Ann Cameron's beloved and bestselling chapter book series about Julian, his brother Huey, and his friend Gloria all begins right here! Julian has a big imagination. And he is great at telling stories. He can make people—especially his younger brother, Huey—believe just about anything. Like the story about the cats that come in the mail. Or the fig leaves that make you grow tall if you eat them off the tree. But some stories can lead to a heap of trouble, and that's exactly where Julian

and Huey end up! This book has been selected as a Common Core State Standards Text Exemplar (Grades 2-3, Stories) in Appendix B. "You have to go a long way these days to find a book that leaves you feeling as happy as this one." —The New York Times "There's a glow here that's hard to resist." —Booklist

Bestselling classic *The Stories Julian Tells* is just the beginning! Get ready for more of Julian's wonderful family and imagination in the *Julian's World* chapter book series! Julian is back with more great tales to tell. There's the one about the day so hot that even frogs wore shoes. Or the time his best friend, Gloria, made the sun move. Sometimes, though, Julian's way with words can backfire. That's what happens when Julian calls his kid brother, Huey, a name—and their father overhears. How can a few little words get Julian into such big trouble? "Reflecting incidents true to children (making a bet with a friend, sending a message in a bottle, attempting to be brave), these stories are the sort that will make children ask for more." —School Library Journal, starred review

BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

WONDER IS NOW A MAJOR MOTION PICTURE STARRING JULIA ROBERTS AND JACOB TREMBLAY!

Over 6 million people have read the #1 New York Times bestseller *Wonder*—the book that inspired the Choose Kind movement—and have fallen in love with Auggie Pullman, an ordinary boy with an extraordinary face. From the very first day Auggie and Julian met in the pages of R. J. Palacio's life-changing book *Wonder*, it was clear they were never going to be friends, with Julian treating Auggie like he had the plague. And while *Wonder* told Auggie's story through six different viewpoints, Julian's perspective was never shared. Readers could only guess what he was thinking. Until now. The Julian Chapter will finally reveal the bully's side of the story. Why is Julian so unkind to Auggie? And does he have a chance for redemption?

Gloria is best friends with Julian and his little brother Huey, and she has as much to say as they do. There's the parrot that ruins the Valentine for her mother; Huey's dog, who needs to be cured of his squirrel obsession; and what happens when classmate Latisha tricks Gloria, Julian, and Huey—but they don't know until it's too late! Fans of Ann Cameron's best-selling chapter books about Julian and Huey will love Gloria, too. "This is where peace begins—in an ordinary neighborhood where children learn to address their problems with the help of wise adults who offer them good counsel while respecting the children enough to let them work out their own solutions . . . Sparkles with humor." (The Horn Book)

Adult books are categorized by genre (i.e., fiction, mystery, science fiction, nonfiction). Along with bibliographic information, the expected date of publication and the names of literary agents for individual titles are provided. Starred reviews serve several functions: In the adult section, they mark potential bestsellers, major promotions, book club selections, and just very good books; in the children's section, they denote books of very high quality. The unsigned reviews manage to be discerning and sometimes quite critical.

Children's Literature: An Issues Approach, Third Edition is an invaluable text and resource guide to

the critical study and selection of books for children from kindergarten through junior high school. Written for teachers, librarians, and anyone interested in introducing young people to the joy and benefits of reading, it examines children's literature and its treatment of important, sometimes controversial issues. Focusing on the personal and societal concerns of today's youth including sexuality, divorce, heritage, abuse, and death it offers practical suggestions for using books to help children successfully confront these matters.

This ambitious series gives the reader a comprehensive narrative of late Roman military history from 284-641. Each volume (5 are planned) gives a detailed account of the changes in organization, equipment, strategy and tactics among both the Roman forces and her enemies in the relevant period, while also giving a detailed but accessible account of the campaigns and battles. Volume I covers the period 284-361, starting with recovery from the 'third-century crisis' and the formation of the Tetrarchy. Constantine's civil wars and stabilization are also major themes, with the pattern repeated under his sons. Constantius II's wars against the usurper Magnentius, the Danubian tribes and the Sassanid Persians illustrate the serious combination of internal and external threats the Empire faced at this time. The author discusses these and the many other dramatic military events in their full context and puts forward some interesting conclusions on strategic and tactical developments. He argues, for example, that the Roman shift from infantry to cavalry as the dominant arm occurred considerably earlier than usually accepted. Anyone with an interest in the military history of this period will find it both informative and thought-provoking.

From award-winning author Lynda Clark come sixteen engrossing stories weaving together elements of folklore, fantasy and speculative fiction, all of them in Clark's darkly humorous style. In ' Ghillie's Mum', shortlisted for the BBC Short Story Award, a shape-shifting mother needs to decide whether to compromise and stay in her human form, or lose her son. In ' Total Transparency', the protagonist is learning how to live with a gradually disappearing wife. In ' Blanks', people are paying to create clones of themselves so they will never die. And in ' Dreaming in Quantum', there's a murder to be solved which echoes through dimensions only accessible in dreams.

[The Julian Chapter: A Wonder Story](#) Reed Reference Publishing

A comprehensive guide to multicultural literature for children, this valuable resource features more than 1,600 titles—including fiction, folktales, poetry, and song books—that focus on diverse cultural groups. The selected titles, published between the 1970s and 1990s are suitable for use with preschoolers through sixth graders and are likely to be found on the shelves of school and public libraries. Topics are timely, with an emphasis on books that reflect the needs and interests

of today's children. Each detailed entry includes bibliographic information. Use level is also included, as are cultural designation, subjects, and a summary. The invaluable Subject Access section incorporates use level culture information.

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry

With a slender design and appealing art, Cullinan and Galda present a thought provoking discussion on how children can read to respond, read to learn, and read to enjoy. This text provides evaluation criteria for selecting superior children's books, rather than listing thousands of titles and synopses. Booklists direct readers to quality literature, and extended discussions of selected titles demonstrate the selection criteria. Multicultural literature is discussed throughout the text, with a separate chapter on more specific multicultural issues. Numerous teaching ideas, many of which are contributed by classroom teachers, provide practical applications. This is a book for teachers, stressing the use of good books in a literature based curriculum.

"If Julian has not already won readers' hearts with his [earlier] exploits, he will here when he tries to find out his father's secret dream for a birthday present. Surprised at hearing his father mumble 'two snakes,' Julian duly catches and presents them, only to discover that snakes are his father's recurring nightmare. Cameron's style is elegantly smooth and the characters come alive through easy dialogue and involving action."--Bulletin, Center for Children's Books.
