Greystone Kids
Little People, BIG
DREAMS: Earth Heroes is
a boxed gift edition set of
three books—Jane
Goodall, David
Attenborough, and Greta
Thunberg—from the best-
selling series.

**Little People, BIG
DREAMS: Earth Heroes**

Teen Strong
"A must-read ecological
message of hope . . .
Everyone with an interest
in the future of this planet
should read this book." --
David Mitchell, The
Guardian
When climate
activist Greta Thunberg
was eleven, her parents
Malena and Svante, and
her little sister Beata,
were facing a crisis in
their own home. Greta
had stopped eating and
speaking, and her mother
and father had

reconfigured their lives to
care for her. Desperate
and searching for
answers, her parents
discovered what was at
the heart of Greta's
distress: her imperiled
future on a rapidly
heating planet. Steered
by Greta's determination
to understand the truth
and generate change,
they began to see the
deep connections
between their own
suffering and the planet's.
Written by a remarkable

family and told through the voice of an iconoclastic mother, *Our House Is on Fire* is the story of how they fought their problems at home by taking global action. And it is the story of how Greta decided to go on strike from school, igniting a worldwide rebellion.

Canviem el món Beach Lane Books

A new expanded and illustrated edition of the history-making speeches of Greta Thunberg, the young activist who has become the voice of a

generation 'We are the change and change is coming' In August 2018 a fifteen-year-old Swedish girl, Greta Thunberg, decided not to go to school one day. A year later, she was joined in her strike by over seven million people around the world. This is the record of a game-changing year in the fight against the climate crisis. Collecting the speeches that sparked a global movement, and iconic images of those who made it happen, *No One Is Too Small to Make A Difference* is a rallying

cry for why we must all wake up and fight to protect the living planet, no matter how powerless we feel. Our future depends upon it. With new speeches from Vienna, Paris, New York and Montreal *Greta Thunberg and the Climate Crisis* Scholastic UK
Discover how Greta Thunberg is helping to change the world! With all the inside info on Greta and her movement, this book is packed with facts about the leading activist herself, quotes from her

inspirational speeches and information about climate change. Perfect for those who want to know more about global warming, its devastating effects and what they can do to help make a difference! With top tips and advice on how budding environmentalists can make small changes in their everyday lives to help save our planet, this 100% unofficial guide will inspire an entire generation.

I Know This to be True:
Bryan Stevenson Destino

CAT
On the brink of a critical moment in human history, this book presents a vision of "planetary stewardship" - a rethinking of our relationship with our planet - and plots a new course for our future. The authors, whose work is the subject of a new Netflix documentary released in summer 2021 and narrated by Sir David Attenborough, reveal the full scale of the planetary emergency we face - but also how we can stabilise Earth's life support

system. The necessary change is within our power if we act now. In 2009, scientists identified nine planetary boundaries that keep Earth stable, ranging from biodiversity to ozone. Beyond these boundaries lurk tipping points. To stop short of these tipping points, the 2020s must see the fastest economic transition in history. This book demonstrates how societies are reaching positive tipping points that make this transition possible: Activism groups such as Extinction

Rebellion, or the schoolchildren inspired by Greta Thunberg demand political action; countries are committing to eliminating greenhouse gas emissions; and one tipping point has even already passed - the price of clean energy has dropped below that of fossil fuels. Inside the pages of this scientifically-led publication, world-leading climate-change experts explain the greatest crisis humanity has ever faced. - Expert-authored text in an accessible style for both

adults, and children ages 14+ - A breakdown of the 9 planetary boundaries for relative stability on Earth, ranging from biodiversity to the ozone layer - An exploration of climate "tipping points" - good and bad - Stunning infographics and images visualising the problems and solutions to climate change - Contains detailed and unique images of Earth produced by Globaïa, the world's leading visualisers of human impact
Our House Is on Fire
 Penguin

This fascinating book introduces readers to the life and work of Greta Thunberg, including her passionate speeches to raise awareness about climate change. Historic images, "Did You Know?" sidebars, and a "Topic Spotlight" special feature provide added interest and context.

