ALBERT MARQUISE

History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 3. Teilband Alfred Music

When Great Britain and its dominions declared war on Germany in August 1914, they were faced with the formidable challenge of transforming masses of untrained citizen-soldiers at home and abroad into competent, coordinated

fighting divisions. The Empire on the Western Front focuses on the development of two units, Britain's 62nd (2nd West Riding) Division and the Canadian 4th Division, to show how the British Expeditionary Force rose to this challenge. By turning the spotlight on army formation and operations at the divisional level, Jackson calls into question existing accounts that emphasize the differences between the imperial and dominion armies.

The treatise on musica plana and musica mensurabilis written by Lambertus/Aristoteles is our main witness to thirteenth-century musical thought in the decades between the treatises of Johannes de Garlandia and Franco of Cologne. This treatise presents both the rudiments of the practice of liturgical chant and the principles of polyphonic notation in a dense and rigorous manner like few music treatises of its time. This

new edition of Lambertus's treatise is the first since Edmond de Coussemaker's of 1864. Christian Meyer's meticulous edition is displayed on facing pages with Karen Desmond's English translation, and the treatise and translation are prefaced by a substantial introduction.

Kodály Today A-R Editions, Inc.

In this new edition of their groundbreaking 'Kodály Today', Míchéal Houlihan and Philip Tacka offer an expertly-researched, thorough, and - most importantly - practical approach to transforming curriculum goals into tangible, achievable musical objectives and effective lesson plans. Their model outlines the concrete practices behind constructing effective teaching portfolios, selecting engaging music repertoire for the classroom, and teaching musicianship skills successfully to elementary students of all degrees of proficiency.
