TIANA ERIN

Elevating Child Care Future Horizons Solve typical toddler challenges with eight key mindshifts that will help you parent with clarity, calmness and self-control. Through stories from her practice, Claire Lerner shows parents how making critical mindshifts—seeing their children’s behaviors through a new lens —empowers parents to solve their most vexing childrearing challenges. This process puts parents back in the driver’s seat, where they belong and where their children need them to be. These real life stories provide a roadmap for how to tune into the root causes of children’s behavior and how to create and implement strategies that are tailored to the unique needs of each child and family. Through these stories, Claire provides a treasure trove of practical solutions that are based in science and which work in real life. *Why Is My Child In Charge?* picks up where other books have left parents hanging. Most parenting books offer solutions that sound good on paper but don’t work in practice. They are aspirational rather than achievable, or they offer one-size-fits-all approaches that don’t meet the needs of an individual child. They can compound parents’ feelings of frustration and thus, can be counterproductive. Case by case, Claire unpacks the individualized process she guides parents through to solve the most common challenges such as throwing tantrums in public; delaying bedtime for hours; refusing to participate in family mealtimes; and resisting potty training. Employing a relatable story-telling approach, Claire elucidates: The faulty mindsets that pose obstacles to parents

seeing the situation more objectively The essential mindshifts that enable parents to quickly identify the root causes of the problem The development of an action plan tailored to each unique child and family *Why is My Child in Charge?* is like having a child development specialist in your home. It shows how you can develop “win-win” strategies that translate into adaptable, happy kids and calm, connected and in-control parents. It will help you be the parent you want to be.

I Choose To Try Again Free Spirit Publishing

A modern classic on the gentle art of discipline for toddlers, by the internationally renowned childcare expert, podcaster, and author of *Elevating Child Care* “No Bad Kids provides practical ways to respond to the challenges of toddlerhood while nurturing a respectful relationship with your child.”—Tina Payne Bryson, PhD, co-author of *The Whole-Brain Child* and *No-Drama Discipline* Janet Lansbury is unique among parenting experts. As a RIE teacher and student of pioneering child specialist Magda Gerber, her advice is not based solely on formal studies and the research of others, but also on her more than twenty years of hands-on experience guiding hundreds of parents and their toddlers. A collection of her most popular articles about toddler behavior, *No Bad Kids* presents her signature approach to discipline, which she sees as a parent’s act of compassion and love for a child. Full of wisdom and encouragement, it covers common toddler concerns such as: • Why toddlers need clear boundaries—and how to set them without yelling • What’s going on when they bite, hit, kick, tantrum, whine, and talk back • Advice for parenting a strong-willed child • How to be a gentle

leader, and Lansbury's secret for staying calm For parents who are anticipating or experiencing those critical years when toddlers are developmentally obliged to test the limits of our patience and love, No Bad Kids is a practical, indispensable resource for putting respectful discipline into action.

No Hitting! National Geographic Books

Who of us cannot remember the pain and humiliation of being rejected by our classmates? However thick-skinned or immune to such assaults we may become as adults, the memory of those early exclusions is as palpable to each of us today as it is common to human experience. We remember the uncertainty of separating from our home and entering school as strangers and, more than the relief of making friends, we recall the cruel moments of our own isolation as well as those children we knew were destined to remain strangers. In this book Vivian Paley employs a unique strategy to probe the moral dimensions of the classroom. She departs from her previous work by extending her analysis to children through the fifth grade, all the while weaving remarkable fairy tale into her narrative description. Paley introduces a new rule—"You can't say you can't

play”—to her kindergarten classroom and solicits the opinions of older children regarding the fairness of such a rule. We hear from those who are rejected as well as those who do the rejecting. One child, objecting to the rule, says, “It will be fairer, but how are we going to have any fun?” Another child defends the principle of classroom bosses as a more benign way of excluding the unwanted. In a brilliant twist, Paley mixes fantasy and reality, and introduces a new voice into the debate: Magpie, a magical bird, who brings lonely people to a place where a full share of the sun is rightfully theirs. Myth and morality begin to proclaim the same message and the schoolhouse will be the crucible in which the new order is tried. A struggle ensues and even the Magpie stories cannot avoid the scrutiny of this merciless pack of social philosophers who will not be easily caught in a morality tale. *You Can’t Say You Can’t Play* speaks to some of our most deeply held beliefs. Is exclusivity part of human nature? Can we legislate fairness and still nurture creativity and individuality? Can children be freed from the habit of rejection? These are some of the questions. The answers are to be found in the words of Paley’s schoolchildren and in the wisdom of their teacher who respectfully listens to them. [The New Social Story Book](#) Alicia Ortego

