Michael Patrick Finnigan was a New York City cop and a US Marshal who figured out that following the rules doesn't always get the job done. Katalin Fiero Dahar was a soldier, spy, and assassin for Spain, who figured out that breaking the rules doesn't always get the job done. Together, they created St. Nicholas Salvage & Wrecking, a largely illegal bounty hunting operation based in Cyprus and working throughout Europe. Operating under the radar for the presiding judge of the International Criminal Court, they track down the worst of the world's worst. Someone is kidnapping Middle Eastern refugee children as they flee war-torn countries and selling them into prostitution around the world. Finnigan and Fiero get the assignment to track them down and save the refugees. But when they discover that the perpetrators are a Serbian mobster—with patronage at the highest levels of the United Nations—and a battalion of the Kosovo military, the partners reach out to their "friends" to find justice, including a corrupt banker, a cadre of mercenaries, and a crew of professional thieves. The battle to stop the mass kidnappings ranges from Belgrade and Zagreb, to the Loire Valley and Milan, and to the plains of Kosovo. As Finnigan and Fiero close in, the conspirators realize that the judge of the ICC is the real threat and plan an assassination. Now the partners have to save their patron and the kidnapped refugees from a rogue military force with nothing left to lose.

If you are considering building a wine cellar or a wine room, this is the first book to read. It will help you answer the questions "How do I store wine," "How do I build my own wine room," and "Where to store wine." The book has over thirty-eight thousand words and over one hundred pictures, diagrams and drawings. The books three main sections are Major Design Considerations, Detailed Design Considerations, and Wine Cellar Construction. In Major Design Considerations, cost is discussed and methods of reducing cost and maximizing your wine room are detailed. Also discussed are where to locate your wine room, what size it should be, characteristics of different types of racks, style and operation of the cooling system. In Detailed Design Considerations are discussed detailed room layouts, room construction, flooring and refrigeration. In Wine Cellar Construction, details of actually building a room, including types of insulation, how to build the racks along with appropriate jigs, what electrical work is required and what kinds of tools are needed. At the end of the book are listed a number of other books which could be useful in building your own wine room.

How do we know if we can beat the bookmaker? That's easy: just look at our bank balance. But how do we know if we've not just been lucky? More specifically, how do we know that someone who says he can do it, and who is selling his 'expertise', can keep doing it again and again, through talent, skill and hard work? This book examines the techniques available to answer that question, to identify those qualities and to help the punter find value for money in an industry that appears to be largely built on trust and the influence of chance; to uncover the truth about sports tipsters and ultimately how to find the best tipsters - the 'Black Cats'.

Tony Aspler's Cellar Book Gamer Guides

This is a "how to" book written by a "know how" person for anyone who practices firefighting strategy. Deputy Chief Vincent Dunn is passing on to the next generation of firefighters the lessons ("strategy summaries") he learned from his years of firefighting experience. He describes firefighting strategies for the most common types of fire scenarios and identifies specific firefighting problems presented to an incident commander by occupancy and construction type. More importantly, he explains firefighting solutions and offers firefighting plans, standard procedures, action plans, ideas, guidelines, explanations, key steps, and systems of firefighting procedures. This book is not about tactics. It's about strategy - plans of firefighting, logical

ways to solve problems at fires.

There are many books on the technical aspects of film and video editing. Much rarer are books on how editors think and make creative decisions. Filled with timeless principles and thought-provoking examples from a variety of international films, the second edition of Karen Pearlman's *Cutting Rhythms* offers an in-depth study of the film editor's rhythmic creativity and intuition, the processes and tools editors use to shape rhythms, and how rhythm works to engage audiences in film. While respecting the importance of intuitive flow in the cutting room, this book offers processes for understanding what editing intuition is and how to develop it. This fully revised and updated edition contains: New chapters on collaboration and "editing thinking"; Advice on making onscreen drafts before finalizing your story Tips on how to create and sustain audience empathy and engagement; Explanations of how rhythm is perceived, learned, practiced and applied in editing; Updated discussions of intuition, structure and dynamics; An all-new companion website (www.focalpress.com/cw/pearlman) with video examples and links for expanding and illustrating the principles of key chapters in the book.

The West in Asia and Asia in the West McGraw Hill Professional

In this volume the author completes his study of the period of the Counter-Reformation between the years 1537- 1622. On the basis of the original documents he reveals the underground work of the agents of the Counter-Reformation in their attempt to entice eligible students from the far North to study at Jesuit colleges in Dorpat, Vilna, Braunsberg, Prague, Graz, and Rome at the expense of the Holy See with a view to infiltrating them into the body politic of the Scandinavian kingdoms at all levels of society, viz. church, school, state bureaucracy. In his analysis the author attempts to identify the students involved and trace their degree of success.
