Sextrology draws insight from modern astrology to help people find their perfect sexual matches. This book takes an original, smart and sexy approach to evaluating astrological identities, and will again have people asking, 'What's your sign?'. In sophisticated, uninhibited language, Sextrology accomplishes what no existing astrology book has ever achieved: it candidly explores sexual relationships from an astrological perspective without insulting the reader with new-age mumbo jumbo or sugary advice for capturing a mate. Sextrology uncovers the naked truth of all possible cosmic couplings with candour, imaginations, and a wry sense of

humour. It focuses on the 24 sex signs, pointing out the difference between men and women of each sign, their particular sexual psychology and behaviour, secret desires, and even physical attributes. Both straight and gay sex are explored for each sex sign, while desires, turn-offs, fantasies, and foibles are investigated in titillating detail. No stone is left unturned in this provocative, highly entertaining look at the sexes and sexual relationships.

Dear Daughter of a Narcissistic Mother

A powerful memoir from the Saturday Night Live cast member Cecily Strong about grieving the death of her cousin—and embracing the life-affirming lessons he taught her—amid the coronavirus pandemic. Cecily Strong had a special bond with her cousin Owen. And so she was devastated when, in early 2020, he passed away at age thirty from the brain cancer glioblastoma. Before Strong could attempt to process her grief, another tragedy struck: the coronavirus pandemic. Following a few harrowing weeks in the virus epicenter

of New York City, Strong relocated to an isolated house in the woods upstate. Here, trying to make sense of Owen's death and the upended world, she spent much of the ensuing months writing. The result is *This Will All Be Over Soon*—a raw, unflinching memoir about loss, love, laughter, and hope. Befitting the time-warped year of 2020, the diary-like approach deftly weaves together the present and the past. Strong chronicles the challenges of beginning a relationship during the pandemic and the fear when her new boyfriend contracts COVID. She describes the pain of losing her friend and longtime Saturday Night Live staff member Hal Willner to the virus. She reflects on formative events from her life, including how her high school expulsion led to her

pursuing a career in theater and, years later, landing at SNL. Yet the heart of the book is Owen. Strong offers a poignant account of her cousin's life, both before and after his diagnosis. Inspired by his unshakable positivity and the valuable lessons he taught her, she has written a book that—as indicated by its title—serves as a moving reminder: whatever challenges life might throw one's way, they will be over soon. And so will life. So make sure to appreciate every day and don't take a second of it for granted.

The Moon Sign is one of the most important astrological features, but only a few people know their Moon Sign. The book explains how to find out your Moon Sign and shows on many examples how it works in the lives of celebrities. The knowledge of your Moon Sign will help you to discover your hidden talents, to better understand people around you, and to live a healthier and happier life. So what the Moon Sign is? You probably

know your "star sign" which is defined from the date of birth - when reading a "horoscope" in a newspaper or a magazine, you select the one for your "star sign". In fact, "star sign" is just a marketing term introduced by newspapers and magazines, it doesn't exist in real astrology. The astrological characteristic misnamed as "star sign" is actually the Sun Sign, i.e. the sign of the zodiac in which the Sun was situated at the moment of your birth. Okay, so you already know your Sun Sign, but still, what is the Moon Sign? It's the sign of the zodiac through which the Moon was traveling at the moment when you were born. The Moon is somewhat underestimated in Western Astrology but it is considered to be the main celestial body in Hindu Astrology, with its

uninterrupted, thousands years old tradition. Once you discover your Moon Sign, you'll feel like you've recognised something important, essential about yourself. You'll better understand your strengths and weaknesses and, if you want to dive that deep, you might even discover why you have chosen to live this life. These are just a few curious facts from the book: \* Both Bill Gates and Steve Jobs have pioneering Aries for their Moon Sign. \* Angelina Jolie and her father, Jon Voight, also share the same Moon Sign, and also Aries. \* Moon in Taurus gave the world some of the most popular authors including O. Henry, Alexandre Dumas, Ian Fleming and Hans Christian Andersen. \* Quite surprisingly, the Moon in Taurus also gave the world some of the prominent mystics: Edgar

Cayce, Carlos Castaneda, Emanuel Swedenborg, Jane Roberts. Carl Gustav Jung was also born with the Moon in Taurus, and some people could say he was also a mystic. \* Gemini is the Moon Sign of the many of the prominent world's leaders including Simon Bolivar, Catherine the Great, Giuseppe Garibaldi, Helmut Kohl. And you know what? Barack Obama is also in this company. \* Moon in Cancer gave birth to a whole presidential dynasty! Theodore Roosevelt, Franklin D. Roosevelt and Eleanor Roosevelt were all born with the Moon in Cancer. \* Here is another Moon Sign presidential connection: both George W. Bush and George H.W. Bush have diplomatic Libra for their Moon Sign. \* Some of the coolest movie heroes - Arnold Schwarzenegger, Matt Damon,

Brad Pitt, George Clooney - were all born with the Moon in Capricorn. In the book, you will find many more surprises and discoveries. It will also teach you: \* how to find out where the Moon is on the daily basis, and how to use that knowledge to make your life happier and more efficient; \* how to find a partner with whom you will live happily for many years; \* how to choose the safest day for a surgery, \* and many other things.