A modern parenting classic—a guide to a new and gentle way of understanding the care and nurture of infants, by the internationally renowned childcare expert, podcaster, and author of *No Bad Kids* “An absolute go-to for all parents, therapists, anyone who works with, is, or knows parents of young children.”—Wendy Denham, PhD A Resources for Infant Educators (RIE) teacher and student of pioneering child specialist Magda Gerber, Janet Lansbury

helps parents look at the world through the eyes of their infants and relate to them as whole people who have natural abilities to learn without being taught. Once we are able to view our children in this light, even the most common daily parenting experiences become stimulating opportunities to learn, discover, and connect with our child. A collection of the most-read articles from Janet’s popular and long-running blog, *Elevating Child Care* focuses on common infant issues, including: • Nourishing our babies’ healthy eating habits • Calming your clingy, fearful child • How to build your child’s focus and attention span • Developing routines that promote restful sleep Eschewing the quick-fix tips and tricks of popular parenting culture, Lansbury’s gentle, insightful guidance lays the foundation for a closer, more fulfilling parent-child relationship, and children who grow up to be authentic, confident, successful adults.

Little Dinos Don't Hit Rodale Books

Being different from the masses is one of the greatest gifts that you possess! Let’s face it: Who wants to be just like everyone else? Talk about boring! People come in all shapes and sizes and are born with natural and unnatural gifts and talents like no other, and your greatest challenge is to discover your gifts and then apply them to the world to create a better place, a better planet, a better universe! That is my challenge to you so that all of us can get along peacefully and become truly a population of one. I would like to ask you some questions to help you discover what makes you unique, different, and awesome. Are you different? Are you unique? Do you look different than others? Talk differently than others? Do you walk differently than others? Have you been born with talents that very few others have? Have

you been brainwashed to look at your talents as a disability? Do you stay up nights dwelling on all the things in life you don't have, rather than focus on all the blessings you do have? Have you ever been bullied at school, at home, and in many areas in your life? Have you ever been called a retard, dumb, disabled? If you have answered yes to any of these questions, perhaps you have yet to understand, accept, and apply your unique gifts to make the world a better place. If you have answered Yes to any of these questions, I feel your pain, I have walked in your shoes, and I can empathize with your situation. I have been bullied, called a retard, told that I am disabled, put in special classes, advised that I should not expect to reach my goals. My name is Tyler McNamer and I have been called ALL of the above many, many times in my life. I am nineteen years old and have been blessed with autism my entire life. I have chosen to accept my label of autism not as a disability but as an extraordinary ability and I want to help you overcome the label that you may have suffered from for many years of your life. So what is autism? The dictionary defines autism as a mental condition, present from early childhood, characterized by great difficulty in communicating and forming relationships with others. Also, it is defined as a mental condition in which fantasy dominates over reality. So just how many people today are affected by this condition? According to a recent WebMD study, 1 in 88 kids today has autism and for boys the numbers is 1 in 54. Also you might be surprised to learn that since 2002, autism has increased by 78 percent. Let's put those numbers in perspective. A high school with 1,000 students enrolled is going to have 11

students with this condition, and a bigger high school with 2,500 students is going to have 28 students with autism. So, now that you know more about autism, let me highlight some of the things you will learn by reading this book since I want to assure you that this book is not just a book about autism it is a book about how we can all live together in harmony regardless of our differences. In this book, you are going to learn that, despite our differences and diversities, we can get along and become a population of one to serve others. In this book, you will learn the importance of becoming the leader in your own life, following your dreams. You will learn to focus on your blessings instead of being discouraged by your challenges. In this book, you will learn to embrace change and continue to learn for a lifetime. In this book, you will learn what it is like to be blessed with the unique ability of having autism. You will learn how not only to cope with your gifts, but to thrive in life and pursue your goals despite your challenges. In this book, you will learn how to turn your ability into a blessing to serve others

"Look at those feet! Aren't they sweet?" Yes—when they're walking, standing, leaping and landing. And when they're kicking balls or leaves. But not when they're kicking people! In simple words and charming full-color illustrations, this book helps little ones learn to use their feet for fun, not in anger or frustration. It also includes tips for parents and caregivers on how to help toddlers be sweet with their feet.

Turn Autism Around Free Spirit Publishing
From best-selling and beloved author Christne Harder Tangvald comes an updated and revised edition of her

classic book of comfort for grieving children, filled with heart-healing words, fresh watercolor illustrations, and practical resources that help adults guide children through loss. First published in 1988, *Someone I Love Died* has long comforted the hearts of children 4 to 8 who have lost someone close. It gently leads children through grief with age-appropriate words and solid biblical truth that understands a child's hurting heart. The added interactive resources ensure this book will become a treasured keepsake. Once complete, children create a memory book of the loved one's life. And it offers grown-ups a tool that turns what could be a difficult season into a meaningful time of healing.

Teeth Are Not for Biting AutismWorks Help your students learn how to communicate effectively, make good choices, and practice appropriate behavior with *Social Skills Matter!* This book includes reproducible mini-books for children to assemble, color, read, and make their own. Each mini-book focuses on a different facet of important social skills including cooperative play, learning about feelings, communication, school-day behavior, manners, and behavior management. Mastery of these essential social skills can be a factor in determining a child's future success, social acceptance, and happiness. Key Education products are intended to engage and educate young and special learners, as well as assist teachers in building a strong and developmentally appropriate curriculum for these children.