Greta Thunberg Franklin Watts

The history-making, ground-breaking speeches of Greta Thunberg, the young activist who has become the voice of a generation 'Everything

needs to change. And it has to start today' In August 2018 a fifteen-year-old Swedish girl, Greta Thunberg, decided not to go to school one day. Her actions ended up sparking a global movement for action against the climate crisis, inspiring millions of pupils to go on strike for our planet, forcing governments to listen, and earning her a Nobel Peace Prize nomination. This book brings you Greta in her own words, for the first time. Collecting her speeches

that have made history across Europe, from the UN to mass street protests, No One Is Too Small to Make A Difference is a rallying cry for why we must all wake up and fight to protect the living planet, no matter how powerless we feel. Our future depends upon it.
The Manufacturing of Greta Thunberg Lerner Publications (Tm)
 Quan la Greta Thunberg va prendre consciència del desastre que suposarà per a la humanitat el canvi climàtic, va decidir

començar a lluitar per aturar-lo. L'agost del 2018 va iniciar una vaga escolar que ara com ara ja segueixen centenars de milers d'estudiants a tot el món. Des de llavors ha aconseguit cridar l'atenció mediàtica i parlar davant dels líders mundials amb un missatge molt clar: els adults han d'actuar, perquè quan els joves d'avui siguin grans ja no hi haurà marxa enrere. La Greta, que té un trastorn d'Asperger, és candidata al Premi Nobel de la Pau. Aquest volum és un recull de tots els seus discursos.

"Estem davant d'un desastre mundial i ara és moment de parlar clar". El canvi climàtic aviat serà irreversible. Els polítics no reaccionaran. Potser tu sí. #vagapelclima Amb la col·laboració de la Generalitat de Catalunya, Departament de Cultura.

Palm Trees at the North Pole: The Hot Truth about Climate

Change National Geographic Books
Be inspired by one of the world's most important and influential campaigners! Discover the story of Greta, from

her decision to skip school in favour of her one-person strike outside Swedish parliament, to her current role as a spearhead of an international movement. Follow her carbon-free journey across the world, where she met world leaders, addressed the UN and called out trolls. As well as this, understand her perspective on difference, such as her Asperger's being a superpower. This book not only shows her rise and outlines her campaigning agenda but also explains

in clear detail what climate change is, the damage that is happening and what we need to do to ensure the planet is habitable and sustainable for future generations. Understand the science behind the climate crisis and our responsibility to the planet - a responsibility that has been largely neglected by previous generations. This is the perfect book for aspiring climate activists age 8+.

Breaking Boundaries

Frances Lincoln Limited
Discover the true story of

climate change: from farting cows to roaring cars, and everything in-between. Finally, a book to explain everything you need to know about climate change--and then some. *Palm Trees at the North Pole* is about exploding volcanoes and brave inventors. About arguing scientists and young activists. About cute little pikas and devastating hurricanes. About mammoths and icebergs, dykes and windmills--and most importantly, about science and facts. Clear,

accessible, funny--and accompanied by detailed illustrations that bring the story to life--*Palm Trees at the North Pole* encourages young climate activists to engage even more deeply with their chosen cause, while also serving as a perfect primer for those new to the issue.

Our House Is on Fire

Penguin

Greta Thunberg, a young Swedish climate change activist with Asperger's syndrome, has faced many challenges in her efforts to make governments around the

world take action for our planet's health.

No One Is Too Small to Make a Difference

Penguin UK

The manufacturing of Greta Thunberg - for consent: the political economy of the non-profit industrial complex We are introduced to the not-so accidental phenomena of Greta Thunberg, the current child prodigy and face of the youth climate change movement. The "climate change is real" message is reframed for public consumption and rolled out at an

international level, using Greta and her global platform to "sound the alarm" on climate change. This climate emergency is likened to a "house on fire", while urging the public to be serious, patriotic, empathetic and, of course, nonviolent. Not one sentence of the new strategy mentions the horrific impact militarism has on climate change. The New Climate Economy being pushed by groups like Extinction Rebellion merely repackage our oppression into emergency mode.

This urgency becomes global so that governments, NGOs and corporations will all direct immediate funding towards unlocking trillions of capital needed to save capitalism by further funding the new green imperialism. Today's youth are used and molded into market solutions to insulate a global elite. Celebrity-sponsored activism seeks to build a new industry in which NGOs, the media and corporate powers collude to get people to support the very

industries we should be erasing from the planet. The planet's most powerful capitalists lie behind these "youth-led" movements for climate change, helping to manufacture consent for the "fourth industrial revolution" in an attempt to quell resistance to industrial civilisation.

