CHAMBERS MORGAN

Advances in Karst Research Aust. Bureau of Statistics
 This volume covers major advances in the study of the geomorphology, hydrology, engineering geology and management of these specialized and fragile environments. The book will be valuable for geologists, engineers and geophysicists interested in karst, along with land planners, developers, and managers of show caves, natural parks and reserves in karst areas.
Catalog of Government Publications in the Research Libraries Springer Nature
 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by

the executive departments and agencies of the Federal Government.
New South Wales Government Gazette Springer Nature
 The First Southern African Geotechnical Conference was organised by the Geotechnical Division of the South African Institution of Civil Engineering (SAICE) under the auspices of the International Society of Soil Mechanics and Geotechnical Engineering (ISSMGE) and took place at Sun City, South Africa on 5 and 6 May 2016. More than 60 papers were rec
Library Journal Geological Society of London
 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

Bulletin Aust. Bureau of Statistics
 Issues for 1901/07-1901/20 include corrected statistics for the period 1788 to 1900.

Official Year Book of the Commonwealth of Australia, No. 11 - 1918 Geological Society of London
 This book provides the first full account of the 20-year story of universal access and service in South Africa's ICT sector. From 1994 the country's first democratic government set out to redress the deep digital divide afflicting the overwhelming majority of its citizens, already poor and disenfranchised, but likewise marginalised in access to telephone infrastructure and

services. By this time, an incipient global policy regime was driving reforms in the telecomms sector, and also developing good practice models for universal service. Policy diffusion thus led South Africa to adopt, adapt and implement a slew of these interventions. In particular, roll-out obligations were imposed on licensees, and a universal service fund was established. But an agency with a universal service mandate was also created; and licences in under-serviced areas were awarded. The book goes on to identify and analyse the policy success and failure of each of these interventions, and suggests some lessons to be learned. Government Gazette Aust. Bureau of Statistics

Heritage stones are building and ornamental stones that have special significance in human culture. The papers in this volume discuss a wide variety of such materials, including stones from Europe, Asia, North and South America, Africa and Australia. Igneous (basalt,

porphyry, granite), sedimentary (sandstone, limestone) and metamorphic (marble, quartzite, gneiss, soapstone, slate) stones are featured. These have been utilized over long periods of time for a wide range of uses contributing to the historic fabric of the built environment. Many of these stones are of international significance, and so are potential Global Heritage Stone Resources, that is stones that have the requisite qualities for international recognition by the Heritage Stones Subcommittee of the International Union of Geological Sciences. The papers bring together diverse information on these stones ranging from their geological setting and quarry locations to mechanical properties, current availability, and uses over time. As such the papers can serve as an entry into the literature on these important stones.