No Bad Kids National Geographic Books Describes in pictures the proper responses to real-life situations that youth with social communication challenges face on a daily basis.

Hitting Hurts FriesenPress

Help remediate—and in some cases eliminate—autism and other developmental delays in young children, even in as little as 15 minutes a day with this toolkit of behavioral practices that can be taught at home. Developmental delays and signs of autism usually show up before 18 months of age, yet children are often not diagnosed until they are 4 or 5 years old. In *Turn Autism Around*, Dr. Mary Barbera explains why parents

can't afford to worry and wait in long lines for evaluations and treatment while not knowing how to help their children. She empowers parents, caregivers, and early intervention professionals to regain hope and take back control with simple strategies to dramatically improve outcomes for their children. Dr. Barbera has created a new approach to teaching kids with developmental delays that uses the science of Applied Behavior Analysis (ABA) married with a positive, child-friendly methodology that any parent can use—whether or not their child has delays—to learn to teach communication skills, socialization strategies, as well as tackle sleep, eating, potty training, and behavior challenges in a positive, effective, and lasting way. Turn Autism Around is the first book of its kind that calls attention to an important fact: parents can make a tremendous impact on their child's development through behavioral practices taught at home, even in as little as 15 minutes a day. Her program shows these autism and developmental delays can be remediated, and in some cases, delays can be caught up altogether, if parents intervene while the child is young. This book is for parents of young children aged one-to-five years who are passionate about helping their child as well as learning how they can change the trajectory of their child's and family's life.

Gentlehands Harvard University Press I have made this Phonics Letter of the Week unit to address the Kindergarten(Prep) level of learning. The contents of this packet provide teachers with a variety of games, activities and worksheets to help teach correct letter formation, written letter identification and recognition of initial letter sound. My aim when creating this book was to

provide a unit for teaching one letter of the alphabet at a time. There is a great emphasis on letter sounds, which makes this an ideal tool for phonics teaching. There are 30 games, activities and worksheets that can be used to help you teach the letter Bb at the beginning of the year and to reinforce and consolidate what has been learnt throughout the year.

I Love You Rituals Free Spirit Publishing

Zach and his family go to the beach, but Zach is having a lousy day. First, he dropped his toothbrush in the toilet. Then his best friend went to someone else's birthday party instead of joining him. But most frustrating of all, he can't get his kite to fly! Zach kicks sand, yells angry words, and asks his dad if they can just go home. Instead, his dad teaches him a simple, three-step approach to dealing with frustration so he can find a way to enjoy himself even when things aren't going his way: Name it (why are you frustrated?) Tame it (self-regulation exercises such as deep breathing or visualization) Reframe it (change your thoughts to change your feelings). Zach Gets Frustrated teaches children social skills they will easily understand and remember when dealing with frustration. The three-point strategy is presented as the three corners of a triangle and is illustrated using the corners of Zach's kite. Zach Rules Series Zach struggles with social issues like getting along, handling frustrations, making mistakes, and other everyday problems typical of young kids. Each book in the Zach Rules series presents a single, simple storyline involving one such problem. As each story develops, Zach and readers learn straightforward tools for coping with their struggles and building stronger relationships now and

in the future.

What If Everybody Did That? Hay House, Inc

"Guess what happened at school today!" Kindergartners work and play happily in Miss Harmony's class. But Harry isn't being a good classmate! He's disrupting Friendly Circle, causing accidents, and upsetting the class. Can the Kindergartners find a way to help Harry learn to respect personal space? Beloved picture book author-illustrator Rosemary Wells brings her signature humor and trademark knack for understanding young readers to this new series, perfect for classroom use or for reading and sharing at home.

Hands Are Not for Hitting Rockridge Press

In this rhyming story, Kiara learns how to keep going even when things get too hard. Through colorful illustrations and rhythmic rhymes, Kiara reflects on her mistakes and realizes that mistakes help her grow. Instead of avoiding them, she learns from them so she can improve. Do you want your child to learn about perseverance and diligence? Your child will learn how easy it is to get back up

after failing. "I Choose to Try Again" is a story with social emotional learning (SEL) in mind. It has been praised by teachers and therapists worldwide. This story told from Kiara's point of view will help open your child's mind to what it feels like to fail, and then try again. Kiara will teach your child how to be mentally strong. With Kiara in real life examples, your child will learn to develop their understanding of their own emotions. Throughout the story, Kiara will show you what perseverance looks like. Teacher and Therapist Toolbox: I Choose is an empowering series curated to empower young children to become aware of big emotions. A new book series developed in tandem with teachers and therapists to help children cope with a range of emotions and teach them that they indeed hold the power to choose their actions and reactions. Try not to say 'never.'. That brainwashes you to fail. It means that you won't have the chance To raise the victory sail. "I Choose to Try Again" was developed alongside counselors and parents to be used as a resource in a social emotional curriculum.
