritage, cultural, sex and educational tourism, all of which are discussed in this new text. Special interest tourism products operate within a broad industry framework affecting the social, political, environmental and economic context of the tourism region and tourist market. The authors discuss special interest tourism strategies, policies and initiatives introduced in Australia and internationally. The text combines theory and industry applications to illustrate the diversity of tourism product and development as it relates to special interest tourism.

Biodiversity II McGraw-Hill Professional Publishing

A collection of short humorous stories involving the author and his family.

The World's Protected Areas Joseph Henry Press

"Illustrated with maps, color photographs, and graphics, this reference offers a comprehensive status report on the world's 60,000 parks, nature reserves, and other land and marine areas designated as protected areas. It offers an overview of what these protected areas have and have not accomplished and what threats they face." -- Provided by publisher.

Jugoslovenska privreda Routledge

Imagining Creation discusses a wide selection of creation stories from different cultures, regions, and periods, from the Ancient Near East and India, Bible and Koran, to modern Africa and Europe.

Business Travel and Tourism Lehigh University Press

A collection of pioneering essays. With the growing awareness of the causes and consequences of environmental degradation, the field of social ecology has assumed enormous importance. This reader provides a `state of the art' survey of the field.

Himmelfarb Indiana University Press

'Business Travel and Tourism' provides a comprehensive, international overview of business tourism from both a theoretical and practical perspective. With the use of case studies from around the world, 'Business Travel and Tourism' explores a broad range of issues, including: * The global business tourism market * The design of business tourism facilities * The role of the destination in business travel and tourism * The social, economic, and environmental impacts of business tourism * The ethical dimension of business tourism * The marketing of business tourism products * The impact

of new technologies on the business tourism market * How to organise successful conferences, exhibitions, and incentive travel packages Case studies include Disneyland Paris, Hong Kong, Amsterdam RAI International Exhibition and Congress Centre, Hilton, Page and Moy Marketing, Lufthansa, Air France, and Legoland UK. 'Business Travel and Tourism' is the first text to offer a comprehensive overview of the growing but neglected area of business tourism. With the use of a wide range of up-to-date case studies and major practical exercises to help students to broaden and deepen their understanding of this area of tourism, it is an invaluable text for all students on travel and tourism courses at degree and BTEC/HND level, or those taking tourism options in leisure, business studies, hospitality management or geography.

Netspionage Univ de Castilla La Mancha Security has become a defining feature of contemporary public discourse, permeating the so-called 'war on terror', problems of everyday crime and disorder, the reconstruction of 'weak' or 'failed' states and the dramatic renaissance of the private security industry. But what does it mean for individuals to be secure, and what is the relationship between security and the practices of the modern state? In this timely and important book, Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good. They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security. This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of

one the most significant and pressing issues of our times.

My Family Right Or Wrong Routledge

A practical guide written from front-line experience that explains the evolution of spying and why today it's much easier to find much more strategic information. This book can be of significant benefit to business, government, the legal community, and law enforcement by showing how to protect against criminals, terrorists, and intelligence agencies who exploit the new "cyber world".

The European Home Balkanološki institut SANU

Bernd Heine argues that the structure of grammatical categories is predictable to a large extent once we know the range of possible cognitive structures from which they are derived. The author uses as his example the structure of predicative possession, and shows how most of the possessive constructions to be found in the world's languages can be traced back to a small set of basic conceptual patterns. Using grammaticalization theory Heine describes how each affects the word order and morphosyntax of the resulting possessive construction.

Antički željezni alat i oprema sa prostora Bosne i Hercegovine Laurence King Publishing

Leading family sociologist David Morgan revisits his highly influential 'family practices' approach in this new book. Exploring its impact, and how it has been critiqued, Morgan shows the continued relevance of the approach with reference to time and space, the body, emotions, ethics and work/life balance.

The National Kitchen & Bath Association Presents Universal Kitchen & Bathroom Planning Cambridge University Press

"The book before you...carries the urgent

warning that we are rapidly altering and destroying the environments that have fostered the diversity of life forms for more than a billion years." With those words, Edward O. Wilson opened the landmark volume *Biodiversity* (National Academy Press, 1988). Despite this and other such alarms, species continue to vanish at a rapid rate, taking with them their genetic legacy and potential benefits. Many disappear before they can even be identified. *Biodiversity II* is a renewed call for urgency. This volume updates readers on how much we already know and how much remains to be identified scientifically. It explores new strategies for quantifying, understanding, and protecting biodiversity, including: New approaches to the integration of electronic data, including a proposal for a U.S. National Biodiversity Information Center. Application of techniques developed in the human genome project to species identification and classification. The Gap Analysis Program of the National Biological Survey, which uses layered satellite, climatic, and biological data to assess distribution and better manage biodiversity. The significant contribution of museum collections to identifying and categorizing species, which is essential for understanding ecological function and for targeting organisms and regions at risk. The book describes our growing understanding of how megacenters of diversity (e.g., rainforest insects, coral reefs) are formed, maintained, and lost; what can be learned from mounting bird extinctions; and how conservation efforts

for neotropical primates have fared. It also explores ecosystem restoration, sustainable development, and agricultural impact. *Biodiversity II* reinforces the idea that the conservation of our biological resources is within reach as long as we pool resources; better coordinate the efforts of existing institutions—museums, universities, and government agencies—already dedicated to this goal; and enhance support for research, collections, and training. This volume will be important to environmentalists, biologists, ecologists, educators, students, and concerned individuals.

Kurban in the Balkans Harper Collins
The bloody conflicts of the past decade have focused international attention on the strategic role of the media in promoting war and perpetuating chaos. Written against this backdrop, *Forging Peace* brings together case studies and legal analysis of the steps that the United Nations, NATO, and other organizations have taken to build pluralist and independent media in the wake of massive human rights violations. It examines current thinking on the legality of unilateral humanitarian intervention, and analyzes in graphic detail the pioneering use of information intervention techniques in conflict zones, ranging from full-scale bombardment and confiscation of transmitters to the establishment of new laws and regulatory regimes. With its focus on the role of media in preventing human rights violations, *Forging Peace* will influence policy and debate for years to come.