Who Is Greta Thunberg? Dorling Kindersley Ltd

The I Know This to Be True series is a collection of extraordinary figures from diverse backgrounds answering the same

questions, as well as sharing their compelling stories, guiding ideals, and insightful wisdom. Bryan Stevenson has committed his career to fighting wrongful convictions, systemic poverty, and mass incarceration—here, he shares the lessons he's learned throughout his life. Stories include how his slave ancestry shaped his childhood, how a poignant conversation with a death row inmate impacted his work, and why he believes the worst thing that happens to a

person shouldn't define their life. • Bryan Stevenson is one of today's most influential social justice attorneys and author of the bestselling book *Just Mercy* • This book is an encouraging road map for aspiring activists and anyone who believes in second chances • The landmark book series brims with messages of leadership, courage, compassion, and hope Inspired by Nelson Mandela's legacy and created in collaboration with the Nelson Mandela

Foundation, *I Know This to Be True* is a global series of books created to spark a new generation of leaders. This series offers encouragement and guidance to graduates, future leaders, and anyone hoping to make a positive impact on the world. • Royalties from sales of the series support the free distribution of material from the series to the world's developing economy countries • Great for those who loved *Letters of Note: An Eclectic Collection of Correspondence*

Deserving of a Wider Audience by Shaun Usher, Long Walk to Freedom: The Autobiography of Nelson Mandela by Nelson Mandela, and Just Mercy: A Story of Justice and Redemption by Bryan Stevenson

No One Is Too Small to Make a Difference

Simon and Schuster
Learn the story of TIME PERSON OF THE YEAR Greta Thunberg, the sixteen-year-old climate activist who has sparked a worldwide student movement and is demanding action from world leaders

who refuse to address climate change—from acclaimed picture book creator Jeanette Winter. I don't want you to be hopeful. I want you to panic...I want you to act as if our house is on fire. Because it is. When she was fifteen years old, Greta Thunberg's teacher explained to her class that our climate is changing—the earth is getting warmer, the polar ice caps are melting, and life on earth is threatened. Greta was devastated. What could she do? If the grown-ups

weren't doing enough to save the planet, Greta would have to demand change herself. So she went on strike, skipping school every Friday to sit outside of the Swedish Parliament building with a sign that read "School Strike for Climate." At first, Greta was the only one. But gradually, more and more students joined her, until her lone protest had sparked a worldwide student movement for action on climate change. Now, a year later, Greta is speaking to audiences of world leaders at important

meetings like the United Nations Climate Conference and the World Economic Forum. She is leading the conversation on climate change and sparking worldwide conversation on how to save our planet. Greta is showing everyone that even the smallest person can make a big difference, and this picture book informs and inspires young readers who are beginning to learn about the world around them.

[Greta's Story](#) Chronicle Books

"Motivated by government apathy regarding climate change, 15-year-old Greta Thunberg held a demonstration that would ignite a global movement. Read more about Greta and the environmental movement that is changing the world"--

Planet Greta: How Greta Thunberg Wants You to Help Her Save Our Planet BoD - Books on Demand

The inspiring story of a young Swedish schoolgirl who sparked a worldwide revolution, told in a new

Who HQ NOW format for trending topics. When she was just fifteen years old, Greta Thunberg knew she wanted to change the world. With a hand-painted sign that read "School strike for the climate" in Swedish, Greta sat alone on the steps of the Swedish parliament to call for stronger action on climate change. Her one-person strike would soon spark a worldwide movement. This exciting story details the defining moments in Greta's childhood that led up to her now-famous strike

and all the monumental ones that have fueled her revolution since, including being named Time's Most Influential Person of the Year in 2019.

Fighting Climate Change with Greta Thunberg

North Star Editions, Inc.

The inspiring true story of Greta Thunberg, a young eco-activist whose persistence sparked a global movement. You are never too young to make a difference. Ever since she learned about climate

change, Greta Thunberg couldn't understand why politicians weren't treating it as an emergency. In August 2018, temperatures in Sweden reached record highs, fires raged across the country, and fifteen-year-old Greta decided to stop waiting for political leaders to take action. Instead of going to school on Friday, she made a sign and went on strike in front of Stockholm's parliament building. Greta's solo protest grew

into the global Fridays for Future—or School Strike 4 Climate—movement, which millions have now joined. She has spoken at COP24 (the UN summit on climate change) and has been nominated for the Nobel Peace Prize. This timely, unofficial biography is her story, but also that of many others around the world willing to fight against the indifference of the powerful for a better future.
