David Bowie and Philosophy Sky Books (NY) Horror has a new name: Daphne. A brutal, enigmatic woman stalks a high school basketball team in a reimagining of the slasher genre by the New York Times bestselling author of *Bird Box*. "A superb serial killer novel and a great coming-of-age story."—Gabino Iglesias, author of *The Devil Takes You Home* **ONE OF THE BEST BOOKS OF THE YEAR:** Paste It's the last summer for Kit Lamb: The last summer before college. The last summer with her high school basketball team, and with Dana, her best friend. The last summer before her life begins. But the night before the big game, one of the players tells a ghost story about Daphne, a girl who went to their school many years ago and died under mysterious circumstances. Some say she was murdered, others that she died by her own hand. And some say that Daphne is a murderer herself. They also say that

Daphne is still out there, obsessed with revenge, and will appear to kill again anytime someone thinks about her. After Kit hears the story, her teammates vanish, one by one, and Kit begins to suspect that the stories about Daphne are real . . . and to fear that her own mind is conjuring the killer. Now it's a race against time as Kit searches for the truth behind the legend and learns to face her own fears—before the summer of her lifetime becomes the last summer of her life. Mixing a nostalgic coming-of-age story and an instantly iconic female villain with an innovative new vision of classic horror, Daphne is an unforgettable thriller as only Josh Malerman could imagine it.

### *The Long List Anthology Volume 2* Penguin

This is the second annual edition of the Long List Anthology. Every year, supporting members of WorldCon nominate their favorite stories first published during the previous year to determine the top five in each category for the final Hugo Award ballot. Between the announcement of the ballot and the Hugo Award ceremony at WorldCon, these works often become the center of much attention (and contention) across fandom. But there are more stories loved by the Hugo voters, stories on the longer nomination list that WSFS publishes after the Hugo Award ceremony at WorldCon. The Long List Anthology

Volume 2 collects 18 fiction stories from that nomination list, along with 2 essays from the book Letters to Tiptree that was also on the nomination list, totaling over 500 pages of fiction by writers from all corners of the world. Within these pages you will find a mix of science fiction and fantasy and horror, the dramatic and the lighthearted, from android caretakers to Lovecraftian romances, from adventures to quests and more. There is a wide variety of styles and types of stories here, and something for everyone. The stories included are: "Damage" by David D. Levine "Pockets" by Amal El-Mohtar "Today I Am Paul" by Martin L. The comics based on the hit Netflix series delve into B-movie horror nostalgia when Dustin goes to summer camp, confronts a sinister figure in an Albert Einstein mask, and joins forces with Suzie to solve mysterious disappearances. Dustin arrives at Camp Know Where to navigate the new social hierarchy without the support of his Hawkins adventuring party. While also faced with nerdy bullies, a new menace haunts the young scientists and camp

counselors. A mysterious figure with sinister intent arrives to disrupt the serene woodland scene. When camp counselors start to disappear, the solution won't take rocket science, but Dustin will have to get on the same wavelength as Suzie and the other campers before tensions reach a boiling point. Writer Jody Houser (*Critical Role*, *Stranger Things: Into the Fire*) returns with Edgar Salazar and Keith Champagne (*Stranger Things: SIX*) to create a new miniseries in the *Stranger Things* universe, taking place between seasons two and three of the hit Netflix show. It’s the summer of 1969, and the shock of conflict reverberates through the youth of America. As a student at a quiet college campus in the heartland of Indiana, Terry Ives couldn’t be farther from the front lines of Vietnam or the protests in Washington. But the world is changing, and Terry isn’t content to watch. When word gets around about an important government experiment in the small town of Hawkins, she

signs on as a test subject for the project, code-named MKULTRA. The remote lab, deep in the woods, contains a mystery Terry is determined to uncover. Behind the walls of Hawkins National Laboratory—and the piercing gaze of its director, Dr. Martin Brenner—lurks a conspiracy greater than Terry could have ever imagined. To face it, she’ll need the help of her fellow test subjects. Amid the rising tensions of the new decade, Terry Ives and Martin Brenner have begun a different kind of war—one where the human mind is the battlefield.

Harrow, Hugo Award-winning author A paranormal romantic comedy at the (possible) end of the world. From New York Times bestselling author Gwenda Bond, *Not Your Average Hot Guy* is a hilarious romantic comedy about two people falling in love, while the fate of the world rests on their shoulders. All Callie wanted was a quiet weekend with her best friend. She promised her mom she could handle running her family's escape room business while her mom is out of town. Instead a Satanic cult shows up, claiming that the prop spell book in one of the rooms is the real deal, and they need it to summon the right hand of the devil. Naturally

they take Callie and her friend, Mag, along with them. But when the summoning reveals a handsome demon in a leather jacket named Luke who offers to help Callie stop the cult from destroying the world, her night goes from weird to completely strange. As the group tries to stay one step ahead of the cult, Callie finds herself drawn to the annoying (and annoyingly handsome) Luke. But what Callie doesn't know is that Luke is none other than Luke Morningstar, Prince of Hell and son of the Devil himself. Callie never had time for love, and with the apocalypse coming closer, is there room for romance when all hell's about to break loose? *Stranger Things: Rebel Robin* Random House Discover the backstory of new Stranger Things fan favorite Robin--the perfect read for anyone looking forward to devouring the fourth season on Netflix—now available as a paperback! High school is a monster, and it's eating everyone Robin knows. It's the beginning of sophomore year, and Robin's Odd Squad friends couple up, won't stop talking about college and their future careers, and are obsessed with trying

to act "normal." Robin knows that game well--she's been pretending for years, hoping nobody would notice the sarcastic polyglot French horn player with a bad perm in the back of the room. But there's one aspect of her identity that she knows for sure doesn't fit in with her image--Robin likes girls. How is she supposed to be her true self in teeny-tiny Hawkins, Indiana? Robin is convinced the only way she can experience real life is by fleeing to Europe for the summer--aka Operation Croissant. But she has no money, no permission, and no one to share the adventure with--and it will take a heck of a lot more than that to escape Hawkins in one piece. Sprinkled with references to your favorite Stranger Things characters, this prequel chronicles one girl's realization that the only person she really needs to be accepted by is herself.

### **Suspicious Minds**

Random House  
'A first class book' Sunday Times  
We're all conspiracy theorists. Some of us just hide it better than others. Conspiracy theorists do not wear tin-foil hats (for the most part). They are not just a few kooks

lurking on the paranoid fringes of society with bizarre ideas about shape-shifting reptilian aliens running society in secret. They walk among us. They are us. Everyone loves a good conspiracy. Yet conspiracy theories are not a recent invention. And they are not always a harmless curiosity. In *Suspicious Minds*, Rob Brotherton explores the history and consequences of conspiracism, and delves into the research that offers insights into why so many of us are drawn to implausible, unproven and unproveable conspiracy theories. They resonate with some of our brain's built-in quirks and foibles, and tap into some of our deepest desires, fears, and assumptions about the world. The fascinating and often surprising psychology of conspiracy theories tells us a lot - not just why we are drawn to theories about sinister schemes, but about how our minds are wired and, indeed, why we believe anything at all. Conspiracy theories are not some psychological aberration - they're a predictable product of how brains work. This book will tell you why, and what it means. Of course, just because your brain's

biased doesn't always mean you're wrong. Sometimes conspiracies are real. Sometimes, paranoia is prudent.

In this Middle Grade foray into the 80's-nostalgia hit series from Netflix, when Erica's frenemy loses track of her mother's prized Parakeet, the two will have to work together to return the bird safe and sound, or deal with the consequences. They learn that even the toughest and smartest people need a little help now and then. Hawkins Indiana has been plagued by strange events for years now. With the Starcourt Mall's recent destruction, Erica has lost her favorite hangout spot and her "free Ice cream for life" deal at Scoops-Ahoy. To make matters worse, her brother is too busy for her and her mom won't let her play Dungeons and Dragons anymore. This is the story of an ambitious, bossy, brilliant ten-year-old dealing with boredom and the complexities of maintaining friendships through tough times. Written by Greg Pak (Stranger Things: Zombie Boys, Stranger Things: The Bully, Ronin Island) and Danny Lore (Queen of Bad Dreams, James Bond) with art by Valeria Favocchia (Stranger Things: Zombie Boys, Assassin's Creed), colors by Dan Jackson, and letters by Nate Piekos.

### The Supernatural Enhancements

St. Martin's Griffin Chief Jim Hopper reveals long-awaited secrets to Eleven about his old life as a police detective in New York City, confronting his past before the events of the hit show Stranger Things. Christmas, Hawkins, 1984. All Chief Jim Hopper wants is to enjoy a quiet first Christmas with Eleven, but his adopted daughter has other plans. Over Hopper's protests, she pulls a cardboard box marked "New York" out of the basement-and the tough questions begin. Why did Hopper leave Hawkins all those years ago? What does "Vietnam" mean? And why has he never talked about New York? Although he'd rather face a horde of demogorgons than talk about his own past, Hopper knows that he can't deny the truth any longer. And so begins the story of the incident in New York-the last big case before everything changed... Summer, New York City, 1977. Hopper is starting over after returning home from Vietnam. A young daughter, a caring wife, and a new beat as an NYPD detective make it easy to slip back into life

as a civilian. But after shadowy federal agents suddenly show and seize the files about a series of brutal, unsolved murders, Hopper takes matters into his own hands, risking everything to discover the truth. Soon Hopper is undercover among New York's notorious street gangs. But just as he's about to crack the case, a blackout rolls across the boroughs, plunging Hopper into a darkness deeper than any he's faced before.

"Spurious Correlations ... is the most fun you'll ever have with graphs."--Bustle Military intelligence analyst and Harvard Law student Tyler Vigen illustrates the golden rule that "correlation does not equal causation" through hilarious graphs inspired by his viral website. Is there a correlation between Nic Cage films and swimming pool accidents? What about beef consumption and people getting struck by lightning? Absolutely not. But that hasn't stopped millions of people from going to tylervigen.com and asking, "Wait, what?" Vigen has designed software that scours enormous data sets to find unlikely statistical

correlations. He began pulling the funniest ones for his website and has since gained millions of views, hundreds of thousands of likes, and tons of media coverage. Subversive and clever, Spurious Correlations is geek humor at its finest, nailing our obsession with data and conspiracy theory.
